

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Pre-Manufacture Review Reporting and Exemption Requirements for New Chemical Substances and Significant New Use Reporting Requirements for Chemical Substances.

ICR number: EPA ICR No. 0574.17.

OMB control number: OMB Control No. 2070-0012.

ICR status: This ICR is currently scheduled to expire on December 31, 2015. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 5 of the Toxic Substances Control Act (TSCA) requires manufacturers (defined by TSCA to include importers) of new chemical substances to submit to EPA notice of intent to manufacture a new chemical substance 90 days before manufacture begins. EPA reviews the information contained in the notice to evaluate the health and environmental effects of the new chemical substance. On the basis of the review, EPA may take further regulatory action under TSCA, if warranted. If EPA takes no action within 90 days, the submitter is free to manufacture the new chemical substance without restriction.

TSCA section 5 also authorizes EPA to issue Significant New Use Rules (SNURs). EPA uses this authority to take follow-up action on new or existing

chemicals that may present an unreasonable risk to human health or the environment if used in a manner that may result in different and/or higher exposures of a chemical to humans or the environment. Once a use is determined to be a significant new use, persons must submit a notice to EPA 90 days before beginning manufacture or processing of a chemical substance for that use. Such a notice allows EPA to receive and review information on such a use and, if necessary, regulate the use before it occurs. Finally, TSCA section 5 also permits applications for exemption from section 5 review under certain circumstances. An applicant must provide information sufficient for EPA to make a determination that the circumstances in question qualify for an exemption. In granting an exemption, EPA may impose appropriate restrictions. This information collection addresses the reporting and recordkeeping requirements associated with TSCA section 5.

Responses to the collection of information are mandatory (see 40 CFR parts 700, 720, 721, 723 and 725). Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 0.725 hours and 508 hours per response, depending upon the type of response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are companies that manufacture or process chemical substances.

Estimated total number of potential respondents: 372.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 11.3.

Estimated total annual burden hours: 102,846 hours.

Estimated total annual costs: \$35,722,737. This includes an estimated burden cost of \$35,722,737 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease of 14,316 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects EPA's revision of the expected number of annual submissions, from 2,126 to 1,907, with a corresponding decrease in the associated burden. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: April 19, 2015.

James Jones,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OARM-2011-0748; FRL-9924-62-OEI]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Monthly Progress Reports (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "Monthly Progress Reports (Renewal)" (EPA ICR No. 1039.14, OMB Control No. 2030-0005) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through May 31, 2015. Public comments were previously requested via the **Federal Register** (80 FR 6703) on February 6, 2015 during a 60-day comment period.

This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before May 28, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OARM–2011–0748, to (1) EPA online using www.regulations.gov (our preferred method), by email to oei.docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Thomas Valentino, Policy Training and Oversight Division, Office of Acquisition Management, (3802R), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 202–564–4522; email address: valentino.thomas@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: Government surveillance of contractor performance is required to give reasonable assurance that efficient methods and effective cost controls are being used for various cost-reimbursable and fixed-rate contracts. Per 48 CFR 1552.211 regulations, the Agency on a monthly basis requires contractors to provide the Contracting Officer's Representative (COR) with a report detailing: a) what was accomplished on the contract for that period, b)

expenditures for the same period of time, and c) what is expected to be accomplished on the contract for the next month. Responses to the information collection are mandatory for contractors and are required for the contractors to receive monthly payments.

Form Numbers: 1900–68.

Respondents/affected entities: Private contractors.

Respondent's obligation to respond: Mandatory (48 CFR 1552.211).

Estimated number of respondents: 266 (total).

Frequency of response: Monthly.

Total estimated burden: 77,406 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$7,207,568 (per year), includes \$39,900 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 16,506 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to an increase in the number of contracts that are being awarded.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

Notice of Availability of Work Plan Chemical Problem Formulation and Initial Assessment for 1,4-Dioxane; Request for Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: With this notice, EPA is announcing that it will be publishing a problem formulation and initial assessment document for each TSCA Work Plan Chemical prior to conducting further risk analysis. This notice is also announcing the availability of a problem formulation and initial assessment document for the Work Plan Chemical 1,4-Dioxane and opening the 60-day public comment period for the document. Based on experience in conducting TSCA Work Plan Chemical assessments to date and stakeholder feedback, starting in 2015 EPA will publish a problem formulation and initial assessment or data needs

assessment for each TSCA Work Plan Chemical as a stand-alone document to facilitate public and stakeholder input prior to conducting further risk analysis. EPA believes publishing problem formulations and initial assessments for TSCA Work Plan Chemicals will increase transparency about EPA's thinking and analysis process, provide opportunity for the public and stakeholders to comment on EPA's approach and provide the opportunity to receive additional information/data to supplement or refine the assessment approach prior to EPA conducting detailed risk analysis and risk characterization.

DATES: Comments must be received on or before June 29, 2015.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPPT–2015–0078, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- **Mail:** Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001.

- **Hand Delivery:** To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: For technical information contact: Stanley Barone, Risk Assessment Division (7403M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001; telephone number: (202) 564–1169; email address: barone.stan@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554–1404; email address: TSCA-Hotline@epa.gov.
