The proposed improvement would involve the reconstruction of the existing route in the hamlets of Coram and Medford, Town of Brookhaven for a distance of 4.6 km (3 miles). - Improve intersection capacity and operation to eliminate recurring daily delay.

- Provide transportation improvements that reduce or eliminate the potential of vehicular conflict/accident.

- Correct identified pavement deficiencies in order to attain a structurally sound highway.

- Provide an adequate closed drainage system to convey roadway storm water runoff and eliminate existing roadway flooding conditions.

Alternatives under consideration include one no-build and one build alternatives as follows:

- Alternative I—no build.
- Alternative II—build; involving reconstruction and realigning of NY Route 112 into a four-lane highway with two-way continuous left turn land or raised median.
