Subsistence Management Regulations for Public Lands in Alaska—2024–25 and 2025–26 Subsistence Taking of Wildlife Regulations

AGENCY: Forest Service, Agriculture; Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This final rule establishes regulations for seasons, harvest limits, and methods and means related to the taking of wildlife for subsistence uses in Alaska for the 2024–25 and 2025–26 regulatory years. The Federal Subsistence Board (Board) completes the biennial process of revising subsistence hunting and trapping regulations in even-numbered years and subsistence fishing and shellfish regulations in odd-numbered years; public proposal and review processes take place during the preceding year. The Board also addresses customary and traditional use determinations during the applicable biennial cycle. This rule also revises the customary and traditional use determinations for wildlife, the general regulations, and a deferred proposal from the last fish cycle.

DATES: This rule is effective August 29, 2024.

Information Collection Requirements: If you wish to comment on the information collection requirements in this rule, please note that the Office of Management and Budget (OMB) is required to make a decision concerning the collection of information contained in this rule between 30 and 60 days after the date of publication of this rule in the **Federal Register**. Therefore, comments should be submitted to OMB by September 30, 2024.

ADDRESSES: The comments received on the proposed rule as well as the Board meeting transcripts are available at <https://www.regulations.gov> in Docket No. FWS-R7-SM-2022-0105. Board meeting transcripts are also available for review at the Office of Subsistence Management, 1011 East Tudor Road,

Mail Stop 121, Anchorage, AK 99503, or on the Office of Subsistence Management website (<https://www.doi.gov/subsistence>).

Information Collection Requirements: Written comments and suggestions on the information collection requirements should be submitted within 30 days of publication of this document to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041–3803 (mail); or Info_Coll@fws.gov (email). Please reference OMB Control Number 1018–0075 in the subject line of your comments.

SUPPLEMENTARY INFORMATION:**Background**

Under title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126), the Secretary of the Interior and the Secretary of Agriculture (Secretaries) jointly implement the Federal Subsistence Management Program. The Program provides a preference for take of fish and wildlife resources for subsistence uses on Federal public lands and waters in Alaska. The term “subsistence uses” means the customary and traditional uses by rural Alaska residents of wild, renewable resources for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation or for other specified purposes. The Secretaries published temporary regulations to carry out the Program in the **Federal Register** on June 29, 1990 (55 FR 27114), and published final regulations in the **Federal Register** on May 29, 1992 (57 FR 22940).

The Program managers have subsequently amended these regulations many times. Because this program is a joint effort between Interior and Agriculture, these regulations are located in two titles of the Code of

Federal Regulations (CFR): title 36, “Parks, Forests, and Public Property,” and title 50, “Wildlife and Fisheries,” at 36 CFR 242.1–242.28 and 50 CFR 100.1–100.28, respectively. Consequently, to indicate that identical changes affect regulations in both titles 36 and 50, in this document we present references to specific sections of the CFR as shown in the following example: § _____.24.

The Program regulations contain subparts as follows: Subpart A, General Provisions; Subpart B, Program Structure; Subpart C, Board Determinations; and Subpart D, Subsistence Taking of Fish and Wildlife. Consistent with subpart B of these regulations, the Secretaries established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board comprises:

- A Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture;
- The Alaska Regional Director, U.S. Fish and Wildlife Service (FWS);
- The Alaska Regional Director, National Park Service (NPS);
- The Alaska State Director, Bureau of Land Management (BLM);
- The Alaska Regional Director, Bureau of Indian Affairs (BIA);
- The Alaska Regional Forester, USDA Forest Service (USDA–FS); and
- Two public members appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture.

Through the Board, these agencies participate in the development of regulations for subparts C and D, which, among other things, set forth program eligibility, including determinations of which areas or communities in Alaska are nonrural, and specific harvest seasons and limits. The Board receives analytical and administrative assistance from the Interagency Staff Committee, which comprises senior technical experts from FWS, NPS, BLM, BIA, and USDA–FS (per § _____.10(d)(7)).

In administering the Program, the Secretaries divided Alaska into 10 subsistence resource regions, each of which is represented by a Federal Subsistence Regional Advisory Council (RAC). The RACs provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Federal public lands in Alaska. The RAC members represent varied geographical, cultural, and user interests within each region.

The Board conducts rulemaking for the Program on a biennial schedule with the process of revising the fish and shellfish regulations and the process for

revising the wildlife regulations occurring during opposite years. The Board addresses “customary and traditional use” determinations during the applicable biennial cycle. The regulations at § _____.4 define “customary and traditional use” as “a long-established, consistent pattern of

use, incorporating beliefs and customs which have been transmitted from generation to generation.” Since establishment of the Program regulations in 1992, the Board has made a number of customary and traditional use determinations at the request of affected subsistence users. These

determinations have resulted in revisions to the regulations at § _____.24. Those modifications, along with some administrative corrections, were published in the **Federal Register** as follows:

Current Rulemaking Action

The Departments published a proposed rule, Subsistence Management Regulations for Public Lands in Alaska—2024–25 and 2025–26 Subsistence Taking of Wildlife Regulations, on February 27, 2023 (88 FR 12285), to amend the regulations in subparts C and D of 36 CFR part 242 and 50 CFR part 100 for hunting and trapping seasons, harvest limits, and methods and means related to taking of wildlife for subsistence uses.

The proposed rule opened a comment period, which closed on April 12, 2023. The Departments advertised the proposed rule on the Program’s web page and by mail, email, social media, radio, and newspaper. During that period, the RACs met and, in addition to other business, received suggestions for proposals from the public. The Board received a total of 40 proposals. Two of those proposals were withdrawn by the proponent. An additional two proposals were classified as invalid because they were administrative, as opposed to regulatory, in nature. The

Board received 38 proposals for changes to the subparts C (for revisions to customary and traditional use determinations) and D regulations (which are specific provisions regarding the take of fish and wildlife). In addition, 18 wildlife closure reviews were presented for comment as required by Board policy, which specifies a review of each closure at least every 4 years. No closure reviews or proposals were deferred from previous fish or wildlife regulatory cycles.

The public submitted 38 comments, which are available for review at <https://www.regulations.gov> in Docket No. FWS–R7–SM–2022–0105. We reviewed and considered all public comments received on the proposed rule. Most of the comments were proposal submissions in response to the request for proposals outlined in the proposed rule. Most other comments reflected the same concerns or issues that were also included in those proposals that were presented to the Board and were, therefore, considered during Board deliberations on the proposals. The

remaining public comments pertained to issues outside the scope of this rulemaking action.

After the comment period closed, the Board prepared a booklet describing the proposals and distributed it to the public. The proposals were also published on the Program’s website. The public then had more than 30 days, until June 30, 2023, to comment on the proposed regulatory changes.

The 10 RACs met again, received public comments, and formulated their recommendations to the Board on proposals for their respective regions. Therefore, the public received extensive opportunity to review and comment on all changes.

The RACs had a substantial role in reviewing the proposed rule and making recommendations for the final rule. Moreover, a RAC Chair, or a designated representative, presented each RAC’s recommendations at the Board’s public meeting of April 2–5, 2024.

Summary of Board Actions on Proposals and Closure Reviews

The Board’s actions on each wildlife proposal and closure review are listed in table 2 below. When making decisions, the Board may use, but is not limited to, the following guidelines for consideration of whether a proposal:

- provides a subsistence priority on public lands;
- is supported by substantial scientific and traditional ecological knowledge (TEK) evidence;
- recognizes principles of fish and wildlife conservation;
- provides opportunity; and
- would not be detrimental to or place undue burden on rural Alaskan subsistence users.

Consensus agenda: The consensus agenda is made up of proposals and closure reviews for which there is agreement among the affected RACs, a majority of the Interagency Staff Committee members, and the Alaska Department of Fish and Game (ADF&G) concerning a proposed regulatory action. Anyone may request that the Board remove a proposal or a closure review from the consensus agenda and place it on the non-consensus agenda. Proposals or closure reviews taken off the consensus agenda follow the Board process for non-consensus items and are

deliberated and voted on individually. Of the 36 wildlife proposals and 18 wildlife closure reviews, 32 were on the Board’s non-consensus agenda, and 22 were on the consensus agenda. The Board votes *en masse* on the consensus agenda after deliberation and action on all other proposals.

Of the proposals on the consensus agenda, the Board adopted six, adopted one with modification, rejected two, and took no action on one. Of the closure reviews on the consensus agenda, the Board retained the status quo on 10, and rescinded two. Analysis and justification for the action taken on each proposal on the consensus agenda can be found in the Board meeting book and transcripts. Documents are available for review at the Office of Subsistence Management (OSM), 1011 East Tudor Road, Mail Stop 121, Anchorage, AK 99503; at <https://www.regulations.gov> in Docket No. FWS-R7-SM-2022-0105; or on the OSM website (<https://www.doi.gov/subsistence>).

Non-consensus agenda: Of the proposals on the non-consensus agenda, the Board adopted five, adopted 15 with modification, rejected one, deferred one and took no action on four. Of the closure reviews on the non-consensus agenda, the Board modified one, and retained the status quo on five. Because

all Board actions on non-consensus proposals and closure reviews aligned with recommendations of the affected RAC(s), Board justifications for these actions can be found by reading the RAC recommendation(s) in the respective proposal analysis and reviewing the Board meeting transcripts. Documents are available for review at the Office of Subsistence Management, 1011 East Tudor Road, Mail Stop 121, Anchorage, AK 99503; at <https://www.regulations.gov> in Docket No. FWS-R7-SM-2022-0105; or on the OSM website (<https://www.doi.gov/subsistence>).

Request for Reconsideration: The Board received a request to reconsider their prior action on fisheries proposal FP21-10, which established a dipnet/rod and reel fishery on a portion of the Lower Copper River in the Prince William Sound Area. After full analysis, the request was rejected because it did not provide information not previously considered by the Board, did not demonstrate that existing information used by the Board was incorrect, and did not demonstrate that the Board’s interpretation of information, applicable law, or regulation was in error or contrary to existing law.

