Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 6.0-mile radius of Trego Wakeeney Airport, Wakeeney, KS, to accommodate new standard instrument approach procedures. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an

established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal.

Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

- I. Introduction
- II. Summary of Proposal

- IV. Ordering Paragraphs

I. Introduction

On June 17, 2015, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate an informal rulemaking proceeding to consider changes to analytical principles relating to periodic reports.¹ Proposal Two is attached to the Petition and identifies the proposed analytical method change as a change for a unified International Cost and Revenue Analysis Report (ICRA). *Id.* Attachment at 1. The Postal Service

concurrently filed a nonpublic library reference, along with an application for nonpublic treatment.²

II. Summary of Proposal

The Postal Service proposes replacing the traditional imputed and booked versions of the ICRA report with a single, unified version. Petition, Attachment at 1. The booked version reflects the cost of settlement payments as reported in the Postal Service's financial statements. *Id.* at 1-2. The imputed version reflects the costs of settlement payments estimated from the known settlement rate for each country multiplied by the known units (number of pieces or pounds of mail or both, depending on the formula application for each county). *Id.* at 1. Two versions of the ICRA were previously necessary because of the lag time between actual mail flows and settlement transactions between the Postal Service and foreign postal administrators. *Id.*

The Postal Service, however, explains that the majority of the settlement payment timing delay was eliminated in fiscal year 2012 with the implementation of the Foreign Payment System for inbound revenue. *Id.* at 2. The Postal Service states that this proposal will allow it to report financial results for international mail in a unified ICRA, in a manner consistent with the Revenue, Pieces and Weight report and the Postal Service's financial statements. *Id.* at 2.

The Postal Service states that the impact of this proposal is very small. *Id.* at 3. By way of an example, the Postal Service states that for each of the last three fiscal years, the differences in both total cost and total revenue between the imputed and booked versions have been one percent or less. *Id.* In addition, the Postal Service states that producing a unified ICRA will streamline its production process and reduce the number of items the Commission must review. *Id.* Moreover, the Postal Service explains that a unified ICRA will eliminate the need to distinguish between versions under discussion, thereby avoiding confusion. *Id.*

² Notice of Filing of USPS-RM2015-10/NP1 and Application for Nonpublic Treatment, June 17, 2015 (Notice). The Library Reference is USPS-RM2015-10/NP1—Nonpublic Material Relating to Proposal Two. The Notice incorporates by reference the Application for Non-Public Treatment of Materials contained in Attachment Two to the December 29, 2014 United States Postal Service Fiscal Year 2014 Annual Compliance Report. Notice at 1. See 39 CFR part 3007 for information on access to nonpublic material.

III. Initial Commission Action

The Commission establishes Docket No. RM2015-10 for consideration of matters raised by the Petition. Additional information concerning the Petition may be accessed via the Commission's Web site at <http://www.prc.gov>. Interested persons may submit comments on the Petition and Proposal Two no later than July 30, 2015. Reply comments are due no later than August 10, 2015. Pursuant to 39 U.S.C. 505, Kenneth E. Richardson is designated as officer of the Commission (Public Representative) to represent the interests of the general public in this proceeding.

IV. Ordering Paragraphs

It is ordered:

1. The Commission establishes Docket No. RM2015-10 for consideration of the matters raised by the Petition of the United States Postal Service for the Initiation of a Proceeding to Consider Proposed Changes in Analytical Principles (Proposal Two), filed June 17, 2015.
