

missed three or more fire return intervals by treating between 1,260 and 6,436 acres per year (31,503 to 160,894 acres over 25 years). Prescribed burning would be increased over what the current program accomplished but not as much as under Alternative B and D. Fuel reduction work under this alternative would apply less aggressive treatments to wildland/urban interface areas. Under this alternative, it would take more time than under Alternative B and the proposed action, but less than would be needed under Alternative A to accomplish the park's minimum goals. By the time all areas were treated, however, many areas would have missed another fire return interval or two, thus, the risk of stand replacement fire would remain high throughout the restoration period. The basis for the difference in annual accomplishment, when comparing alternatives, is the time frame proposed for reaching the restoration targets and the type of treatments allowed. Because of this time frame, the number of acres to be treated each year would be the least among the action alternatives.

Planning Background

The DYFMP/EIS was prepared pursuant to the National Environmental Policy Act. Public outreach was initiated in April 1999. A Notice of Intent was published in the **Federal Register** on March 22, 2001. Scoping comments were accepted until April 30, 2001. One planning meeting was held in Yosemite Valley. During this scoping period, the NPS held discussions and briefings with: local communities; local residents and home owners associations (Forest, Wawona, Yosemite West, and El Portal); local, regional and state fire organizations; air quality regulators; other agency representatives; park staff, elected officials; public service organizations; and other interested members of the public. Nearly 100 letters concerning the Draft YFMP/EIS planning process were received. The major issues raised during this period are summarized in Chapter 1, Purpose of and Need for the Action.

Public Meetings

In order to facilitate public review and comment on the draft DYFMP/EIS, the Superintendent will schedule public meetings in the Yosemite, Oakhurst, Mariposa, Sonora and one location on the east side of the park. Detailed information on location and times for each of the public meetings will be published in local and regional newspapers several weeks in advance and listed on the park's Webpage. Yosemite National Park management

and planning officials will attend all sessions to present the DYFMP/EIS, to receive oral and written comments, and to answer questions. Participants are encouraged to review the document prior to attending a meeting.

Comments

The draft YFMP/EIS will be sent directly to those who have requested it. Copies will be available at park headquarters in Yosemite Valley, the Warehouse Building in El Portal, and at local and regional libraries (*i.e.*, Mariposa, Oakhurst, Sonora, San Francisco and Los Angeles). Also, the complete document will be posted on the Yosemite National Park webpage <http://www.nps.gov/yose/planning>.

Written comments must be postmarked (or transmitted by e-mail) no later than 60 days from the date of publication of the EPAs filing notice in the **Federal Register**—as soon as this date is determined it will be announced on the park's webpage. All comments should be addressed to the Superintendent (and mailed to Yosemite National Park, P.O. Box 577, Yosemite, California 95389 (Attn: Fire Management Plan); or e-mailed to: Yose_Planning@nps.gov (in the subject line, type: Fire Management Plan)).

All comments received will be available for public review in the park's research library. If individuals submitting comments request that their name and/or address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always: NPS will make available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses, and, anonymous comments may not be considered.

Decision Process

Depending upon the degree of public interest and response from other agencies and organizations, at this time it is anticipated that the Final Fire Management Plan EIS will be completed during 2002; availability of the document will be duly noticed in the **Federal Register**. Subsequently, notice of an approved Record of Decision would be published in the **Federal Register** not sooner than thirty days after the final document is distributed. As a delegated EIS, the official responsible for the decision is the

Regional Director, Pacific West Region, National Park Service; subsequently the official responsible for implementation is the Superintendent, Yosemite National Park.

Dated: April 2, 2002.

Arthur E. Eck,

Acting Regional Director, Pacific West Region.

DEPARTMENT OF THE INTERIOR

National Park Service Subsistence Resource Commission; Meeting

AGENCY: National Park Service.

ACTION: Announcement of Subsistence Resource Commission meeting.

SUMMARY: Notice is hereby given in accordance with the Federal Advisory Committee Act that a Meeting of the Denali National Park Subsistence Resource Commission's will be held on Friday, August 23, 2002, at the McKinley Village Community Center, McKinley Village, Alaska. The meeting will be open to the public. Any person may file with the Commission a written statement concerning the matters to be discussed. The purpose of the meeting will be to continue work on currently authorized and proposed National Park Service subsistence hunting program recommendations including other related subsistence management issues.

The following agenda items will be discussed.

1. Call to order (SRC Chair).
2. Roll Call and Confirmation of Quorum.
3. SRC Chair and Superintendent's Welcome and Introductions.
4. Review and Adopt Agenda.
5. Review and adopt minutes from last meeting.
6. Public and agency comments.
7. Denali Back Country Management Plan updates.
8. Review Federal Subsistence Fisheries Proposals for 2003.
9. Moose management issues in GMU 16B.
10. Nikolai Subsistence Community Use Profiles and Fisheries TEK study update.
11. Spruce Creek access issues.
12. Alaska Board of Game Actions.
13. Federal Subsistence Board Actions.
14. Public and agency comments.
15. Set time and place of next Denali National Park SRC meeting.
16. Adjournment.

DATES: The meeting will be held from 9:00 a.m. to 5:00 p.m. on Friday, August 23, 2002.

LOCATION: The meeting will be held at the McKinley Village Community Center, McKinley Village, Alaska.

FOR FURTHER INFORMATION CONTACT: Persons who want further information concerning the meeting may contact Superintendent Paul Anderson at (907) 683-2294 or Hollis Twitchell, Subsistence and Cultural Resources Coordinator at (907) 683-9544 or (907) 455-0673.

SUPPLEMENTARY INFORMATION: The Subsistence Resource Commissions are authorized under title VIII, Section 808, of the Alaska National Interest Lands Conservation Act, Pub. L. 96-487, and operation in accordance with the provisions of the Federal Advisory Committees Act.

Draft minutes of the meeting will be available for public inspection approximately six weeks after the meeting from: Superintendent Denali National Park and Preserve, P.O. Box 9, Denali Park, Alaska 99755.

Robert L. Amberger,

Regional Director, National Park Service, Alaska Region.

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the American Museum of Natural History, New York, NY

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the American Museum of Natural History, New York, NY.

This notice is published as part of the National Park Service's administrative

responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by American Museum of Natural History professional staff in consultation with representatives of Native Village of Barrow Inupiat Traditional Government and Ukepeagvik Inupiat Corporation.

In 1912, human remains representing a minimum of 121 individuals were collected by Vilhjalmur Stefansson from Point Barrow, North Slope Borough, AK, during an American Museum of Natural History expedition. No known individuals were identified. No associated funerary objects are present.

In 1912, human remains representing a minimum of one individual were collected by Vilhjalmur Stefansson from Birnirk, three miles northeast of Barrow, North Slope Borough, AK, during an American Museum of Natural History expedition. No known individual was identified. No associated funerary objects are present.

These individuals have been identified as Native American based on geographic information and documentation at the American Museum of Natural History. Consultation with tribal representatives, geographic location, and documentation at the American Museum of Natural History suggest that a relationship exists between contemporary inhabitants of the Native Village of Barrow Inupiat Traditional Government and these human remains from Point Barrow, AK, and Birnirk, AK.

Based on the above-mentioned information, officials of the American Museum of Natural History have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of a minimum of 122 individuals of Native American ancestry. Officials of the American Museum of Natural History also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Native Village of Barrow Inupiat Traditional Government and Ukepeagvik Inupiat Corporation.

This notice has been sent to officials of the Native Village of Barrow Inupiat Traditional Government and Ukepeagvik Inupiat Corporation. Representatives of
