### Administration for Children and Families

#### Submission for OMB Review; Comment Request

**Title:** Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

**OMB No.:** 0970-0401.

**Description:** Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that the Administration for Children and Families' programs are effective and meet our customers' needs we use a generic clearance process to collect qualitative feedback on our service delivery. This collection of information is necessary to enable ACF to garner customer and stakeholder feedback in an efficient timely manner, in accord with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient and satisfying experience with the programs. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or change in operation might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between ACF and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

This request is an extension of the "generic fast-track" process offered to all government agencies by OMB in 2010. Fast-track means each request receives approval five days after submission, if no issues are brought to ACF's attention by OMB within the five days.

**Respondents:** Individuals, State and Local Governments, and Tribes.

**AGENCY:** Food and Drug Administration, HHS.

**SUPPLEMENTARY INFORMATION:** In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

#### Extralabel Drug Use in Animals—21 CFR 530 (OMB Control Number—0910-0325)—(Extension)

The Animal Medicinal Drug Use Clarification Act of 1994 allows a veterinarian to prescribe the extralabel use of approved new animal drugs. Also, it permits FDA, if it finds that there is a reasonable probability that the extralabel use of an animal drug may present a risk to the public health, to establish a safe level for a residue from the extralabel use of the drug, and to require the development of an analytical method for the detection of residues above that established safe level. Although to date we have not established a safe level for a residue from the extralabel use of any new animal drug and, therefore, have not required the development of analytical methodology, we believe that there may be instances when analytical methodology will be required. We are, therefore, estimating the reporting burden based on two methods being required annually. The requirement to establish an analytical method may be fulfilled by any interested person. We believe that the sponsor of the drug will be willing to develop the method in most cases. Alternatively, FDA, the sponsor, and perhaps a third party may cooperatively arrange for method development. The respondents may be sponsors of new animal drugs, State, or Federal and/or State Agencies, academia, or individuals.

In the **Federal Register** of November 4, 2014 (79 FR 65408), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN<sup>1</sup>

21 CFR Section	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
530.22(b) .....	2	1	2	4,160	8,320

<sup>1</sup> There are no capital costs or operating and maintenance costs associated with this collection of information.