Proposal No.	Species or issue	Unit(s)	General description	Federal Subsistence Board (FSB) action and basis for decision
WP24–08	All	7, 15	Establish hunting and trapping setbacks from wildlife crossing structures along the Sterling Highway.	Adopt. Recognizes principles of fish and wildlife conservation.
WP24–09	Caribou	13A, 13B	Modify harvest limit; delegate authority to manage the hunt.	Adopt. Recognizes principles of fish and wildlife conservation.
WCR24–03	Moose	7	That portion of Unit 7 draining into Kings Bay: Closed, except by residents of Chenega and Tatitlek.	Maintain status quo. Recognizes principles of fish and wildlife conservation. Provides a subsistence priority on public lands.
WCR24–41	Moose	6	Unit 6C: Closed Nov. 1–Dec. 31, except for take by federally qualified subsistence users.	Rescind the closure. Recognizes principles of fish and wildlife conservation. Would not be detrimental to or place undue burden on rural Alaskan subsistence users.
WP24–10	Brown bear	8	Eliminate State locking tag requirement	Adopt. Would not be detrimental to or place undue burden on rural Alaska subsistence users.
WP24–11	Deer	8	Remove antlerless restriction	Adopt with Kodiak Aleutians RAC modification to retain the antlerless restriction and increase the harvest limit to four deer. Provides opportunity.
WCR24–04	Caribou	9C	Unit 9C, remainder: Closed, except by residents of Unit 9C and Egegik.	Maintain status quo. Provides a subsistence priority on public lands.
WCR24–06	Caribou	9E	Unit 9E: Closed, except by residents of Unit 9C, Nelson Lagoon, and Sand Point.	Maintain status quo. Provides a subsistence priority on public lands.
WP24–12	Moose	9B	Extend fall season by 5 days to Sept. 25	Adopt with modification to also extend the season by 5 days at the beginning. Provides a subsistence priority on public lands. Provides opportunity.
WP24–13	Moose	9B	Extend fall season by 5 days to Sept. 25	Take no action. Based on action taken on WP24–12.
WP24–14	Moose	9B	Extend fall season by 5 days to Sept. 25	Take no action. Based on action taken on WP24–12.
WP24–15	Caribou	9C	Establish hunt in Katmai National Preserve; close Federal public lands except by residents of Igiugig.	Adopt with OSM modification to establish a may-be-announced season, close Katmai National Preserve except to residents of Igiugig and Kokhanok, and delegate authority to the Katmai National Park and Preserve Superintendent to announce the annual harvest quota, announce and open/close a season, determine the number of permits issued annually, set sex restrictions, and set permit conditions via delegation of authority letter only. Provides a subsistence priority on public lands. Provides opportunity.
WP24—(no number assigned).	Moose, deer	6	Rescind the delegation of authority letter (DAL).	Invalid.
WP24–16	Caribou	9E	Add residents of Unit 9C to the communities eligible to harvest (ANILCA section 804 restriction).	Adopt. Provides opportunity.
WP24–17	Caribou	9E	Add King Salmon, Naknek, and South Naknek to the communities eligible to harvest (ANILCA section 804 restriction).	Take no action. Based on action taken on WP24–16.
WP24–18	Caribou	17A, 17C	Expand hunt area for the Nushagak Peninsula caribou herd.	Adopt with modification to further expand the hunt area and modify the DAL to reflect the new hunt area boundary and delegate additional authority to “set harvest areas.” Provides opportunity.
WP24—(no number assigned).	Caribou	17	Modify the DAL for the Nushagak Peninsula caribou herd.	Invalid.
WP24–19	Moose	18	Extend season in a portion of Unit 18 by 15 days to Oct. 15.	Adopt with OSM modification to modify the hunt area descriptor. Provides opportunity.
WP24–20	Moose	18	Modify the harvest limit, permit requirements, and DAL for the winter season in a portion of Unit 18.	Adopt. Provides opportunity.

Proposal No.	Species or issue	Unit(s)	General description	Federal Subsistence Board (FSB) action and basis for decision
WP24–21	Moose	18	Add Konigiganak, Kwigillingok, and Quinhagak to the communities eligible to harvest in a portion of Unit 18 (ANILCA section 804 restriction).	Adopt with Yukon–Kuskokwim Delta RAC modification to also add Kipnuk to the communities eligible to harvest in a portion of Unit 18 (ANILCA section 804 restriction). Provides opportunity.
WP24–22	Musk ox	18	Recognize C&T by residents of Unit 18	Adopt. Provides a subsistence priority on public lands.
WP24–23	Musk ox	18	Establish hunt on the mainland portion of Unit 18.	Reject. Recognizes principles of fish and wildlife conservation.
WCR24–38	Moose	18	A portion of Unit 18: Closed except by residents of Tuntutuliak, Eek, Napakiak, Napaskiak, Kasigluk, Nunapitchuk, Atmaulauk, Oscarville, Bethel, Kwethluk, Akiachak, Akiak, Tuluksak Lower Kalskag, and Kalskag.	Maintain status quo. Provides opportunity. Provides a subsistence priority on public lands.
WP24–24	n/a	19A	Divide into two subunits	Adopt with OSM modification to clarify regulatory language. Would not be detrimental to or place undue burden on rural Alaskan subsistence users.
WP24–25	Sheep	24A, 24B	Reduce harvest limit within Gates of the Arctic National Park.	Adopt. Recognizes principles of fish and wildlife conservation.
WP24–26	Sheep	24A, 26B	Unit 24A and portion of Unit 26B: Closed to all users for 2 years.	Adopt. Recognizes principles of fish and wildlife conservation.
WCR24–20	Moose	24	Kanuti Controlled Use Area: Closed, except for take by federally qualified subsistence users.	Modify the closure as recommended by OSM to eliminate the closure during the winter season (Dec. 15–Apr. 15) and clarify regulatory language. Maintain meaningful subsistence priority. Would not be detrimental to or place undue burden on rural Alaskan subsistence users.
WCR24–43	Moose	19	Unit 19A, remainder: Closed, except by residents of Tuluksak, Lower Kalskag, Upper Kalskag, Aniak, Chuathbaluk, and Crooked Creek.	Maintain status quo. Recognizes principles of fish and wildlife conservation. Provides a subsistence priority on public lands.
WP24–27	Musk ox	22, 23	Change permit system to Federal drawing permits; standardize DALs.	Adopt. Would not be detrimental to or place undue burden on rural Alaskan subsistence users.
WCR24–10	Musk ox	22B	Unit 22B: Closed, except for take by federally qualified subsistence users.	Maintain status quo. Provides a subsistence priority on public lands.
WCR24–15	Moose	22D	Unit 22D, remainder: Closed, except for take by federally qualified subsistence users.	Maintain status quo. Provides a subsistence priority on public lands.
WCR24–28	Musk ox	22D	Unit 22D, that portion west of the Tisuk River drainage and Canyon Creek: Closed, except by residents of Nome and Teller.	Maintain status quo. Provides a subsistence priority on public lands.
WCR24–29	Musk ox	22D	Unit 22D, remainder: Closed, except by residents of Elim, White Mountain, Nome, Teller, and Brevig Mission.	Maintain status quo. Provides a subsistence priority on public lands.
WCR24–30	Musk ox	22E	Unit 22E: Closed, except for take by federally qualified subsistence users.	Maintain status quo. Provides a subsistence priority on public lands.
WCR24–44	Musk ox	22D	Unit 22D within the Kuzitrin River drainage: Closed, except by residents of Council, Golovin, White Mountain, Nome, Teller, and Brevig Mission.	Maintain status quo. Provides a subsistence priority on public lands.
WP24–28	Caribou	21D, 22, 23, 24, 26A	Reduce harvest limit to four caribou/year; only one may be a cow.	Adopt with Western Interior RAC (WIRAC), Seward Peninsula RAC (SPRAC), Northwest Arctic RAC (NWARAC), and North Slope RAC (NSRAC) modification to exclude the eastern portion of Unit 26A and reduce the harvest limit to 15 caribou/year, only 1 may be a cow. Provides opportunity. Recognizes principles of fish and wildlife conservation.

WP24–29	Caribou	23	Reduce harvest limit to four caribou/year; only one may be a cow.	Adopt with WIRAC, SPRAC, NWARAC, and NSRAC modification to exclude the eastern portion of Unit 26A and reduce the harvest limit to 15 caribou/year, only 1 may be a cow. Provides opportunity. Recognizes principles of fish and wildlife conservation.
WP24–30	Caribou	23	Close Federal public lands Aug. 1–Oct. 31, except for take by federally qualified subsistence users.	Adopt with OSM modification to include a population threshold removing the closure when the Western Arctic caribou herd population exceeds 200,000 caribou. Provides a subsistence priority on public lands.
WP24–31	Caribou	23	Close Federal public lands Aug. 1–Oct. 31, except for take by federally qualified subsistence users.	Adopt with OSM modification to include a population threshold removing the closure when the Western Arctic caribou herd population exceeds 200,000 caribou. Provides a subsistence priority on public lands.
WCR24–19	Musk ox	23	Unit 23, south of Kotzebue Sound and west of and including the Buckland River drainage: Closed, except for take by federally qualified subsistence users.	Rescind the closure. Provides opportunity. Would not be detrimental to or place undue burden on rural Alaskan subsistence users.
WP24–32	Marten	12, 19, 20, 21, 24, 25	Extend trapping season by 15 days to Mar. 15.	Adopt with Eastern Interior RAC modification to extend the season only in Units 20E and 25B. Provides a subsistence priority on public lands. Provides opportunity.
WP24–33	Moose	25B, 25C, 25D remainder.	Extend season closing date to Oct. 15	Adopt. Provides a subsistence priority on public lands. Provides opportunity.
WP24–34	Moose	25D West	Withdrawn	N/A (withdrawn).
WP24–35	Moose	25D West	Withdrawn	N/A (withdrawn).
WP24–36	Sheep	25A	Rescind C&T for Kaktovik	Reject. Provides opportunity.

WCR24–42	Caribou	12	Southwestern portion of Unit 12: Closed to all users.	Maintain status quo. Recognizes principles of fish and wildlife conservation.
WP24–37	Musk ox	26C	Change season to “may be announced” Nov. 1–Mar. 31; delegate authority to the Arctic National Wildlife Refuge (NWR) manager to manage the hunt; and remove regulatory language.	Take no action. Based on action taken on WP24–38.
WP24–38	Musk ox	26C	Change season to “may be announced”; liberalize the harvest limit; delegate authority to the Arctic NWR manager to manage the hunt; and remove regulatory language.	Adopt with OSM modification to delegate additional authority to the Arctic NWR manager to set sex restriction via a DAL only. Provides a subsistence priority on public lands. Provides opportunity.
WCR24–31	Moose	26B, 26C	Units 26B, remainder, and 26C: Closed, except by residents of Kaktovik.	Maintain status quo. Provides a subsistence priority on public lands.
RFR22–01	Salmon	Prince William Sound Area.	Reconsideration of FP21–10 establishing a dipnet and rod and reel fishery.	Oppose. Provides a subsistence priority in public waters.

The final regulations in this document reflect Board review and consideration of RAC recommendations, Tribal and

Alaska Native corporation consultations, and public and ADF&G comments. The proposals indicated

above in table 2 as “adopted” are reflected in the rule portion of this document as revisions to the Program

regulations. Minor edits and spelling corrections have also been made to these final regulations. Because this rule concerns public lands managed by a bureau or bureaus in both the Departments of Agriculture and the Interior, identical text will be incorporated into 36 CFR part 242 and 50 CFR part 100.

Conformance With Statutory and Regulatory Authorities

Administrative Procedure Act Compliance

The Board has provided extensive opportunity for public input and involvement in compliance with Administrative Procedure Act requirements, including publishing a proposed rule in the **Federal Register**, participation in multiple RAC meetings, additional public review and comment on all proposals for regulatory change, and opportunity for additional public comment during the Board meeting prior to deliberation. Additionally, an administrative mechanism exists (and has been used by the public) to request reconsideration of the Board's decision on any particular proposal for regulatory change (36 CFR 242.20 and 50 CFR 100.20). Therefore, the Board believes that sufficient public notice and opportunity for involvement have been given to affected persons regarding Board decisions.

