SUPPLEMENTARY INFORMATION:

A proposed rule that sets forth NMFS’ proposed regulations to govern requests for determinations of fishery resource disaster assistance was published in the **Federal Register** on January 15, 2009 (74 FR 2467), with a comment period ending date of February 17, 2009. The regulations would establish definitions, and characteristics of commercial fishery failures, fishery resource disasters, serious disruptions affecting future production, and harm incurred by fishermen, as well as requirements for initiating a review by NMFS, and the administrative process it will follow in processing such applications. The intended result of these procedures and requirements is to clarify and interpret the fishery disaster assistance provisions of the Magnuson–Stevens Fishery Conservation and Management Act and the Interjurisdictional Fisheries Act through rulemaking and thereby ensure consistency and facilitate the processing of requests.

After receiving requests to extend the comment period, NMFS has decided to extend it for another 62 days through April 20, 2009. This action extends the comment period for a proposed rule that

the Office of Management and Budget determined to be significant under Executive Order 12866.
