Abstract: The EPA published a final rule to regulate the disposal of coal combustion residuals (CCR) from electric utilities as solid waste under RCRA Subtitle D (see 80 FR 21302, April 17, 2015). EPA established national minimum criteria for existing and new CCR landfills and CCR surface impoundments and all lateral expansions to include location restrictions, design and operating criteria, groundwater monitoring and corrective action, closure requirements and post-closure care, and recordkeeping, notification, and internet posting requirements. Since the final rule, several court decisions have required accelerated closure timelines for many units and forced closures for many units previously categorized as lined. In 2020, EPA published the “Hazardous and Solid Waste Management System: Disposal of CCR; A Holistic Approach to Closure Part B: Alternate Demonstration for Unlined Surface Impoundments Rule” which allows for units to receive variances for unlined surface impoundments (see 85 FR 72506, November 12, 2020). This ICR includes the voluntary action that states may take to obtain permit program approval. With this renewal, this ICR also incorporates the burden currently

covered by OMB Control No. 2050–0053.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are the private sector, as well as State, Local, or Tribal Governments.

Respondent’s obligation to respond: Mandatory under section 4010(c) and 3001(d)(4) of the Resource Conservation and Recovery Act (RCRA) of 1976.

Estimated number of respondents: 744 (21 states and 723 new and existing facilities).

Frequency of response: On occasion.

Total estimated burden: 173,083 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$26,168,233 per year, includes \$15,511,426 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 170,904 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is mainly a result of having incorporated the burden associated with the information collection requirements related to the disposal of CCR from existing ICR 2050–0053 into this ICR.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1214; FR ID 192754]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the

quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before February 26, 2024. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060–1214.

Title: Direct Access to Numbers Order, FCC 15–70, Conditions.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 20 respondents; 20 responses.

Estimated Time per Response: 10–35 hours.

Frequency of Response: One-time; ongoing and bi-annual reporting requirements.

Obligation to Respond: Voluntary. Statutory authority for these collections are contained in 47 U.S.C. 251(e)(1) and section 6(a) of the TRACED Act.

Total Annual Burden: 1,100 hours.

Total Annual Cost: No Cost.

Needs and Uses: On June 18, 2015, the Commission adopted a Report and Order establishing the Numbering Authorization Application, which allows interconnected VoIP providers to apply for a blanket authorization from the FCC that, once granted, will allow them to demonstrate that they have the authority to provide service in specific areas, thus enabling them to request numbers directly from the Numbering

Administrators. The collection covers the information and certifications that applicants must submit in order to comply with the Numbering Authorization Application process. On September 21, 2023, the Commission adopted a Second Report and Order that strengthens this application process by revising this information collection to ensure the Commission receives sufficient detail from interconnected VoIP applicants to make informed, public-interest-driven decisions about their direct access applications and thereby protect the public from bad actors. This information will continue help the Commission stem the tide of illegal robocalls, protect national security and law enforcement, safeguard the nation's finite numbering resources, reduce the opportunity for regulatory arbitrage, and further promote public safety.

Federal Communications Commission.
