

Background

The Boston Felt Project was granted an exemption from licensing on August 29, 1983 (24 FERC ¶ 62,240). The project stopped operations in May 2006, due to a breach of the project dam by high river flows.

By letter of October 12, 2007, the Commission issued a letter to the exemptee directing it to file either a detailed plan and schedule to resume generation at the project, or a request to surrender the exemption. In response, the exemptee filed a plan and schedule on April 28, 2008.

By letter of July 3, 2008, the Commission directed the exemptee to provide quarterly progress reports of the status of project repairs to include documentation of contracts issued, permits obtained, agreements made, etc., which were to be filed October 1, 2008, January 1, 2009, April 1, 2009, July 1, 2009, and October 1, 2009, or until the project had resumed generation. In that letter, the exemptee was reminded that failure to provide progress reports showing adequate progress may subject it to further compliance action.

By letter dated January 21, 2009, the FWS stated that, as a result of the Boston Felt Project being in a state of disrepair, the project was adversely impacting fish and wildlife resources of the Salmon Falls River and cited the need to implement fish passage measures, pursuant to the mandatory terms and conditions of the exemption. In its letter, the FWS further stated that it is in the public interest to revoke the project exemption and require removal of the remaining portion of the dam spillway.

By letter of March 5, 2009, the Commission issued a letter to the exemptee requiring it to show cause why the Commission should not initiate proceedings to revoke its exemption for lack of adequate progress toward the resumption of generation at the project. In that letter, the Commission directed the exemptee to include documentation of contracts issued, permits obtained, agreements made, etc., to demonstrate adequate progress. In its response filed March 31, 2009, the exemptee stated that resumption of generation at the project may be beyond their available resources and further stated that, by August 1, 2009, it would provide the detailed information requested in the Commission's March 5, 2009.

To date, the information requested in the Commission's March 5, 2009 letter, has not been filed and the project remains inoperative.

1. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date.

m. Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number to which the filing refers.

n. *Agency Comments:* Federal, State, and local agencies are invited to file comments on the described proceeding. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments.

Kimberly D. Bose,

Secretary.
