SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Pre-Embarkation Certificate of Disinsection; DD 3044; OMB Control Number 0704-0568.

Needs and Uses: The information collection requirement is necessary to provide proof of aircraft disinsection to foreign countries that require it, before cargo and aircrew will be allowed to dis-embark in those countries.

Affected Public: Individuals or households.

Annual Burden Hours: 166.7.

Number of Respondents: 1,000.

Responses per Respondent: 1.

Annual Responses: 1,000.

Average Burden per Response: 10 minutes.

Frequency: On occasion.

Respondents are DoD-contracted pest managers. These pest management professionals would be required to fill out the certificate of disinsection, log it in the appropriate database, and provide a copy to the aircrew. Aircraft disinsection (spraying with insecticide to kill all insects aboard) is currently required in 14 countries for arriving military aircraft. Most of those countries also require documentation proving that the aircraft was disinsected, per their instructions in the Foreign Clearance Guide (FCG). The burden for this collection is calculated based on the number of times U.S. aircraft currently enter countries with the requirement to produce a certificate of disinsection. The certificates used, are unique to each of the countries with the requirement. They are not collections managed by the U.S. Government. The Armed Forces Pest Management Board (AFPMB) published technical guide (TG) for pest managers and aircrew to follow. This guidance standardizes our requirements for disinsection in the FCG for all countries our aircraft enter. One such requirement is the use of a standardized form by all DoD that satisfies the documentation requirements of disinsection for these 14 countries.

Alternate OSD Federal Register Liaison Officer, Department of Defense.
