

pipeline and existing loop. This alternative route would involve construction in residential areas as the surrounding area has been developed into several residential subdivisions since installation of the original mainline pipeline. The Kemblesville Loop Alternative Route 2 would be about 2.1 miles in length and would use previously disturbed land and two existing crossing locations of the White Clay Creek National Wild and Scenic River, administered by the U.S. Department of Interior's National Park Service, using a flume and/or dam and pump crossing method. In comparison, the currently proposed 3.9-mile-long route would follow existing rights-of-way for 41.9 percent of the route and would include two horizontal directional drill crossings of tributaries of the White Clay Creek National Wild and Scenic River.

An overview map of the Kemblesville Loop Alternative Route 2 that follows the existing Eastern Shore pipeline right-of-way and the currently proposed route is included in Appendix 1.³

Currently Identified Environmental Issues

We have identified several issues that we think deserve attention for our comparison of the proposed route and the Kemblesville Loop Alternative Route 2 based on a review of the proposed facilities and the environmental information provided by Eastern Shore. This preliminary list of issues may be changed based on your comments and our analysis.

- crossings of the White Clay Creek National Wild and Scenic River;
- old growth forested areas along the pipeline routes; and
- noxious weeds.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; commenters; and local libraries and newspapers. This list also includes landowners affected by the pipelines as currently proposed, as well as landowners that may be affected by the Kemblesville Loop Alternative Route 2. We will update the

environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed Project.

Copies of the completed EA will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of a CD version or would like to remove your name from the mailing list, please return the attached Information Request (Appendix 2).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site.

Additional Information

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, CP15-18). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Federal Energy Regulatory Commission

[Docket No. ER15-2134-000]

Sky River Asset Holdings, LLC; Supplemental Notice that Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Sky River Asset Holdings, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is July 29, 2015.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for

³ The appendices referenced in this notice are not being printed in the **Federal Register**. Copies of appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called "eLibrary" or from the Commission's Public Reference Room, 888 First Street NE., Washington, DC 20426, or call (202) 502-8371. City Water and Light Plant of the City of Jonesboro; Notice of Filing

July 9, 2015.

Take notice that on July 8, 2015, the City Water and Light Plant of the City of Jonesboro submitted a Supplement to its March 6, 2015 application of cost-based revenue requirements schedule for reactive power production capability.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and

interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. [Docket No. CP15-8-000]

Northwest Pipeline, LLC: Notice of Availability of the Environmental Assessment for the Proposed Kalama Lateral Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Kalama Lateral Project, proposed by Northwest Pipeline, LLC (Northwest) in the above-referenced docket. Northwest requests authorization to construct and operate about 3.1 miles of natural gas transmission pipeline and associated facilities in Cowlitz County, Washington. The Project would provide about 320 million cubic feet per day of natural gas to the NW Innovation Works' (NWIW) proposed Kalama Manufacturing & Marine Export Facility Methanol Plant, a methanol production facility that would be located at the Port of Kalama, also in Cowlitz County.

The EA assesses the potential environmental effects of the construction and operation of the Kalama Lateral Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of
