

date for attributing 2021 bigeye tuna catch to the CNMI is August 30, 2021.

ADDRESSES: The Fishery Ecosystem Plan for Pelagic Fisheries of the Western Pacific (FEP) describes specified fishing agreements and is available from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, tel. 808-522-8220, fax 808-522-8226, or <http://www.wpcouncil.org>.

NMFS prepared environmental analyses that describe the potential impacts on the human environment that would result from the action. The analyses, identified by NOAA-NMFS-2020-0010, are available from <https://www.regulations.gov/search/docket?filter=NOAA-NMFS-2020-0010>, or from Michael D. Tosatto, Regional Administrator, NMFS Pacific Islands Region (PIR), 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.

FOR FURTHER INFORMATION CONTACT: Lynn Rassel, NMFS PIRO Sustainable Fisheries, 808-725-5184.

SUPPLEMENTARY INFORMATION: In a final rule published on January 12, 2021, NMFS specified a 2021 limit of 2,000 t of longline-caught bigeye tuna for each of the U.S. Pacific Island territories of American Samoa, Guam, and the CNMI (86 FR 2297). NMFS allows each territory to allocate up to 1,500 t of the 2,000 t limit to U.S. longline fishing vessels identified in a valid specified fishing agreement, but the total allocation among all territories may not exceed 3,000 t.

On June 25, 2021, NMFS received from the Council a specified fishing agreement between the CNMI and the Hawaii Longline Association. The Council's Executive Director advised that the agreement is consistent with the FEP and its implementing regulations. On July 15, 2021, NMFS reviewed the agreement and determined that it is consistent with the FEP, implementing regulations, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws.

In accordance with 50 CFR 300.224(d) and 50 CFR 665.819(c)(9), vessels in the agreement may retain and land bigeye tuna in the western and central Pacific Ocean under the CNMI attribution specified in the fishing agreement. On August 30, 2021, NMFS began attributing bigeye tuna caught by vessels in the agreement to the CNMI. If NMFS determines that the fishery will reach the 1,500 t allocation specified in the CNMI agreement, we will restrict the retention of bigeye tuna caught by vessels in the agreement, unless the vessels are included in a subsequent

specified fishing agreement with another U.S. territory.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 20, 2021.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 210210-0018; RTID 0648-XB337]

Fisheries of the Economic Exclusive Zone Off Alaska; Groundfish Fishery by Non-Rockfish Program Catcher Vessels Using Trawl Gear in the Western and Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of closure.

SUMMARY: NMFS is opening directed fishing for groundfish, other than pollock, by non-Rockfish Program catcher vessels using trawl gear in the Western and Central Regulatory Areas of the Gulf of Alaska (GOA). This action is necessary to fully use the 2021 groundfish total allowable catch available for non-Rockfish Program catcher vessels directed fishing for groundfish, other than pollock, using trawl gear in the Western and Central Regulatory Areas of the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), August 24, 2021, through 2400 hours, A.l.t., December 31, 2021. Comments must be received at the following address no later than 4:30 p.m., A.l.t., September 7, 2021.

ADDRESSES: You may submit comments on this document, identified by NOAA-NMFS-2020-0140, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA-NMFS-2020-0140 in the Search box. Click on the "Comment" icon, complete the required fields, and enter or attach your comments.
- **Mail:** Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries

Division, Alaska Region NMFS, Attn: Records Office. Mail comments to P.O. Box 21668, Juneau, AK 99802-1668.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and NMFS will post the comments for public viewing on www.regulations.gov without change. All personal identifying information (*e.g.*, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS prohibited directed fishing for groundfish, other than pollock, by non-Rockfish Program catcher vessels using trawl gear in the Western and Central Regulatory Areas of the GOA, effective 1200 hours, A.l.t., March 26, 2021 (86 FR 16677, March 31, 2021) under § 679.21(i)(8)(ii).

On August 20, 2021, NMFS published an inseason adjustment (86 FR 46792, August 20, 2021) that reapportioned 1,350 Chinook salmon prohibited species catch limit to the non-Rockfish Program catcher vessel sector participating in the directed fishery for groundfish, other than pollock, in the Western and Central Regulatory Areas of the GOA that is available from August 18, 2021 until December 31, 2021 (§ 679.21(h)(5)(iii)). Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the 2021 groundfish total allowable catch available for non-Rockfish Program catcher vessels directed fishing for groundfish, other than pollock, using trawl gear in the Western and Central Regulatory Areas of the GOA, NMFS is terminating the previous closure and is opening directed fishing for non-Rockfish Program catcher vessels directed fishing for groundfish, other than pollock, using

trawl gear in the Western and Central Regulatory Areas of the GOA.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to

the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay opening directed fishing for groundfish, other than pollock, by non-Rockfish Program catcher vessels using trawl gear in the Western and Central Regulatory Areas of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 20, 2021.

The Assistant Administrator for Fisheries, NOAA also finds good cause

to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 23, 2021.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