In the more than 30 years that the Program has been operating, no benefit to the public has been demonstrated by delaying the effective date of the subsistence regulations. A lapse in regulatory control could affect the continued viability of fish or wildlife populations and future subsistence opportunities for rural Alaskans and would generally fail to serve the overall public interest. Therefore, the Board finds good cause pursuant to 5 U.S.C. 553(d)(3) to make this rule effective upon the date set forth in **DATES** to ensure continued operation of the subsistence program.

National Environmental Policy Act Compliance

A draft environmental impact statement that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. The final environmental impact statement (FEIS) was published on February 28, 1992. The record of decision (ROD) on Subsistence Management for Federal Public Lands in Alaska was signed April 6, 1992. The selected alternative in the FEIS (alternative IV) defined the

administrative framework of an annual regulatory cycle for subsistence regulations.

A 1997 environmental assessment dealt with the expansion of Federal jurisdiction over fisheries and is available at the office listed under **FOR FURTHER INFORMATION CONTACT**. The Secretary of the Interior, with concurrence of the Secretary of Agriculture, determined that expansion of Federal jurisdiction does not constitute a major Federal action significantly affecting the human environment and, therefore, signed a Finding of No Significant Impact.

Section 810 of ANILCA

An ANILCA section 810 analysis was completed as part of the FEIS process on the Federal Subsistence Management Program. The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. The final section 810 analysis determination appeared in the April 6, 1992, ROD and concluded that the Program, under Alternative IV with an annual process for setting subsistence regulations, may have some local impacts on subsistence uses, but will not likely restrict subsistence uses significantly.

During the subsequent environmental assessment process for extending fisheries jurisdiction, an evaluation of the effects of this rule was conducted in accordance with section 810. That evaluation also supported the Secretaries' determination that the rule will not reach the "may significantly restrict" threshold that would require notice and hearings under ANILCA section 810(a).

Paperwork Reduction Act of 1995 (PRA)

This rule contains existing and new information collections. All information collections require approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*). We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB has reviewed and approved the information collection requirements associated with subsistence management regulations on public lands in Alaska and assigned the OMB Control Number 1018-0075.

In accordance with the PRA and its implementing regulations at 5 CFR 1320.8(d)(1), we provide the general

public and other Federal agencies with an opportunity to comment on our proposal to renew, with revisions, OMB Control Number 1018-0075. This input will help us assess the impact of our information collection requirements and minimize the public's reporting burden, and it will help the public understand these requirements and provide the requested data in the desired format.

We request OMB approval to renew the existing reporting and/or recordkeeping requirements identified below:

(1) *Form 3-2326, "Federal Subsistence Hunt Application, Permit, and Report"*—Completed by federally qualified subsistence users who want to harvest wildlife.

- Applicants provide information on the permit to identify:

- (1) They are a federally qualified subsistence user;

- (2) Their community of primary residence for community harvest allocations; and

- (3) The unit, season, hunt number, and permit number.

- Question 1 identifies whether the applicant hunted or used a designated hunter.

- Questions 2a through 2e identify success rates by time, location, and take of animal.

- Question 3 identifies date of take and biological data of animal.

(2) *Form 3-2327, "Designated Hunter Application, Permit, and Report"*—Completed by federally qualified subsistence users who want to harvest wildlife for other federally qualified subsistence users.

- Applicants provide information on the permit to identify:

- (1) They are a federally qualified subsistence user;

- (2) Their community of primary residence for community harvest allocations; and

- (3) The unit, season, hunt number, and permit number.

- Applicants provide a list of names of other persons they hunted for, their harvest ticket/registration permit, and their community to ensure they are federally qualified subsistence users.

- Remaining information provides harvest data such as unit, drainage or specific location, and number, by sex, of animals taken.

(3) *Form 3-2328, "Federal Subsistence Fishing Application, Permit, and Report"*—Completed by federally qualified subsistence users who want to harvest fish.

- Applicants provide information on the permit to identify:

- (1) They are a federally qualified subsistence user;

(2) Their community of primary residence for community harvest allocations; and

(3) The unit, season, hunt number, and permit number.

- Remaining information identifies dates, locations, types of gear, fish species, and number of fish harvested for biological and anthropological analysis.

- Depending on in-season management requirements, a condition may be included for certain fisheries that requires a time-specific reporting requirement. This management tool is used only when conservation concerns exist that may require the emergency closure of the fishery to prevent overharvest.

- Must be completed and returned by date designated on permit.

(4) *Form 3-2378, "Designated Fishing Application, Permit, and Report"*—Completed by federally qualified subsistence users who want to harvest fish for other federally qualified subsistence users. Federally qualified subsistence users may designate another federally qualified subsistence user to take fish on their behalf. The designated subsistence user must obtain a designated harvest permit prior to attempting to harvest fish and must return a completed harvest report. The designated subsistence user may fish for any number of beneficiaries but may have no more than two harvest limits in their possession at any one time. Subsistence users may not designate more than one person to take or attempt to take fish on their behalf at one time. Subsistence users may not personally take or attempt to take fish at the same time that their designated subsistence user is taking or attempting to take fish on their behalf.

- Applicants provide information on the permit to identify:

(1) They are a federally qualified subsistence user;

(2) Their community of primary residence for community harvest allocations; and

(3) The unit, season, hunt number, and permit number.

- Applicants identify both for whom they fished and their subsistence permit number. The permit number verifies they are federally qualified users and tracks usage by communities.

- Remaining information tracks species taken, number retained, and gear for biological and anthropological analysis.

(5) *Form 3-2379, "Federal Subsistence Customary Trade Recordkeeping Form"*—Completed by federally qualified subsistence users who want to take part in customary

trade. Staff anthropologists use the information to make customary and traditional use determinations and to write an analysis based on the provisions in section 804 of ANILCA. These analyses further reduce the pool of eligible subsistence users and may allocate harvests by community, in part, based on documented uses of the resource.

- Applicants provide information on the permit to identify:

(1) They are a federally qualified subsistence user;

(2) Their community of primary residence for community harvest allocations; and

(3) The unit, season, hunt number, and permit number.

- Remaining information tracks date of sales, buyers, and buyers' addresses, total dollar amount, species taken, and fish parts.

(6) *Petition to Repeal Subsistence Rules and Regulations (Nonform Requirement)*—If the State of Alaska enacts and implements laws that are consistent with sections 803, 804, and 805 of ANILCA, the State may submit a petition to the Secretary of the Interior for repeal of Federal subsistence rules. The State's petition shall:

(1) Be submitted to the Secretary of the Interior and the Secretary of Agriculture;

(2) Include the entire text of applicable State legislation indicating compliance with sections 803, 804, and 805 of ANILCA; and

(3) Set forth all data and arguments available to the State in support of legislative compliance with sections 803, 804, and 805 of ANILCA.

If the Secretaries find that the State's petition contains adequate justification, a rulemaking proceeding for repeal of the regulations in this part will be initiated. If the Secretaries find that the State's petition does not contain adequate justification, the petition will be denied by letter or other notice, with a statement of the grounds for denial.

(7) *Propose Changes to Federal Subsistence Regulations*—The Board will accept proposals for changes to the Federal subsistence regulations in subparts C or D of 356 CFR part 242 or 50 CFR part 100 according to a published schedule, except for proposals for emergency and temporary special actions, which the Board will accept according to procedures set forth in § _____.19. Members of the public may propose changes to the subsistence regulations by providing:

- Contact information (name, organization, address, phone number, fax number, email address).

- Type of change (harvest season, harvest limit, method and means of harvest, customary and traditional use determination).

- Regulation to be changed.
- Language for proposed regulation.
- Why the change should be made.
- Impact on populations.
- How the change will affect subsistence uses.

- How the change will affect other uses.

- Communities that have used the resource.

- Where the resource has been harvested.

- Months in which the resource has been harvested.

(8) *Proposals for Emergency or Temporary Special Actions*—A special action is an out-of-cycle change in a season, harvest limit, or method of harvest. The Federal Subsistence Board may take a special action to restrict, close, open, or reopen the taking of fish and wildlife on Federal public lands: (1) to ensure the continued viability of a particular fish or wildlife population; (2) to ensure continued subsistence use; and (3) for reasons of public safety or administration. Members of the public may request a special action by providing:

- Contact information (name, organization, address, telephone number, fax number, email address).

- Description of the requested action.

- Any unusual or significant changes in resource abundance or unusual conditions affecting harvest opportunities that could not reasonably have been anticipated and that potentially could have significant adverse effects on the health of fish and wildlife populations or subsistence users.

- The necessity of the requested action if required for reasons of public safety or administration.

- Extenuating circumstances that necessitate a regulatory change before the next regulatory review.

(9) *Requests for Reconsideration*—Any person adversely affected by a new regulation may request that the Federal Subsistence Board reconsider its decision by filing a written request within 60 days after a regulation takes effect or is published in the **Federal Register**, whichever comes first. Requests for reconsideration must provide the Board with sufficient narrative evidence and argument to show why the action by the Board should be reconsidered. The Board will accept a request for reconsideration only if it is based upon information not previously considered by the Board, demonstrates that the existing

information used by the Board is incorrect, or demonstrates that the Board's interpretation of information, applicable law, or regulation is in error or contrary to existing law. Requests for reconsideration must include:

- Contact information (name, organization, address, telephone number, fax number, email address).
- Regulation and the date of **Federal Register** publication.
- Statement of how the person is adversely affected by the action.
- Statement of the issues raised by the action, with specific reference to: (1) information not previously considered by the Board; (2) information used by the Board that is incorrect; and (3) how the Board's interpretation of information, applicable law, or regulation is in error or contrary to existing law.

(10) *Other Permits and Reports*

a. Traditional/Cultural/Educational Permits—Organizations desiring to harvest fish or wildlife for traditional, cultural, or educational reasons must provide a letter stating that the requesting program has instructors, enrolled students, minimum attendance requirements, and standards for successful completion. Harvest must be reported, and any animals harvested will count against any established Federal harvest quota for the area in which it is harvested.

b. Fishwheel, Fyke Net, and Under Ice Permits—Persons who want to set up and operate fishwheels and fyke nets, or use a net under the ice must provide:

(1) Name and contact information and other household member who will use the equipment. Fishwheels must be marked with registration permit number; organization's name and address (if applicable), and primary contact person name and telephone number; under ice nets must be marked with the permittee's name and address.

(2) Species of fish taken, number of fish taken, and dates of use.

The new reporting and/or recordkeeping requirements identified below require approval by OMB:

(1) *Reports and Recommendations*—Subsistence Regional Advisory Councils are required to send an annual report to the Federal Subsistence Board informing them of regional concerns or problems pertaining to subsistence on Federal public lands. In turn, the Board is required to respond to each of the Councils' annual reports and address their concerns and possible courses of actions or solutions.

(2) *Customary Trade Sales*—The Board manages each region differently regarding customary trade, based primarily on cultural beliefs and

traditional practices. As needed, decisions also include conservation concerns. This requirement is in place to monitor customary trade and ensure that subsistence resources are for subsistence users and not commercial trade.

(3) *Transfer of Subsistence-Caught Fish, Wildlife, or Shellfish*—This reporting requirement safeguards the harvester and individual who receives the harvested animal. It protects both parties to show that an illegal commercial enterprise is not ongoing or that the animal was not poached.

