The scope of activities covered by CIPAC includes planning; coordinating among government and critical infrastructure owner/operator security partners; implementing security program initiatives; conducting operational activities related to critical infrastructure protection security

measures, incident response, recovery, infrastructure resilience, reconstituting critical infrastructure assets and systems for both manmade and naturally occurring events; and sharing threat, vulnerability, risk mitigation, and infrastructure continuity information.

Each of the sectors also has a Government Coordinating Council (GCC), whose membership includes a lead Federal agency that is defined as the Sector Specific Agency (SSA) and all relevant Federal, State, local, tribal, and/or territorial government agencies (or their representative bodies) whose mission interests also involve the scope of the CIPAC activities for that particular sector.

- (ii) Trade association members who are members of an SCC representing the interests of critical infrastructure owners and/or operators;
