Evaluations Performed. To develop the revised fee schedule for requests for particular NFIP map and insurance products, FEMA: (1) Evaluated the actual costs incurred at the MSC for producing, retrieving, and distributing those products; (2) analyzed historical sales, cost data, and product unit cost for unusual trends or anomalies; and (3) analyzed the effect of program changes, new products, technology investments, and other factors on future sales and product costs. The products covered by this notice are discussed in detail below.

Periodic Evaluations of Fees. A primary component of the fees is the prevailing private-sector rates charged to FEMA for labor and materials. Because these rates and the actual review and processing costs may vary