(4) *Meeting Request*—The Board shall meet at least twice per year and at such other times as deemed necessary. Meetings shall occur at the call of the Chair, but any member may request a meeting. There is no specified format to request a meeting. Usually, the Service recommends to the Board that they have a meeting on a special topic, such as pending litigation. This is not a common occurrence.

(5) *Cooperative Agreements*—The Board may enter into cooperative agreements or otherwise cooperate with Federal agencies, the State, Native organizations, local governmental entities, and other persons and organizations, including international entities to effectuate the purposes and policies of the Federal subsistence management program or to coordinate respective management responsibilities. Currently, cooperative agreements are not generally used, and we are reporting a placeholder burden of one response.

(6) *Alternative Permitting Processes*—Developing alternative permitting processes relating to the subsistence taking of fish and wildlife ensures continued opportunities for subsistence. Currently, this requirement is not generally used, and we are reporting a placeholder burden of one response in our burden estimate.

(7) *Request for Individual Customary and Traditional Use Determinations*—The Federal Subsistence Board has determined that rural Alaska residents of the listed communities, areas, and individuals have customary and traditional use of the specified species on Federal public land in the specified areas. Persons granted individual customary and traditional use determinations will be notified in writing by the Board. The Service and the local NPS Superintendent will maintain the list of individuals having customary and traditional use on National Parks and Monuments. A copy of the list is available upon request. Currently, this requirement is not generally used, and we are reporting a

placeholder burden of one response in our burden estimate.

(8) *Management Plans*—Management plans are not routinely used. When created by the State or Alaska Native communities for overall management of a specific area, the plans are submitted to the appropriate Federal agencies for review/comment. Currently, this requirement is not generally used, and we are reporting a placeholder burden of one response in our burden estimate.

(9) *Labeling/Marking Requirements*—

- *Bear baiting*—The requirement to mark bear baiting stations and provide contact information is for public safety since attempting to draw bears into a certain area could cause a significant hazard for the public not involved in hunting activities. Requirements to register a bait station with the State is to provide a single location for the public to find information of possible hazards prior to using public lands.

- *Evidence of sex and identity*—In certain areas and with certain species of both wildlife and fish, evidence of sex and identity are required for biological purposes and the data is used for future management decisions. This information is critical to assist in assessing the health of a population, the male/female ratios, ages of harvested animals, identifying different genetic populations, and other important factors needed for sound management decisions.

- *Marking of fish gear*—The marking of various fishing gear types (fishwheels, crab pots, certain types of nets or their supporting buoys, stakes, etc.) with contact information is based on the fact that these gear types are generally unattended while catching fish. This information is used to differentiate between users harvesting under Federal or State regulations and also to protect the owners of the gear should it be damaged or carried away. The contact information can be used to return the often-expensive gear to the proper owner. Requirements as to the location of the contact information on the gear types is to ease the task of field managers so they can, if needed, identify gear from a boat and not have to land to search for the contact information. In marine waters, the information is used by the U.S. Coast Guard for safety in navigation concerns. The above reasons also hold true regarding registering a fishwheel with the State or the Federal program.

- *Marking of subsistence-caught fish*—Requirements in certain areas to mark subsistence-caught fish by removal of the tips of the tail or dorsal fin is used to identify fish harvested under Federal regulations and not under State sport or

commercial regulations. This is needed as Federal subsistence harvest limits are often larger than sport fishing bag limits and protects the user from possible citations from State law enforcement.

- *Sealing requirements*—Sealing requirements for animals, primarily bears and wolves, differ in parts of the State. This requirement not only allows biologists to gather important data to evaluate the health of the various populations but is also integral in preventing the illegal harvest and trafficking of animals and their parts, reporting a placeholder burden of one response in our burden estimate.

(10) *3rd Party Notifications (Tags, Marks, or Collar Notification and Return)*—Users must present the tags, markings, or collars to ADF&G, or the agency conducting the research. Much of this equipment may be used again, and the information regarding the take of the animal is important to management decisions.

Copies of the forms used with this information collection are available to the public by submitting a request to the Service Information Collection Clearance Officer using one of the methods identified in **ADDRESSES**.

Title of Collection: Federal Subsistence Regulations and Associated Forms, 50 CFR part 100 and 36 CFR part 242.

OMB Control Number: 1018–0075.

Form Numbers: Forms 3–2300, 3–2321 through 3–2323, 3–2326 through 3–2328, 3–2378, and 3–2379.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individuals and State, local, and Tribal governments. Most respondents are individuals who are federally defined rural residents in Alaska.

Total Estimated Number of Annual Respondents: 15,426.

Total Estimated Number of Annual Responses: 15,426.

Estimated Completion Time per Response: Varies from 5 minutes to 40 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 6,947.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion for applications; annually or on occasion for reports, recordkeeping, and labeling/marketing requirements.

Total Estimated Annual Non-hour Burden Cost: None.

On February 27, 2023, we published proposed regulations (RIN 1018–BG72; 88 FR 12285) to announce our intention to request OMB approval of the revisions to this collection explained in question 2 and the simultaneous

renewal of OMB Control No. 1018–0075. In that proposed rule, we solicited comments for 60 days on the information collections in this submission, ending on April 28, 2023. We did not receive any comments in response to the information collections contained in the proposed rule.

As part of our continuing effort to reduce paperwork and respondent burdens, and in accordance with 5 CFR 1320.8(d)(1), we invite the public and other Federal agencies to comment on any aspect of this information collection, including:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this rulemaking are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Send your written comments and suggestions on this information collection by the date indicated in **DATES** to OMB, with a copy to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: PRB/PERMA (JAO), 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail); or by email to Info_Coll@fws.gov. Please reference OMB Control Number 1018–0075 in the subject line of your comments.

Regulatory Planning and Review (Executive Orders 12866, 13563, and 14094)

Executive Order 14094 reaffirms the principles of E.O. 12866 and E.O. 13563 and states that regulatory analysis should facilitate agency efforts to develop regulations that serve the public interest, advance statutory objectives, and are consistent with E.O. 12866 and E.O. 13563. Regulatory analysis, as practicable and appropriate, shall recognize distributive impacts and equity, to the extent permitted by law. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

E.O. 12866, as reaffirmed by E.O. 13563 and E.O. 14094, provides that the Office of Information and Regulatory Affairs (OIRA) in OMB will review all significant rules. OIRA has determined that this rule is not significant.

Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or governmental jurisdictions. In general, the resources to be harvested under this rule are already being harvested and consumed by the local harvester and do not result in an additional dollar benefit to the economy. However, we estimate that two million pounds of meat are harvested by subsistence users annually and, if given an estimated dollar value of \$3.00 per pound, this amount would equate to about \$6 million in food value Statewide. Based upon the amounts and values cited above, the Departments certify that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Small Business Regulatory Enforcement Fairness Act

Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 *et seq.*), this rule is not a major rule. It does not have an effect on the economy of \$100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability

of U.S.-based enterprises to compete with foreign-based enterprises.

Executive Order 12630

Title VIII of ANILCA requires the Secretaries to administer a subsistence priority on public lands. The scope of this Program is limited by definition to certain public lands. Likewise, these regulations have no potential takings of private property implications as defined by Executive Order 12630.

Unfunded Mandates Reform Act

The Secretaries have determined and certify pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. The implementation of this rule is by Federal agencies, and there is no cost imposed on any State or local entities or Tribal governments.

Executive Order 12988

The Secretaries have determined that these regulations meet the applicable standards provided in sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

Executive Order 13132

In accordance with Executive Order 13132, the rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands unless it meets certain requirements.

Executive Order 13175

Title VIII of ANILCA does not provide specific rights to Tribes for the subsistence taking of wildlife, fish, and shellfish. However, the Board provided federally recognized Tribes and Alaska

Native corporations opportunities to consult on this rule. Consultation with Alaska Native corporations are based on Public Law 108–199, div. H, Sec. 161, Jan. 23, 2004, 118 Stat. 452, as amended by Public Law 108–447, div. H, title V, Sec. 518, Dec. 8, 2004, 118 Stat. 3267, which provides that: “The Director of the Office of Management and Budget and all Federal agencies shall hereafter consult with Alaska Native corporations on the same basis as Indian tribes under Executive Order No. 13175.”

The Secretaries, through the Board, provided a variety of opportunities for consultation: commenting on proposed changes to the existing rule; engaging in dialogue at the Regional Council meetings; engaging in dialogue at the Board’s meetings; and providing input in person, by mail, email, or phone at any time during the rulemaking process.

On April 2, 2024, the Board provided federally recognized Tribes and Alaska Native Corporations a specific opportunity to consult on this rule prior to the start of its public regulatory meeting. Federally recognized Tribes and Alaska Native Corporations were notified by mail and telephone and were given the opportunity to attend via teleconference.

Executive Order 13211

This Executive order requires agencies to prepare statements of energy effects when undertaking certain actions. However, this rule is not a significant regulatory action under E.O. 13211, affecting energy supply, distribution, or use, and no statement of energy effects is required.

Drafting Information

Theo Matuskowitz drafted these regulations under the guidance of Ameer Howard of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Additional assistance was provided by:

- Chris McKee, Alaska State Office, Bureau of Land Management;
- Kim Jochum, Alaska Regional Office, National Park Service;
- Dr. Glenn Chen, Alaska Regional Office, Bureau of Indian Affairs;
- Jill Klein, Alaska Regional Office, U.S. Fish and Wildlife Service; and
- Gregory Risdahl, Alaska Regional Office, USDA Forest Service.

Subpart D—Subsistence Taking of Fish and Wildlife

■ 3. Amend § _____.26 by revising paragraph (n) to read as follows:

§ 100.26 Subsistence taking of wildlife.

* * * * *

(n) *Unit regulations.* You may take for subsistence unclassified wildlife, all squirrel species, and marmots in all Units, without harvest limits, for the period of July 1–June 30. Unit-specific restrictions or allowances for subsistence taking of wildlife are identified at paragraphs (n)(1) through (26) of this section.

(1) *Unit 1.* Unit 1 consists of all mainland drainages from Dixon Entrance to Cape Fairweather, and those islands east of the center line of Clarence Strait from Dixon Entrance to Caamano Point, and all islands in Stephens Passage and Lynn Canal north of Taku Inlet:

(i) Unit 1A consists of all drainages south of the latitude of Lemesurier Point including all drainages into Behm Canal, excluding all drainages of Ernest Sound.

(ii) Unit 1B consists of all drainages between the latitude of Lemesurier Point and the latitude of Cape Fanshaw including all drainages of Ernest Sound and Farragut Bay, and including the islands east of the center lines of Frederick Sound, Dry Strait (between Sergief and Kadin Islands), Eastern

Passage, Blake Channel (excluding Blake Island), Ernest Sound, and Seward Passage.

(iii) Unit 1C consists of that portion of Unit 1 draining into Stephens Passage and Lynn Canal north of Cape Fanshaw and south of the latitude of Eldred Rock including Berners Bay, Sullivan Island, and all mainland portions north of Chichagof Island and south of the latitude of Eldred Rock, excluding drainages into Farragut Bay.

(iv) Unit 1D consists of that portion of Unit 1 north of the latitude of Eldred Rock, excluding Sullivan Island and the drainages of Berners Bay.

