Notice of Availability of Environmental Assessment; Jonathan and Jayne Chase

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for a small hydropower project exemption for the Troy Hydroelectric Project, to be located on the Missisquoi River, in the Town of Troy in Orleans County, Vermont, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyzed the potential environmental effects of the project and concludes that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission’s Web site at <http://www.ferc.gov> using the “eLibrary” link.
