

ADDRESSES: This is a virtual meeting, and registration information will be sent upon request.

SUPPLEMENTARY INFORMATION: NIDDK is seeking individuals, companies, or organizations that have or use novel and innovative imaging, mobile smart apps, handheld devices, wireless and remote technologies and new tools or devices to evaluate/measure lower urinary function/dysfunction. There may be opportunities to use those technologies in a future phenotyping cohort. This webinar is intended to provide information on the opportunities for novel phenotyping methods to be tested in prospective cohort to the potentially interested parties. This webinar is free and open to the public. Early registration is requested, registration requests after June 18, 2013 COB will not be honored. For more information please contact Dr. Ziya Kirkali.

FOR FURTHER INFORMATION CONTACT: Ziya Kirkali, M.D.; Senior Scientific Advisor, Division of Kidney, Urology and Hematology, NIDDK, NIH. Phone: 301-594-7717, Email: kirkaliz@mail.nih.gov.

Dated: June 6, 2013.

Griffin P. Rodgers,

Director, National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Pretesting of Substance Abuse Prevention and Treatment and Mental Health Services Communication Messages—(OMB No. 0930-0196)—Extension

As the Federal agency responsible for developing and disseminating authoritative knowledge about substance abuse prevention, addiction treatment, and mental health services and for mobilizing consumer support and increasing public understanding to overcome the stigma attached to addiction and mental illness, the Substance Abuse and Mental Health Services Administration (SAMHSA) is responsible for development and dissemination of a wide range of education and information materials for both the general public and the professional communities. This submission is for generic approval and will provide for formative and qualitative evaluation activities to (1) assess audience knowledge, attitudes, behavior and other characteristics for the planning and development of messages, communication strategies and public information programs; and (2) test these messages, strategies and program components in developmental form to assess audience comprehension, reactions and perceptions. Information obtained from testing can then be used to improve materials and strategies while revisions are still affordable and possible. The annual burden associated with these activities is summarized below.
