

than September 30, 2001. *See* Decision Memorandum from Holly A. Kuga to Bernard T. Carreau dated concurrently with this notice, which is on file in the Central Records Unit, Room B-099 of the main Commerce building. We intend to issue the final results no later than 120 days after the publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: May 22, 2001.

Bernard T. Carreau,

Deputy Assistant Secretary, Import Administration, Group II.

Welded Large Diameter Line Pipe From Mexico: Postponement of Preliminary Determination of Antidumping Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of postponement of preliminary determination of antidumping duty investigation.

EFFECTIVE DATE: May 25, 2001.

FOR FURTHER INFORMATION CONTACT: Rick Johnson at (202) 482-3818; Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

Statutory Time Limits

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department of Commerce (the Department) to issue the preliminary determination of an antidumping duty investigation within 140 days after the date of initiation. However, if the case is extraordinarily complicated and additional time is necessary to make the preliminary determination, and the parties concerned are cooperating in the investigation, section 733(c)(1)(B) of the Act allows the Department to extend the time limit for the preliminary determination until not later than 190 days after the date of initiation.

Background

On January 30, 2001, the Department initiated the above-referenced investigation. *See Notice of Initiation of Antidumping Duty Investigations: Welded Large Diameter Line Pipe from*

Mexico and Japan, 66 FR 11266 (February 23, 2001). The preliminary determinations are currently due no later than June 19, 2001.

Extension of Preliminary Determination

The Department has now concluded, consistent with section 733(c)(1)(B) of the Act, that this investigation is extraordinarily complicated, and that additional time is necessary to issue the preliminary determination due to the complexity of certain issues raised in these cases, including the complexity of the transactions to be investigated and adjustments to be considered and the novelty of the issues presented. Specifically, the Department must investigate complicated matters of affiliation between the respondent and another producer. Simultaneously, it must analyze and respond to petitioners' recent allegation of sales-below-cost.

Therefore, in light of the fact that the parties to this proceeding have been cooperating, pursuant to section 733(c)(1) of the Act, and that additional time is necessary to make this preliminary determination in accordance with section 733(c)(1)(B)(ii) of the Act, the Department is postponing the deadline for issuing this determination until August 8, 2001.

Dated: June 4, 2001.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5 P.M. in Room 4211, U.S. Department of

Commerce, 14th Street and Constitution Avenue, NW., Washington, DC.

Docket Number: 01-011. **Applicant:** The Burnham Institute, 10901 North Torrey Pines Road, Building #7, La Jolla, CA 92037. **Instrument:** Brain Slice Physiology Setup. **Manufacturer:** Luigs and Neumann, Germany. **Intended Use:** The instrument is intended to be used to prepare acute slices of the rat and mouse brain. These slices will then be visualized under the microscope, microelectrodes will be inserted into single, optically identified nerve cells and stimulation electrodes placed in other identified regions of the brain slice. The main research objective is to understand neuronal information acquisition, processing and storage in the mammalian brain under physiological and pathological conditions. A main focus will be on brain structures involved in sensory perception, memory storage and motor control. In addition, the instrument will be used for guided research training for graduate and undergraduate students in the course BISP 199. Application accepted by Commissioner of Customs: May 4, 2001.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.
