SUPPLEMENTARY INFORMATION:

Title: 7 CFR Part 220, School Breakfast Program.

OMB Number: 0584–0012.

Expiration Date: February 28, 2001.

Type of Request: Extension of a currently approved collection.

Abstract: Section 4 of the Child Nutrition Act of 1966 (CNA), (42 U.S.C. 1773), authorizes the School Breakfast Program. The School Breakfast Program is a nutrition assistance program whose benefit is a breakfast meeting nutritional requirements prescribed by the Department in accordance with Section 4(e) of the CNA. That provision requires that "Breakfasts served by schools participating in the school breakfast program under this section shall consist of a combination of foods and shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research."

On June 8, 2000, FNS published an interim rule which allows schools to offer foods that consist of up to 100 percent alternate protein products. School food authorities that already provide menus or otherwise communicate with program participants must identify products or dishes with more than 30 percent alternate protein products in a manner which does not characterize it solely as beef, pork, poultry or seafood products or dishes. This could include information provided on serving lines and does not require that school food authorities use menus or other methods of communication. This provision allows program participants to make informed decisions about their food choices under the school meals programs and is referred to as a third-party disclosure requirement. Although this provision is in effect, this Notice affords the public an opportunity to again comment on the burden associated with the identification of alternate protein products.

The purpose of this Notice is also to request an extension of the Information Collection Budget for the School Breakfast Program and in accordance with the Paperwork Reduction Act of 1995, and to allow the public 60 days to comment on all reporting and recordkeeping burdens as indicated under the *Estimated Total Annual Burden on Respondents* below. The information being requested is required to administer and operate this program in accordance with the CNA. The Program is administered at the State and school food authority levels and the operations include the submission and approval of applications, execution of agreements, submission of claims, payment of claims and, monitoring and providing technical assistance. All of the reporting and recordkeeping requirements associated with the School

Breakfast Program are currently approved by the Office of Management and Budget and are in force.

Respondents: State agencies, school food authorities and schools.

Estimated Number of Respondents: 82,748.

Average Number of Responses per Respondent: The number of responses is estimated to be 59 responses per respondent per year.

Estimated Total Annual Burden on Respondents: The recordkeeping burden hours are estimated at 4,674,185, and the reporting burden hours are estimated at 221,611 for an estimated total annual burden of 4,895,796.

Dated: January 16, 2001.

Samuel Chambers, Jr.,

Administrator.
