

citizens. Five commenters supported the action and five were opposed. The commenters who were opposed to the action raised issues related to the potential effects the release of *S. galinae* would have on human and environmental health and post-release monitoring methods. APHIS has provided responses to specific concerns raised by the comments in an appendix to the final EA.

In this document, we are advising the public of our finding of no significant impact (FONSI) regarding the release of *S. galinae* into the continental United States for use as a biological control agent for EAB. The finding, which is based on the final EA, reflects our determination that release of this biological control agent will not have a significant impact on the quality of the human environment.

The final EA and FONSI may be viewed on Regulations.gov Web site (see footnote 1). Copies of the EA and FONSI are also available for public inspection at USDA, Room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect copies are requested to call ahead to (202) 799-7039 to facilitate entry into the reading room. In addition, copies may be obtained by calling or writing to the individual listed under **FOR FURTHER INFORMATION CONTACT**.

The EA and FONSI have been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*); (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508); (3) USDA regulations implementing NEPA (7 CFR part 1b); and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 17th day of August 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