(v) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) Public lands within Glacier Bay National Park are closed to all taking of wildlife for subsistence uses.

(B) Unit 1A—in the Hyder area, the Salmon River drainage downstream from the Riverside Mine, excluding the Thumb Creek drainage, is closed to the taking of bear.

(C) Unit 1B—the Anan Creek drainage within 1 mile of Anan Creek downstream from the mouth of Anan Lake, including the area within a 1-mile radius from the mouth of Anan Creek Lagoon, is closed to the taking of bear.

(D) Unit 1C:

(1) You may not hunt within one-fourth mile of Mendenhall Lake, the U.S. Forest Service Mendenhall Glacier Visitor’s Center, and the Center’s parking area; and

(2) You may not take mountain goat in the area of Mt. Bullard bounded by the Mendenhall Glacier, Nugget Creek from its mouth to its confluence with Goat Creek, and a line from the mouth of Goat Creek north to the Mendenhall Glacier.

(vi) You may not trap furbearers for subsistence uses in Unit 1C, Juneau area, on the following public lands:

(A) A strip within one-quarter mile of the mainland coast between the end of Thane Road and the end of Glacier Highway at Echo Cove;

(B) That area of the Mendenhall Valley bounded on the south by the Glacier Highway, on the west by the Mendenhall Loop Road and Montana Creek Road and Spur Road to Mendenhall Lake, on the north by Mendenhall Lake, and on the east by the Mendenhall Loop Road and Forest Service Glacier Spur Road to the Forest Service Visitor Center;

(C) That area within the U.S. Forest Service Mendenhall Glacier Recreation Area; and

(D) A strip within one-quarter mile of the following trails as designated on U.S. Geological Survey maps: Herbert Glacier Trail, Windfall Lake Trail, Peterson Lake Trail, Spaulding Meadows Trail (including the loop trail), Nugget Creek Trail, Outer Point Trail, Dan Moller Trail, Perseverance Trail, Granite Creek Trail, Mt. Roberts Trail and Nelson Water Supply Trail, Sheep Creek Trail, and Point Bishop Trail.

(vii) Unit-specific regulations:

(A) You may hunt black bear with bait in Units 1A, 1B, and 1D between April 15 and June 15.

(B) You may not shoot ungulates, bear, wolves, or wolverine from a boat, unless you are certified as disabled.

(C) Coyotes taken incidentally with a trap or snare during an open Federal trapping season for wolf, wolverine, or beaver may be legally retained.

(D) A firearm may be used to take beaver under a trapping license during

an open beaver season, except on National Park Service lands.

(B) Unit 6B consists of Gulf of Alaska and Copper River Basin drainages west of Palm Point near Katalla, east of the west bank of the Copper River, and east

of a line from Flag Point to Cottonwood Point.

(C) Unit 6C consists of drainages west of the west bank of the Copper River, and west of a line from Flag Point to Cottonwood Point, and drainages east of the east bank of Rude River and drainages into the eastern shore of Nelson Bay and Orca Inlet.

(D) Unit 6D consists of the remainder of Unit 6.

(ii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 15. In addition, you may use bait in Unit 6D between June 16 and June 30. The harvest quota in Unit 6D is 20 bears taken with bait between June 16 and June 30.

(B) You may take coyotes in Units 6B and 6C with the aid of artificial lights.

(C) One permit will be issued by the Cordova District Ranger to the Native Village of Eyak to take one moose from Federal lands in Unit 6B or 6C for their annual Memorial/Sobriety Day potlatch.

(D) A federally qualified subsistence user (recipient) who is either blind, 65 years of age or older, at least 70 percent disabled, or temporarily disabled may designate another federally qualified subsistence user to take any moose, deer, black bear, and beaver on his or her behalf in Unit 6 and goat in Unit 6D. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no

more than one harvest limit in his or her possession at any one time.

(E) A hunter younger than 10 years old at the start of the hunt may not be issued a Federal subsistence permit to harvest black bear, deer, goat, moose, wolf, and wolverine.

(F) A hunter younger than 10 years old may harvest black bear, deer, goat, moose, wolf, and wolverine under the direct, immediate supervision of a

licensed adult, at least 18 years old. The animal taken is counted against the adult's harvest limit. The adult is responsible for ensuring that all legal requirements are met.

(G) Up to five permits will be issued by the Cordova District Ranger to the Native Village of Chenega annually to harvest up to five deer total from Federal public lands in Unit 6D for their annual Old Chenega Memorial and

other traditional memorial potlatch ceremonies. Permits will have effective dates of July 1–June 30.

(H) Up to five permits will be issued by the Cordova District Ranger to the Tatitlek IRA Council annually to harvest up to five deer total from Federal public lands in Unit 6D for their annual Cultural Heritage Week. Permits will have effective dates of July 1–June 30.

(C) In Unit 9B, Lake Clark National Park and Preserve, residents of Iliamna, Newhalen, Nondalton, Pedro Bay, Port Alsworth, and that portion of the park resident zone in Unit 9B and 13,440 permit holders may hunt brown bear by Federal registration permit in lieu of a resident tag. The season will be closed when 4 females or 10 bears have been taken, whichever occurs first. The permits will be issued and closure announcements made by the Superintendent of Lake Clark National Park and Preserve.

(D) Residents of Iliamna, Newhalen, Nondalton, Pedro Bay, and Port

Alsworth may take up to a total of 10 bull moose in Unit 9B for ceremonial purposes, under the terms of a Federal registration permit from July 1 through June 30. Permits will be issued to individuals only at the request of a local organization. This 10-moose limit is not cumulative with that permitted for potlatches by the State.

(E) For Units 9C and 9E only, a federally qualified subsistence user (recipient) of Units 9C and 9E may designate another federally qualified subsistence user of Units 9C and 9E to take bull caribou on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report and turn over all meat to the recipient. There is no restriction on the number of possession limits the designated hunter may have in his/her possession at any one time.

(F) For Unit 9D, a federally qualified subsistence user (recipient) may designate another federally qualified subsistence user to take caribou on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than four harvest limits in his/her possession at any one time.

(G) The communities of False Pass, King Cove, Cold Bay, Sand Point, and Nelson Lagoon annually may each take, from October 1 through December 31 or May 10 through 25, one brown bear for ceremonial purposes, under the terms of a Federal registration permit. A permit will be issued to an individual only at the request of a local organization. The

brown bear may be taken from either Unit 9D or Unit 10 (Unimak Island) only.

(H) You may hunt brown bear in Unit 9E with a Federal registration permit in

lieu of a State locking tag if you have obtained a Federal registration permit prior to hunting.

(I) In Units 9B and 9C, a snowmachine may be used to approach

and pursue a wolf or wolverine provided the snowmachine does not contact a live animal.

(11) *Unit 11.* Unit 11 consists of that area draining into the headwaters of the Copper River south of Suslota Creek and the area drained by all tributaries into the east bank of the Copper River between the confluence of Suslota Creek with the Slana River and Miles Glacier.

(i) Unit-specific regulations:

(A) You may use bait to hunt black and brown bear between April 15 and June 15.

(B) One moose without calf may be taken from June 20 through July 31 in the Wrangell-St. Elias National Park and Preserve in Unit 11 or Unit 12 for the Batzulnetas Culture Camp. Two hunters from either Chistochina or Mentasta

Village may be designated by the Mt. Sanford Tribal Consortium to receive the Federal subsistence harvest permit. The permit may be obtained from a Wrangell-St. Elias National Park and Preserve office.

(C) For federally qualified subsistence users living within the Ahtna traditional communities of Chistochina, Chitina,

Copper Center, Gakona, Gulkana, Mentasta Lake, and Tazlina, a community harvest system for moose is authorized on Federal public lands within Unit 11, subject to the framework established by the Federal Subsistence Board.

(1) The boundaries of the communities are the most recent Census Designated Places as defined by the U.S. Census Bureau.

(2) Participants in the community harvest system may not designate another individual to harvest on their behalf any species for which they register within the community harvest system but may serve as a designated hunter, pursuant to 50 CFR 100.25(e).

(3) Community harvest limit for the species authorized in the community harvest system is the sum of individual harvest limits of the participants in the system.

(4) Harvest reporting will take the form of reports collected from hunters by the Ahtna Intertribal Resource Commission and submitted directly to land managers and the Office of Subsistence Management, rather than through Federal registration permits, joint State/Federal registration permits, or State harvest tickets.

(ii) A joint permit may be issued to a pair of a minor and an elder to hunt sheep during the Aug. 1–Oct. 20 hunt. The following conditions apply:

(A) The permittees must be a minor aged 8 to 15 years old and an accompanying adult 60 years of age or older.

(B) Both the elder and the minor must be federally qualified subsistence users with a positive customary and traditional use determination for the area they want to hunt.

(C) The minor must hunt under the direct immediate supervision of the accompanying adult, who is responsible for ensuring that all legal requirements are met.

(D) Only one animal may be harvested with this permit. The sheep harvested will count against the harvest limits of both the minor and accompanying adult.

(12) *Unit 12.* Unit 12 consists of the Tanana River drainage upstream from the Robertson River, including all drainages into the east bank of the Robertson River, and the White River drainage in Alaska, but excluding the Ladue River drainage.

(i) Unit-specific regulations:

(A) You may use bait to hunt black and brown bear between April 15 and June 30; you may use bait to hunt wolves on FWS and BLM lands.

(B) You may not use a steel trap, or a snare using cable smaller than 3/32-inch diameter to trap coyotes or wolves in Unit 12 during April and October.

(C) One moose without calf may be taken from June 20 through July 31 in the Wrangell-St. Elias National Park and Preserve in Unit 11 or Unit 12 for the Batzulnetas Culture Camp. Two hunters from either Chistochina or Mentasta Village may be designated by the Mt. Sanford Tribal Consortium to receive the Federal subsistence harvest permit. The permit may be obtained from a Wrangell-St. Elias National Park and Preserve office.

(D) A community harvest system for caribou and moose is authorized on Federal public lands in Unit 12 within the Tok and Little Tok River drainages south of the Tok River bridge and east of the Tok Cutoff Road, and within the

Nabesna River drainage west of the east bank of the Nabesna River upstream from the southern boundary of Tetlin National Wildlife Refuge and that portion of Unit 12 that is east of the Nabesna River and south of the Pickerel Lake Winter Trail running southeast from Pickerel Lake to the Canadian border. This community harvest system is for federally qualified subsistence users living within the Ahtna traditional communities of Chistochina, Chitina, Copper Center, Gakona, Gulkana, Mentasta Lake, and Tazlina and is subject to the framework established by the Federal Subsistence Board.

(1) The boundaries of the communities are the most recent Census Designated Places as defined by the U.S. Census Bureau.

(2) Participants in the community harvest system may not designate another individual to harvest on their behalf any species for which they register within the community harvest system but may serve as a designated hunter, pursuant to 50 CFR 100.25(e).

(3) The community harvest limit for the species authorized in the community harvest system is the sum of individual harvest limits of the participants in the system.

(4) Harvest reporting will take the form of reports collected from hunters

by the Ahtna Intertribal Resource Commission and submitted directly to the land managers and the Office of Subsistence Management, rather than through Federal registration permits, joint State/Federal registration permits, or State harvest tickets.

(5) Participants must abide by customary and traditional use determinations.

