j. *Cooperating agencies:* With this notice, the Commission is inviting Federal, State, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues affected by the proposal, that wish to cooperate in the preparation of any environmental document, if applicable, to follow the instructions for filing such requests described in item m below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. *Deadline for filing comments, motions to intervene, and protests:* January 19, 2024.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. The first page of any filing should include the docket number P–3633–044. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the

official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* During relicensing consultation with interested parties which began in 2020, the licensee determined that the cost of relicensing the project, as well as anticipated mitigation measures, would render the project uneconomic. Thus, the licensee proposes to surrender its license. The licensee proposes to remove all generating equipment, including the equipment diverging from the main penstocks including the turbine, generator, gate valve, and elbow for each unit. The electrical conduit in the powerhouse, the motor controllers, and the generation cables up to the interconnection point would also be removed. Surrender activities would be confined to the powerhouse. No changes to the dam, which is owned by Washington Suburban Sanitary Commission (WSSC), are proposed. The primary use of WSSC's dam and reservoir is to provide a water source to surrounding counties. No changes to this water supply are proposed as part of surrender. The licensee is not proposing any ground disturbing activities or any changes to the environment in the project area.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those
