k. *Description of Proceeding:* Article 24 of the license states in part: If the Licensee shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission mailed to the record address of the Licensee or its agent, the Commission will deem it to be the intent of the Licensee to surrender the license.

The project has not been operational for at least five years. On May 30, 2018, the Licensee filed an application for a subsequent license for the project. Commission staff rejected the licensee's application for failing to cure deficiencies and respond to additional information requests. Subsequently, on May 3, 2019, Commission staff issued a notice soliciting applications from other potential applicants for the project. No filings or requests were received. By letters dated September 25, 2019, November 4, 2019, and December 12, 2019, Commission staff requested the licensee to file their plan and schedule for a license surrender. The licensee did not file the requested information. On

January 16, 2020, Commission staff sent a letter notifying the licensee that the Commission will open a proceeding to terminate their license by implied surrender.