(ii) A joint permit may be issued to a pair of a minor and an elder to hunt sheep during the Aug. 1–Oct. 20 hunt. The following conditions apply:

(A) The permittees must be a minor aged 8 to 15 years old and an accompanying adult 60 years of age or older.

(B) Both the elder and the minor must be federally qualified subsistence users with a positive customary and traditional use determination for the area they want to hunt.

(C) The minor must hunt under the direct immediate supervision of the accompanying adult, who is responsible for ensuring that all legal requirements are met.

(D) Only one animal may be harvested with this permit. The sheep harvested will count against the harvest limits of both the minor and accompanying adult.

(13) *Unit 13.* (i) Unit 13 consists of that area westerly of the east bank of the Copper River and drained by all tributaries into the west bank of the Copper River from Miles Glacier and including the Slana River drainages north of Suslota Creek; the drainages into the Delta River upstream from Falls Creek and Black Rapids Glacier; the drainages into the Nenana River upstream from the southeastern corner of Denali National Park at Windy; the drainage into the Susitna River upstream from its junction with the Chulitna River; the drainage into the east bank of the Chulitna River upstream to its confluence with Tokositna River; the drainages of the Chulitna River (south of Denali National Park) upstream from its confluence with the Tokositna River; the drainages into the north bank of the Tokositna River upstream to the base of the Tokositna Glacier; the drainages into the Tokositna Glacier; the drainages into the east bank of the Susitna River between its confluences with the Talkeetna and Chulitna Rivers; the drainages into the north and east bank of the Talkeetna River including the Talkeetna River to its confluence with Clear Creek, the

eastside drainages of a line going up the south bank of Clear Creek to the first unnamed creek on the south, then up that creek to lake 4408, along the northeastern shore of lake 4408, then southeast in a straight line to the northernmost fork of the Chickaloon River; the drainages into the east bank of the Chickaloon River below the line from lake 4408; the drainages of the Matanuska River above its confluence with the Chickaloon River:

(A) Unit 13A consists of that portion of Unit 13 bounded by a line beginning at the Chickaloon River bridge at Mile 77.7 on the Glenn Highway, then along the Glenn Highway to its junction with the Richardson Highway, then south along the Richardson Highway to the foot of Simpson Hill at Mile 111.5, then east to the east bank of the Copper River, then northerly along the east bank of the Copper River to its junction with the Gulkana River, then northerly along the west bank of the Gulkana River to its junction with the West Fork of the Gulkana River, then westerly along the west bank of the West Fork of the Gulkana River to its source, an unnamed lake, then across the divide into the Tyone River drainage, down an

unnamed stream into the Tyone River, then down the Tyone River to the Susitna River, then down the south bank of the Susitna River to the mouth of Kosina Creek, then up Kosina Creek to its headwaters, then across the divide and down Aspen Creek to the Talkeetna River, then southerly along the boundary of Unit 13 to the Chickaloon River bridge, the point of beginning.

(B) Unit 13B consists of that portion of Unit 13 bounded by a line beginning at the confluence of the Copper River and the Gulkana River, then up the east bank of the Copper River to the Gakona River, then up the Gakona River and Gakona Glacier to the boundary of Unit 13, then westerly along the boundary of Unit 13 to the Susitna Glacier, then southerly along the west bank of the Susitna Glacier and the Susitna River to the Tyone River, then up the Tyone River and across the divide to the headwaters of the West Fork of the Gulkana River, then down the West Fork of the Gulkana River to the confluence of the Gulkana River and the Copper River, the point of beginning.

(C) Unit 13C consists of that portion of Unit 13 east of the Gakona River and Gakona Glacier.

(D) Unit 13D consists of that portion of Unit 13 south of Unit 13A.

(E) Unit 13E consists of the remainder of Unit 13.

(ii) Within the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (n)(13) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980.

(B) You may not use motorized vehicles or pack animals for hunting Aug. 5–25 in the Delta Controlled Use Area, the boundary of which is defined as: a line beginning at the confluence of Miller Creek and the Delta River, then west to vertical angle benchmark Miller, then west to include all drainages of Augustana Creek and Black Rapids Glacier, then north and east to include all drainages of McGinnis Creek to its confluence with the Delta River, then east in a straight line across the Delta River to Mile 236.7 Richardson Highway, then north along the Richardson Highway to its junction with the Alaska Highway, then east along the Alaska Highway to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Cantwell Glacier, then west along the north bank of the Cantwell Glacier and Miller Creek to the Delta River.

(C) Except for access and transportation of harvested wildlife on Sourdough and Haggard Creeks, Middle Fork trails, or other trails designated by the Board, you may not use motorized

vehicles for subsistence hunting in the Sourdough Controlled Use Area. The Sourdough Controlled Use Area consists of that portion of Unit 13B bounded by a line beginning at the confluence of Sourdough Creek and the Gulkana River, then northerly along Sourdough Creek to the Richardson Highway at approximately Mile 148, then northerly along the Richardson Highway to the Middle Fork Trail at approximately Mile 170, then westerly along the trail to the Gulkana River, then southerly along the east bank of the Gulkana River to its confluence with Sourdough Creek, the point of beginning.

(D) You may not use any motorized vehicle or pack animal for hunting, including the transportation of hunters, their hunting gear, and/or parts of game from July 26 through September 30 in the Tonsina Controlled Use Area. The Tonsina Controlled Use Area consists of that portion of Unit 13D bounded on the west by the Richardson Highway from the Tiekel River to the Tonsina River at Tonsina, on the north along the south bank of the Tonsina River to where the Edgerton Highway crosses the Tonsina River, then along the Edgerton Highway to Chitina, on the east by the Copper River from Chitina to the Tiekel River, and on the south by the north bank of the Tiekel River.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 15.

(B) Upon written request by the Camp Director to the Glennallen Field Office, 2 caribou, sex to be determined by the Glennallen Field Office Manager of the BLM, may be taken from Aug. 10 through Sep. 30 or Oct. 21 through Mar. 31 by Federal registration permit for the

Hudson Lake Residential Treatment Camp. Additionally, 1 bull moose may be taken Aug. 1 through Sep. 20. The animals may be taken by any federally qualified hunter designated by the Camp Director. The hunter must have in his/her possession the permit and a designated hunter permit during all periods that are being hunted.

(C) A community harvest system for caribou and moose is authorized on Federal public lands within Unit 13, subject to the framework established by the Federal Subsistence Board, for federally qualified subsistence users living within the Ahtna traditional communities of Cantwell, Chistochina, Chitina, Copper Center, Gakona, Gulkana, Mentasta Lake, and Tazlina.

(1) The boundaries of the communities are the most recent Census Designated Places as defined by the U.S. Census Bureau.

(2) Participants in the community harvest system may not designate another individual to harvest on their behalf any species for which they register within the community harvest system but may serve as a designated hunter, pursuant to 50 CFR 100.25(e).

(3) The community harvest limit for the species authorized in the community harvest system is the sum of individual harvest limits of the participants in the system.

(4) Harvest reporting will take the form of reports collected from hunters by the Ahtna Intertribal Resource Commission and submitted directly to the land managers and the Office of Subsistence Management, rather than through Federal registration permits, joint State/Federal registration permits, or State harvest tickets.

(19) *Unit 19.* (i) Unit 19 consists of the Kuskokwim River drainage upstream, excluding the drainages of Arhymot Lake, from a line starting at the outlet of Arhymot Lake at Crooked Creek (locally known as Johnson River), then along the south bank of Crooked Creek downstream to the northern terminus of Crooked Creek to the Yukon-Kuskokwim Portage (locally known as the Mud Creek Tramway), then along the west side of the tramway to Mud Creek, then along the westerly bank of Mud Creek downstream to an unnamed slough of the Kuskokwim River (locally known as First Slough or Kalskag Slough), then along the west bank of this unnamed slough downstream to its confluence with the Kuskokwim River,

then southeast across the Kuskokwim River to its southerly bank, then along the south bank of the Kuskokwim River upriver to the confluence of a Kuskokwim River slough locally known as Old River, then across Old River to the downriver terminus of the island formed by Old River and the Kuskokwim River, then along the north bank of the main channel of Old River to Igyalleq Creek (Whitefish Creek), then along the south and west bank of Igyalleq Creek to Whitefish Lake, then directly across Whitefish Lake to Ophir Creek then along the west bank of Ophir Creek to its headwaters at 61°10.22' N lat., 159°46.05' W long.:

(A) Unit 19A consists of the Kuskokwim River drainage downstream

from and including the George River drainage and downstream from and excluding the Downey Creek drainage.

(B) Unit 19B consists of the Aniak River drainage upstream from and including the Salmon River drainage, the Holitna River drainage upstream from and including the Bakbuk Creek drainage, that area south of a line from the mouth of Bakbuk Creek to the radar dome at Sparrevohn Air Force Base, including the Hoholitna River drainage upstream from that line, and the Stony River drainage upstream from and including the Can Creek drainage.

(C) Unit 19C consists of that portion of Unit 19 south and east of a line from Benchmark M#1.26 (approximately 1.26 miles south of the northwestern corner

of the original Mt. McKinley National Park boundary) to the peak of Lone Mountain, then due west to Big River, including the Big River drainage upstream from that line, and including the Swift River drainage upstream from and including the North Fork drainage.

(D) Unit 19D consists of that portion drained by the Kuskokwim River drainage upstream from and including the Swift River drainage, excluding Unit 19C.

(E) Unit 19E consists of the remainder of Unit 19.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (n)(19) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980.

(B) In the Upper Kuskokwim Controlled Use Area, which consists of that portion of Unit 19D upstream from the mouth of the Selatna River, but excluding the Selatna and Black River drainages, to a line extending from Dyckman Mountain on the northern Unit 19D boundary southeast to the 1,610-foot crest of Munsatli Ridge, then south along Munsatli Ridge to the 2,981-foot peak of Telida Mountain, then northeast to the intersection of the western boundary of Denali National Preserve with the Minchumina-Telida winter trail, then south along the western boundary of Denali National Preserve to the southern boundary of Unit 19D, you may not use aircraft for hunting moose, including transportation of any moose hunter or moose part; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the Controlled Use

Area, or between a publicly owned airport within the area and points outside the area.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30.

(B) You may hunt brown bear by State registration permit in lieu of a resident tag in those portions of Units 19A and 19B downstream of and including the Aniak River drainage if you have obtained a State registration permit prior to hunting.

(C) In Unit 19C, individual residents of Nikolai may harvest sheep during the Aug. 10 to Sep. 20 season and not have that animal count against the community harvest limit (during the Oct. 1 to Mar. 30 season). Individual residents of Nikolai that harvest a sheep under State regulations may not participate in the Oct. 1 to Mar. 30 community harvest.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (n)(20) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980.

(B) You may not use motorized vehicles or pack animals for hunting Aug. 5–25 in the Delta Controlled Use Area, the boundary of which is defined as: a line beginning at the confluence of Miller Creek and the Delta River, then west to vertical angle benchmark Miller, then west to include all drainages of Augustana Creek and Black Rapids Glacier, then north and east to include all drainages of McGinnis Creek to its confluence with the Delta River, then east in a straight line across the Delta River to Mile 236.7 of the Richardson Highway, then north along the Richardson Highway to its junction with the Alaska Highway, then east along the Alaska Highway to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Canwell Glacier, then west along the north bank of the Canwell Glacier and Miller Creek to the Delta River.

