Background

The FAA is pursuing differential GPS technology under the LAAS program. LAAS ground facilities will be consistent with the International Civil Aviation Organization standards for Ground-based Augmentation Systems for GPS that support Category I precision approaches and the positioning service. RTCA has developed standards for airborne navigation equipment using LAAS. Two new TSOs have been drafted based upon the RTCA standards. One TSO is for the VHF data broadcast receive function; the other is for the position and navigation function.

How To Obtain Copies

You may get a copy of the draft TSO from the Internet at: <http://av-info.faa.gov/tso/Tsopro/Proposed.htm>. You may also request a copy from Mr. Bruce DeCleene. See section entitled **FOR FURTHER INFORMATION CONTACT** for complete address.
