[Docket No.: ED–2023–SCC–0024]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Borrower Defense to Loan Repayment Universal Forms

AGENCY: Federal Student Aid (FSA), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a revision of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before June 16, 2023.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link www.reginfo.gov/public/do/PRAMain to access the site. Find this information collection request (ICR) by selecting “Department of Education” under “Currently Under Review,” then check the “Only Show ICR for Public Comment” checkbox. *Reginfo.gov* provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the “View Information Collection (IC) List” link. Supporting statements and other supporting documentation may be found by clicking on the “View Supporting Statement and Other Documents” link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Beth Grebeldinger, (202) 377–4018.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Borrower Defense to Loan Repayment Universal Forms.

OMB Control Number: 1845–0163.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: Individuals or households; private sector; State, local, and Tribal governments.

Total Estimated Number of Annual Responses: 378,230.

Total Estimated Number of Annual Burden Hours: 990,034.

Abstract: The Department of Education (the Department) amends the William D. Ford Federal Direct Loan (Direct Loan) Program regulations issued under the Higher Education Act of 1965, as amended (HEA), to implement a new regulation in § 685.400 *et seq.*—Borrower Defense to Repayment. These final regulations are a result of negotiated rulemaking and will add new requirements to the current regulations. These final regulations require the collection of this information from borrowers who believe they qualify for a borrower defense to repayment discharge, as permitted under section 455(h) of the HEA. This request is to revise the currently approved information collection 1845–0163 to incorporate the new regulatory requirements and forms. Based on public comment, there have been changes made to the forms and times for completion.

Dated: May 12, 2023.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP18–116–001]

Texas Gas Transmission, LLC; Notice of Request for Extension of Time

Take notice that on May 5, 2023, Texas Gas Transmission, LLC (Texas Gas) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until June 26, 2025, to abandon certain pipeline facilities, including all related appurtenant and auxiliary facilities, originally authorized in the June 26, 2018 Order Approving Abandonment under section 7 of the Natural Gas Act and part 157 of the Commission’s regulations (June 26, Order).¹ Ordering Paragraph (B) of the June 26 Order provided a deadline of June 26, 2019, to complete abandonment of the facilities.

In its original application, Texas Gas proposed to abandon in-place approximately 11.0 miles of its 16-inch-diameter North Lake Pagie (NLP) pipeline and approximately 5.7 miles of its 16-inch-diameter Bay Junop-Bay Round (BJB) pipeline. In addition, Texas Gas proposed to abandon by removal two platforms including associated risers, piping, and appurtenances, appurtenant rock and concrete, two meters, and timber bulkheads and bulkhead signs at 33 locations along the pipeline right-of-way. The facilities are located approximately 22.1 miles southwest of Houma, Louisiana, extending offshore in Terrebonne Parish, Louisiana, as part of Texas Gas’ Southeast Supply Lateral.²

On June 5, 2019, Texas Gas filed a request for an extension of time, until December 1, 2020, to complete abandonment activities, so as to continue ongoing landowner negotiations and to obtain the necessary environmental permits within the appropriate construction season. On June 10, 2019, the Commission granted an extension of time for one year, until and including June 26, 2020, to complete the abandonment activities.³

On May 26, 2020, Texas Gas filed a request for a further one-year extension of time, to June 26, 2021, to complete abandonment activities. Texas Gas stated that this extension of time would allow Texas Gas to complete ongoing

landowner negotiations and to obtain the necessary environmental permits for the project. The Commission granted that extension of time on June 17, 2020.⁴

On April 12, 2021, Texas Gas filed another request for extension of time for an additional two years to complete its project originally authorized in the June 26 Order. Texas Gas requested an additional extension of time, until June 26, 2023, to complete abandonment activities authorized in the above referenced docket. Texas Gas stated that the extension was required to complete abandonment activities, continue ongoing landowner/agency negotiations, and to obtain the outstanding Coastal Use Permit to abandon the NLP/BJB pipeline. The Commission granted that extension of time on May 12, 2021.⁵

In this latest filing, Texas Gas now states that they have faced obstacles in securing agreeable terms with agencies and landowners to secure a Coastal Use Permit. Texas Gas also states that new species have been listed by the U.S. Fish and Wildlife Service (USFWS) that may be affected within the proposed project area and will require re-consultation with USFWS. Therefore, Texas Gas is requesting an additional two-year extension to address these issues.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on the applicant's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).⁶

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,⁷ the Commission will aim to issue an order acting on the request

within 45 days.⁸ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁹ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.¹⁰ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.¹¹ The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link.