(C) You may not use firearms, snowmobiles, licensed highway vehicles or motorized vehicles, except aircraft and boats, in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living

within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife.

(D) You may not use any motorized vehicle for hunting August 5–September 20 in the Glacier Mountain Controlled Use Area, which consists of that portion of Unit 20E bounded by a line beginning at Mile 140 of the Taylor Highway, then north along the highway to Eagle, then west along the cat trail from Eagle to Crooked Creek, then from Crooked Creek southwest along the west bank of Mogul Creek to its headwaters on North Peak, then west across North Peak to the headwaters of Independence Creek, then southwest along the west bank of Independence Creek to its confluence with the North Fork of the Fortymile River, then easterly along the south bank of the North Fork of the Fortymile River to its confluence with Champion Creek, then across the North Fork of the Fortymile River to the south bank of Champion Creek and easterly along the south bank of Champion Creek to its confluence with Little Champion Creek, then northeast along the east bank of Little Champion Creek to its headwaters, then northeasterly in a direct line to Mile 140 on the Taylor Highway; however, this does not prohibit motorized access via, or transportation of harvested wildlife on, the Taylor Highway or any airport.

(E) You may by permit hunt moose on the Minto Flats Management Area, which consists of that portion of Unit 20

bounded by the Elliot Highway beginning at Mile 118, then northeasterly to Mile 96, then east to the Tolovana Hotsprings Dome, then east to the Winter Cat Trail, then along the Cat Trail south to the Old Telegraph Trail at Dunbar, then westerly along the trail to a point where it joins the Tanana River 3 miles above Old Minto, then along the north bank of the Tanana River (including all channels and sloughs except Swan Neck Slough), to the confluence of the Tanana and Tolovana Rivers and then northerly to the point of beginning.

(F) You may hunt moose only by bow and arrow in the Fairbanks Management Area. The Area consists of that portion of Unit 20B bounded by a line from the confluence of Rosie Creek and the Tanana River, northerly along Rosie Creek to Isberg Road, then northeasterly on Isberg Road to Cripple Creek Road, then northeasterly on Cripple Creek Road to the Parks Highway, then north on the Parks Highway to Alder Creek, then westerly to the middle fork of Rosie Creek through section 26 to the Parks Highway, then east along the Parks Highway to Alder Creek, then upstream along Alder Creek to its

confluence with Emma Creek, then upstream along Emma Creek to its headwaters, then northerly along the hydrographic divide between Goldstream Creek drainages and Cripple Creek drainages to the summit of Ester Dome, then down Sheep Creek to its confluence with Goldstream Creek, then easterly along Goldstream Creek to Sheep Creek Road, then north on Sheep Creek Road to Murphy Dome Road, then west on Murphy Dome Road to Old Murphy Dome Road, then east on Old Murphy Dome Road to the Elliot Highway, then south on the Elliot Highway to Goldstream Creek, then easterly along Goldstream Creek to its confluence with First Chance Creek, Davidson Ditch, then southeasterly along the Davidson Ditch to its confluence with the tributary to Goldstream Creek in Section 29, then downstream along the tributary to its confluence with Goldstream Creek, then in a straight line to First Chance Creek, then up First Chance Creek to Tungsten Hill, then southerly along Steele Creek to its confluence with Ruby Creek, then upstream along Ruby Creek to Esro Road, then south on Esro Road to Chena Hot Springs Road, then east on Chena

Hot Springs Road to Nordale Road, then south on Nordale Road to the Chena River, to its intersection with the Trans-Alaska Pipeline right of way, then southeasterly along the easterly edge of the Trans-Alaska Pipeline right of way to the Chena River, then along the north bank of the Chena River to the Moose Creek dike, then southerly along the Moose Creek dike to its intersection with the Tanana River, and then westerly along the north bank of the Tanana River to the point of beginning.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear April 15–June 30; you may use bait to hunt wolves on FWS and BLM lands.

(B) You may not use a steel trap or a snare using cable smaller than 3/32-inch diameter to trap coyotes or wolves in Unit 20E during April and October.

(C) Residents of Units 20 and 21 may take up to three moose per regulatory year for the celebration known as the Nuchalawoyya Potlatch, under the terms of a Federal registration permit. Permits will be issued to individuals at the request of the Native Village of Tanana only. This three-moose limit is not cumulative with that permitted by the State.

(21) *Unit 21.* (i) Unit 21 consists of drainages into the Yukon River and Arhymot Lake upstream from a line starting at the downriver boundary of Paimiut on the north bank of the Yukon River then south across the Yukon River to the northern terminus of the Paimiut Portage, then south along the Portage to its intersection with Arhymot Lake, then south along the northern and western bank of Arhymot Lake to the outlet at Crooked Creek (locally known as Johnson River) drainage then to, but not including, the Tozitna River drainage on the north bank, and to but not including the Tanana River drainage on the south bank, and excluding the Koyukuk River drainage upstream from the Dulbi River drainage:

(A) Unit 21A consists of the Innoko River drainage upstream from and including the Iditarod River drainage.

(B) Unit 21B consists of the Yukon River drainage upstream from Ruby and

east of the Ruby-Poorman Road, downstream from and excluding the Tozitna River and Tanana River drainages, and excluding the Melozitna River drainage upstream from Grayling Creek.

(C) Unit 21C consists of the Melozitna River drainage upstream from Grayling Creek, and the Dulbi River drainage upstream from and including the Cottonwood Creek drainage.

(D) Unit 21D consists of the Yukon River drainage from and including the Blackburn Creek drainage upstream to Ruby, including the area west of the Ruby-Poorman Road, excluding the Koyukuk River drainage upstream from the Dulbi River drainage, and excluding the Dulbi River drainage upstream from Cottonwood Creek.

(E) Unit 21E consists of that portion of Unit 21 in the Yukon River and Arhymot Lake drainages upstream from a line starting at the downriver

boundary of Paimiut on the north bank of the Yukon River, then south across the Yukon River to the northern terminus of the Paimiut Portage, then south along the Portage to its intersection with Arhymot Lake, then along the northern and western bank of Arhymot Lake to the outlet at Crooked Creek (locally known as Johnson River) drainage, then to, but not including, the Blackburn Creek drainage, and the Innoko River drainage downstream from the Iditarod River drainage.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) The Koyukuk Controlled Use Area, which consists of those portions of Units 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk at 64°52.58' N lat., 157°43.10' W long., then northerly to the confluences of the Honhosa and Kateel Rivers at 65°28.42' N lat.,

157°44.89' W long., then northeasterly to the confluences of Billy Hawk Creek and the Huslia River (65°57' N lat., 156°41' W long.) at 65°56.66' N lat., 156°40.81' W long., then easterly to the confluence of the forks of the Dakli River at 66°02.56' N lat., 156° 12.71' W long., then easterly to the confluence of McLanes Creek and the Hogatza River at 66°00.31' N lat., 155°18.57' W long., then southwesterly to the crest of Hochandochtla Mountain at 65°31.87' N lat., 154°52.18' W long., then southwest to the mouth of Cottonwood Creek at 65°3.00' N lat., 156°06.43' W long., then southwest to Bishop Rock (Yistletaw) at 64°49.35' N lat., 157° 21.73' W long., then westerly along the north bank of the Yukon River (including Koyukuk Island) to the point of beginning, is closed during moose hunting seasons to the use of aircraft for hunting moose, including transportation of any moose hunter or moose part; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area; all hunters on the Koyukuk River passing the ADF&G-operated check station at Ella's Cabin (15 miles upstream from the Yukon on the Koyukuk River) are required to stop and report to ADF&G personnel at the check station.

(B) The Paradise Controlled Use Area, which consists of that portion of Unit 21

bounded by a line beginning at the old village of Paimiut, then north along the west bank of the Yukon River to Paradise, then northwest to the mouth of Stanstrom Creek on the Bonasila River, then northeast to the mouth of the Anvik River, then along the west bank of the Yukon River to the lower end of Eagle Island (approximately 45 miles north of Grayling), then to the mouth of the Iditarod River, then extending 2 miles easterly down the east bank of the Innoko River to its confluence with Paimiut Slough, then south along the east bank of Paimiut Slough to its mouth, and then to the old village of Paimiut, is closed during moose hunting seasons to the use of aircraft for hunting moose, including transportation of any moose hunter or part of moose; however, this does not apply to transportation of a moose hunter or part of moose by aircraft between publicly owned airports in the Controlled Use Area or between a publicly owned airport within the area and points outside the area.

(iii) In Unit 21D, you may hunt brown bear by State registration permit in lieu of a resident tag if you have obtained a State registration permit prior to hunting. Aircraft may not be used in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears, or parts of bears; however, this does not apply to transportation of bear hunters or bear

parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30; and in the Koyukuk Controlled Use Area, you may also use bait to hunt black bear between September 1 and September 25.

(B) If you have a trapping license, you may use a firearm to take beaver in Unit 21(E) from Nov. 1 through June 10.

(C) The residents of Units 20 and 21 may take up to three moose per regulatory year for the celebration known as the Nuchalawoyya Potlatch, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Tanana. This three-moose limit is not cumulative with that permitted by the State.

(D) The residents of Unit 21 may take up to three moose per regulatory year for the celebration known as the Kaltag/ Nulato Stickdance, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Kaltag or Nulato. This three-moose limit is not cumulative with that permitted by the State.

(22) *Unit 22.* (i) Unit 22 consists of Bering Sea, Norton Sound, Bering Strait, Chukchi Sea, and Kotzebue Sound drainages from, but excluding, the Pastolik River drainage in southern Norton Sound to, but not including, the Goodhope River drainage in Southern Kotzebue Sound, and all adjacent islands in the Bering Sea between the mouths of the Goodhope and Pastolik Rivers:

(A) Unit 22A consists of Norton Sound drainages from, but excluding, the Pastolik River drainage to, and including, the Ungalik River drainage, and Stuart and Besboro Islands.

(B) Unit 22B consists of Norton Sound drainages from, but excluding, the

Ungalik River drainage to, and including, the Topkok Creek drainage.

(C) Unit 22C consists of Norton Sound and Bering Sea drainages from, but excluding, the Topkok Creek drainage to, and including, the Tisuk River drainage, and King and Sledge Islands.

(D) Unit 22D consists of that portion of Unit 22 draining into the Bering Sea north of, but not including, the Tisuk River to and including Cape York and St. Lawrence Island.

(E) Unit 22E consists of Bering Sea, Bering Strait, Chukchi Sea, and Kotzebue Sound drainages from Cape York to, but excluding, the Goodhope River drainage, and including Little Diomed Island and Fairway Rock.

(ii) You may hunt brown bear by State registration permit in lieu of a resident tag if you have obtained a State registration permit prior to hunting. Aircraft may not be used in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears, or parts of bears; however, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iii) Unit-specific regulations:

(A) If you have a trapping license, you may use a firearm to take beaver in Unit 22 during the established seasons.

(B) Coyote, incidentally taken with a trap or snare, may be used for subsistence purposes.

