SUPPLEMENTARY INFORMATION:**A. Purpose**

This information collection complies with Section 6002 of the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6962). RCRA requires the Environmental Protection Agency (EPA) to designate items which are or can be produced with recovered materials. RCRA further requires agencies to develop affirmative procurement programs to ensure that items composed of recovered materials will be purchased to the maximum extent practicable. Affirmative procurement programs required under RCRA must contain, as a minimum (1) A recovered materials preference program and an agency promotion program for the preference program; (2) a program for requiring estimates of the total percentage of recovered materials used in the performance of a contract, certification of minimum recovered material content actually used, where appropriate, and reasonable verification procedures for estimates and certifications; and (3) annual review and monitoring of the effectiveness of an agency's affirmative procurement program.

The items for which EPA has designated minimum recovered material content standards are grouped into eight categories: (1) Construction products, (2) landscaping products, (3) nonpaper office products, (4) paper and paper products, (5) park and recreation products, (6) transportation products, (7) vehicular products, and (8) miscellaneous products. The FAR rule also permits agencies to obtain pre-award information from offerors regarding the content of items which the agency has designated as requiring minimum percentages of recovered materials.

In accordance with RCRA, the information collection applies to acquisitions requiring minimum percentages of recovered materials, when the price of the item exceeds \$10,000 or when the aggregate amount paid for the item or functionally equivalent items in the preceding fiscal year was \$10,000 or more.

Contracting officers use the information to verify offeror/contractor compliance with solicitation and contract requirements regarding the use of recovered materials. Additionally, agencies use the information in the annual review and monitoring of the effectiveness of the affirmative procurement programs required by RCRA.

Proposed Project: The Children's Health Insurance Program Reauthorization Act (CHIPRA) 10-State Evaluation—OMB No. 0990–NEW—Assistant Secretary Planning and Evaluation (ASPE).

Abstract: The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting the Office of Management and Budget (OMB) approval on a new collection to provide the Federal government with new and detailed insights into how the Children's Health Insurance Program (CHIP) has evolved since its early years, what impacts on children's coverage and access to care have occurred, and

what new issues have arisen as a result of policy changes related to CHIPRA and the Patient Protection and Affordable Care Act (The Affordable Care Act) of 2010 (Pub. L. 111–148). The evaluation will address numerous key questions regarding the structure and impact of CHIP and Medicaid programs for children. To answer these questions, ASPE will draw on three new primary data collection efforts, including a survey of selected CHIP enrollees and disenrollees in 10 states (and Medicaid enrollees and disenrollees in 3 of these states), qualitative case studies in the 10 states, and a survey of State Program Administrators in all 50 States and the District of Columbia. This current request seeks clearance for the first two information collections; ASPE will seek clearance for the third information collection at a later date. All data collection will take place one time only over a three year period. The survey component includes a sample of children in 10 selected states, recently enrolled or disenrolled in CHIP or Medicaid. Survey data will be collected using computer-assisted telephone interviewing with an in-person follow-up. The qualitative case studies will include site visit interviews with CHIP and Medicaid administrators and public and child health stakeholders, plus focus groups with parents or family members of CHIP enrollees.
