Proposed Project: Patient Centered
 Care Collaboration to Improve Minority
 Health, OMB# 0990-New, Office of
 Minority Health.

Abstract: The Office of Minority
 Health (OMH) in the Office of the
 Assistant Secretary for Health (OASH),
 Office of the Secretary (OS) is requesting
 approval from the Office of Management
 and Budget (OMB) on new data

collection activities for the Patient
 Centered Care Collaboration to Improve
 Minority Health project (PCCC). This
 dissemination and adoption initiative
 funded in 2010, under the ARRA, 2009,
 through the Office of Minority Health
 and the Agency for Health Care Quality
 supports dissemination and adoption
 priorities as outlined in the HHS Report
 to Congress on Comparative
 Effectiveness Research. The PCCC
 evaluation will assess whether
 disseminating a diabetes education
 intervention in a community based
 health clinic and offering a medication
 management and adherence
 intervention through home visits to
 seniors, improves the health and well
 being of racial and ethnic minority
 program participants; if the approach
 taken through the implementation of
 proven PCOR findings such as using
 community health workers and
 educators, and pharmacists to deliver
 the interventions improves the
 likelihood of patients changing their
 behaviors to improve their health status;
 and to determine if participants learned
 new information and skills that would
 help them to manage their health
 conditions and improve their health
 status.