(C) A snowmachine may be used to position a hunter to select individual caribou for harvest provided that the animals are not shot from a moving snowmachine.

(D) The taking of one bull moose and up to three musk oxen by the community of Wales is allowed for the

celebration of the Kingikmuit Dance Festival under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Wales. The harvest may occur only within regularly established seasons in Unit 22E. The harvest will count against any established quota for the area.

(E) A federally qualified subsistence user (recipient) may designate another federally qualified subsistence user to take musk oxen on his or her behalf.

The designated hunter must get a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients in the course of a season, but have no more than two harvest limits in his/her possession at any one time, except in Unit 22E where a resident of Wales or Shishmaref acting as a designated hunter may hunt for any number of recipients, but have no more than four harvest limits in his/her possession at any one time.

(23) Unit 23. (i) Unit 23 consists of Kotzebue Sound, Chukchi Sea, and Arctic Ocean drainages from and

including the Goodhope River drainage to Cape Lisburne.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use aircraft in any manner either for hunting of ungulates, bear, wolves, or wolverine, or for transportation of hunters or harvested species in the Noatak Controlled Use Area for the period August 15–September 30. The Area consists of that portion of Unit 23 in a corridor extending 5 miles on either side of the Noatak River beginning at the mouth of the Noatak River, and extending upstream to the mouth of Sapun Creek. This closure does not apply to the transportation of hunters or parts of ungulates, bear, wolves, or wolverine by regularly scheduled flights to communities by carriers that normally provide scheduled air service.

(B) [Reserved]

(iii) You may not use aircraft in any manner for brown bear hunting, including transportation of hunters, bears, or parts of bears; however, this does not apply to transportation of bear hunters or bear parts by regularly

scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may take caribou while hunting from a boat moving under power in Unit 23.

(B) In addition to other restrictions on method of take found in this section, you may also take swimming caribou with a firearm using rimfire cartridges.

(C) If you have a trapping license, you may take beaver with a firearm in all of Unit 23 from Nov. 1 through June 10.

(D) For the Baird and DeLong Mountain sheep hunts—a federally qualified subsistence user (recipient) may designate another federally qualified subsistence user to take sheep on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed

harvest report. The designated hunter may hunt for only one recipient in the course of a season and may have both his and the recipients' harvest limits in his/her possession at the same time.

(E) A snowmachine may be used to position a hunter to select individual caribou for harvest provided that the animals are not shot from a moving snowmachine. On BLM-managed lands only, a snowmachine may be used to position a caribou, wolf, or wolverine for harvest provided that the animals are not shot from a moving snowmachine.

(F) A federally qualified subsistence user (recipient) may designate another federally qualified subsistence user to take musk oxen on his or her behalf. The designated hunter must get a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but have no more than two harvest limits in his/her possession at any one time.

(24) *Unit 24.* (i) Unit 24 consists of the Koyukuk River drainage upstream from but not including the Dulbi River drainage:

(A) Unit 24A consists of the Middle Fork of the Koyukuk River drainage upstream from but not including the Harriet Creek and North Fork Koyukuk River drainages, to the South Fork of the Koyukuk River drainage upstream from Squaw Creek, the Jim River Drainage, the Fish Creek drainage upstream from and including the Bonanza Creek drainage, to the 1,410 ft. peak of the hydrologic divide with the northern fork of the Kanuti Chalatna River at N lat. 66°33.303' W long. 151°03.637' and following the unnamed northern fork of the Kanuti Chalatna Creek to the confluence of the southern fork of the Kanuti Chalatna River at N lat. 66°27.090' W long. 151°23.841', 4.2 miles SSW (194 degrees true) of Clawanmenka Lake and following the unnamed southern fork of the Kanuti Chalatna Creek to the hydrologic divide with the Kanuti River drainage at N lat. 66°19.789' W long. 151°10.102', 3.0 miles ENE (79 degrees true) from the 2,055 ft. peak on that divide, and the Kanuti River drainage upstream from the confluence of an unnamed creek at N lat. 66°13.050' W long. 151°05.864',

0.9 miles SSE (155 degrees true) of a 1,980 ft. peak on that divide, and following that unnamed creek to the Unit 24 boundary on the hydrologic divide to the Ray River drainage at N lat. 66°03.827' W long. 150°49.988' at the 2,920 ft. peak of that divide.

(B) Unit 24B consists of the Koyukuk River Drainage upstream from Dog Island to the Subunit 24A boundary.

(C) Unit 24C consists of the Hogatza River Drainage, the Koyukuk River Drainage upstream from Batza River on the north side of the Koyukuk River and upstream from and including the Indian River Drainage on the south side of the Koyukuk River to the Subunit 24B boundary.

(D) Unit 24D consists of the remainder of Unit 24.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use firearms, snowmobiles, licensed highway vehicles, or motorized vehicles, except aircraft and boats, in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living

within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, and Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife.

(B) You may not use aircraft for hunting moose, including transportation of any moose hunter or moose part in the Kanuti Controlled Use Area, which consists of that portion of Unit 24 bounded by a line from the Bettles Field VOR to the east side of Fish Creek Lake, to Old Dummy Lake, to the south end of Lake Todatonten (including all waters of these lakes), to the northernmost headwaters of Siruk Creek, to the highest peak of Double Point Mountain, then back to the Bettles Field VOR; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area.

(C) You may not use aircraft for hunting moose, including transportation of any moose hunter or moose part in the Koyukuk Controlled Use Area, which consists of those portions of Units 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk at 64°52.58' N lat., 157°43.10' W long., then northerly to the confluences of the Honhosa and Kateel Rivers at 65°28.42' N lat., 157°44.89' W long., then northeasterly to the confluences of Billy Hawk Creek and the Huslia River (65°57' N lat., 156°41' W long.) at 65°56.66' N lat., 156°40.81' W long., then easterly to the confluence of the forks of the Dakli River at 66°02.56' N lat., 156°12.71' W long., then easterly to the confluence of McLanes Creek and the Hogatza River at 66°00.31' N lat., 155°18.57' W long., then southwesterly to the crest of Hochandochtla Mountain at 65°31.87' N lat., 154°52.18' W long., then southwest to the mouth of Cottonwood Creek at 65°13.00' N lat., 156° 06.43' W long., then southwest to

Bishop Rock (Yistletaw) at 64° 49.35' N. lat., 157°21.73' W long., then westerly along the north bank of the Yukon River (including Koyukuk Island) to the point of beginning. However, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area. All hunters on the Koyukuk River passing the ADF&G-operated check station at Ella's Cabin (15 miles upstream from the Yukon on the Koyukuk River) are required to stop and report to ADF&G personnel at the check station.

(iii) You may hunt brown bear by State registration permit in lieu of a resident tag if you have obtained a State registration permit prior to hunting. You may not use aircraft in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears, or parts of bears.

However, this prohibition does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30; and in the Koyukuk Controlled Use Area, you may also use bait to hunt black bear Sep. 1–25.

(B) Arctic fox, incidentally taken with a trap or snare intended for red fox, may be used for subsistence purposes.

(C) If you are a resident of Units 24A, 24B, or 24C, during the dates of Oct. 15–Apr. 30, you may use an artificial light when taking a black bear, including a sow accompanied by cub(s), at a den site within the portions of Gates of the Arctic National Park and Preserve that are within Units 24A, 24B, or 24C.

(D) Unit 25D consists of the remainder of Unit 25.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use firearms, snowmobiles, licensed highway vehicles or motorized vehicles, except aircraft and boats in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, and Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife.

(B) The Arctic Village Sheep Management Area consists of that portion of Unit 25A north and west of Arctic Village, which is bounded on the east by the East Fork Chandalar River beginning at the confluence of Red Sheep Creek and proceeding southwesterly downstream past Arctic Village to the confluence with Crow Nest Creek, continuing up Crow Nest Creek, through Portage Lake, to its confluence with the Junjik River; then down the Junjik River past Timber Lake and a larger tributary, to a major, unnamed tributary, northwesterly, for approximately 6 miles where the stream forks into two roughly equal drainages; the boundary follows the easternmost fork, proceeding almost due north to the headwaters and intersects the Continental Divide; the boundary then follows the Continental Divide easterly, through Carter Pass, then easterly and northeasterly approximately 62 miles along the divide to the headwaters of the most northerly tributary of Red Sheep Creek then follows southerly along the divide designating the eastern extreme of the Red Sheep Creek drainage then to the confluence of Red Sheep Creek and the East Fork Chandalar River.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30 and between August 1 and September 25; in Unit 25D you may use bait to hunt brown bear between April 15 and June

30 and between August 1 and September 25; you may use bait to hunt wolves on FWS and BLM lands.

(B) You may take caribou and moose from a boat moving under power in Unit 25.

(C) The taking of bull moose outside the seasons provided in this part for food in memorial potlatches and traditional cultural events is authorized in Unit 25D west provided that:

(1) The person organizing the religious ceremony or cultural event contacts the Refuge Manager, Yukon Flats National Wildlife Refuge, prior to taking or attempting to take bull moose and provides to the Refuge Manager the name of the decedent, the nature of the ceremony or cultural event, number to be taken, and the general area in which the taking will occur.

(2) Each person who takes a bull moose under this section must submit a written report to the Refuge Manager, Yukon Flats National Wildlife Refuge, not more than 15 days after the harvest specifying the harvester's name and address, and the date(s) and location(s) of the taking(s).

(3) No permit or harvest ticket is required for taking under this section; however, the harvester must be an Alaska rural resident with customary and traditional use in Unit 25D west.

(4) Any moose taken under this provision counts against the annual quota of 60 bulls.

(26) *Unit 26.* (i) Unit 26 consists of Arctic Ocean drainages between Cape Lisburne and the Alaska–Canada border, including the Firth River drainage within Alaska:

(A) Unit 26A consists of that portion of Unit 26 lying west of the Itkillik River drainage and west of the east bank of the Colville River between the mouth of the Itkillik River and the Arctic Ocean.

(B) Unit 26B consists of that portion of Unit 26 east of Unit 26A, west of the west bank of the Canning River and west of the west bank of the Marsh Fork of the Canning River.

(C) Unit 26C consists of the remainder of Unit 26.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use aircraft in any manner for moose hunting, including transportation of moose hunters or parts of moose during the periods July. 1–Sep. 14 and Jan. 1–Mar. 31 in Unit 26A; however, this does not apply to transportation of moose hunters, their gear, or moose parts by aircraft between publicly owned airports.

(B) You may not use firearms, snowmobiles, licensed highway vehicles or motorized vehicles, except aircraft and boats, in the Dalton

Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife.

(iii) You may not use aircraft in any manner for brown bear hunting, including transportation of hunters, bears or parts of bears. However, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may take caribou from a boat moving under power in Unit 26.

(B) In addition to other restrictions on method of take found in this section, you may also take swimming caribou with a firearm using rimfire cartridges.

(C) In Kaktovik, a federally qualified subsistence user (recipient) may designate another federally qualified subsistence user to take sheep or musk ox on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

(D) For the DeLong Mountain sheep hunts, a federally qualified subsistence user (recipient) may designate another federally qualified subsistence user to take sheep on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for only one recipient in the course of a season and may have both his and the recipient's harvest limits in his/her possession at the same time.
