I. Introduction and Summary

1. The Bureaus establish the procedures that will apply to the reverse auction that will award up to \$50 million in one-time Tribal Mobility Fund Phase I support. This auction, which is designated as Auction 902, is rescheduled to be held on December 19, 2013. The *Auction 902 Procedures Public Notice* establishes the procedures, terms, and conditions governing Auction 902, including the pre- and post-auction application processes, and provides other important information for parties that wish to seek Tribal Mobility Fund Phase I support.

2. Auction 902 will award one-time support to carriers that commit to provide 3G or better mobile voice and broadband services to Tribal lands that lack such services. Support will be allocated to maximize the population covered by new mobile services without exceeding the budget of \$50 million. Winning bidders will be obligated to choose whether to deploy 3G service within two years or 4G service within three years after the award of support.

3. Auction 902 will award high-cost universal service support through reverse competitive bidding. The *USF/ICC Transformation Order*, 76 FR 73830, November 29, 2011 and 76 FR 81562, December 28, 2011, established the Mobility Fund as a universal service support mechanism dedicated expressly to mobile services and adopted rules for distribution of the \$50 million budget for Tribal Mobility Fund Phase I. The Commission concluded in the *USF/ICC Transformation Order* that a population-based metric is appropriate for the Tribal Mobility Fund Phase I auction. In the *USF/ICC Transformation Order*, the Commission delegated authority to the Bureaus to implement Tribal Mobility
