FEDERAL RESERVE SYSTEM

[Docket No. OP-1478]

Policy on Payment System Risk

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Policy statement; request for comment.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) is proposing to revise part I of its *Federal Reserve Policy on Payment System Risk* (PSR policy), which sets forth the Board's views, and related principles and minimum standards, regarding the management of risk in payment, clearing, and settlement systems. These revisions are proposed in light of the *Principles for Financial Market Infrastructures* (PFMI), the international risk-management standards for financial market infrastructures (FMIs) published in 2012.¹ These revisions are also proposed in light of the enhanced supervisory framework for designated financial market utilities as set forth in Title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("Dodd-Frank Act" or "Act"). In particular, certain revisions are intended to clarify that designated financial market utilities for which the Board is the Supervisory Agency under Title VIII of the Act are required to comply with Regulation HH and not the risk-management or transparency expectations set out in the policy.

The Board is proposing to (1) revise the Board's existing minimum risk-management standards in the PSR policy to reflect the PFMI, which now represents the relevant set of international standards; (2) include all

central securities depositories, securities settlement systems, and central counterparties in the scope of part I of the PSR policy; (3) introduce trade repositories to the scope of part I of the PSR policy; (4) clarify the Board's risk-management expectations for six mutually exclusive categories of FMI; (5) replace the existing self-assessment framework with a broader disclosure expectation; and (6) recognize responsibility E from the PFMI, in addition to other relevant international guidance, as the basis for cooperation with other authorities in regulating, supervising, and overseeing FMIs. The Board also proposes several conforming and technical changes to the introduction, the discussion of risks in payment, clearing, and settlement systems, and part I of the PSR policy.
