

During the evaluation of offers on a construction contract, the contracting officer reviews the offeror's PLA to determine if it conforms with all statutes, regulations, and Executive Orders.

- *FAR 52.222–34, Project Labor Agreement.* When a PLA is required for a construction contract, this clause requires the contractor to maintain the PLA in a current state throughout the life of the contract. This recordkeeping requirement is necessary for the Government to ensure that the contractor stays a party to the PLA during the life of the construction contract.

- *FAR 52.222–46, Evaluation of Compensation for Professional Employees.* This provision requires offerors to submit for evaluation a total compensation plan setting forth proposed salaries and fringe benefits for professional employees working on the contract. The Government will use this information to determine if professional employees are compensated fairly and properly. Plans indicating unrealistically low professional employees' compensation may be assessed adversely as one of the factors considered in making a contract award.

SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines which have been promulgated by the Department of Health and Human Services (HHS) as a final rule, advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule, advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated

responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC.

The Advisory Board's charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered on March 22, 2020, and will terminate on March 22, 2022.

Purpose: This Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

Matters to be Considered: The agenda will include discussions on the following: NIOSH Program Update; Department of Labor Program Update; Department of Energy Program Update; SEC Petitions Update; Procedures Review Finalization/Document Approvals; Update on Review of SEC–00253 Petition Evaluation Report for Reduction Pilot Plant; Update on Review of SEC–00188 Sandia Petition Addendum 2; Subcommittee on Dose Reconstruction Reviews Update; and a Board Work Session. Agenda items are subject to change as priorities dictate.
