Title of Collection: Antarctic emergency response plan and environmental protection information.

OMB Approval Number: 3145-0180.

Abstract: The NSF, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 *et seq.*) ("ACA") regulates certain non-governmental activities in Antarctica. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act. On September 7, 2001, NSF published a final rule in the **Federal Register** (66 FR 46739) implementing certain of these statutory amendments. The rule requires non-governmental Antarctic expeditions using non-U.S. flagged vessels to ensure that the vessel owner has an emergency response plan. The rule also requires persons organizing a non-governmental expedition to provide expedition

members with information on their environmental protection obligations under the Antarctic Conservation Act.

Expected Respondents. Respondents may include non-profit organizations and small and large businesses. The majority of respondents are anticipated to be U.S. tour operators, currently estimated to number eighteen.

Burden on the Public. The Foundation estimates that a one-time paperwork and recordkeeping burden of 40 hours or less, at a cost of \$500 to \$1400 per respondent, will result from the emergency response plan requirement contained in the rule. Presently, all respondents have been providing expedition members with a copy of the Guidance for Visitors to the Antarctic (prepared and adopted at the Eighteenth Antarctic Treaty Consultative Meeting as Recommendation XVIII-1). Because this Antarctic Treaty System document satisfies the environmental protection information requirements of the rule, no additional burden shall result from the environmental information requirements in the proposed rule.

Dated: March 23, 2022.

Reports Clearance Officer, National Science Foundation.

I. Introduction

On March 21, 2022, the Postal Service filed a request for an advisory opinion from the Commission regarding planned changes to the service standards for Retail Ground (RG) and Parcel Select

Ground (PSG).¹ RG “is an economical ground shipping solution for retail (single-piece) customers for packages, thick envelopes, and tubes weighing less than 70 pounds and up to 130 inches combined length and girth that are not required to be sent as First-Class Mail.”² PSG is similar to RG but targeted at large- and medium-sized commercial shippers. Request at 2; Notice at 1 n.2. The Postal Service proposes to upgrade the service standards for RG and PSG from the current 2- to 8-day standard to a 2- to 5-day standard. Request at 2.

The intended effective date of the Postal Service's planned changes is no earlier than 90 days after the filing of the Request. *Id.* at 5. The Request was filed pursuant to 39 U.S.C. 3661 and 39 CFR part 3020. Notice at 1.

On March 8, 2022, the Commission issued Order No. 6115, which established Docket No. N2022-1 to consider the Postal Service's proposed changes, notified the public concerning the Postal Service's pre-filing conference, and appointed a Public Representative.⁴ Due to the COVID-19 pandemic, the Postal Service held its pre-filing conference virtually on March
