

described in paragraph (d)(6)(iii)(B)(3) of this section.

(B) FNS will calculate the standards and caps described in paragraph (d)(6)(iii)(A) of this section annually, with the exception of the standards described in paragraph (d)(6)(iii)(B)(4) of this section. The State agency must review the standards described in paragraphs (d)(6)(iii)(B)(2), (d)(6)(iii)(B)(3), and (d)(6)(iii)(B)(4), annually and make adjustments to reflect changes in costs, rounded to the nearest whole dollar. State agencies must provide the amounts of standards to FNS when they are changed annually and submit methodologies used in developing and updating standards to FNS for approval when the methodologies are developed or changed.

(1) For the HCSUA described in paragraph (d)(6)(iii)(A)(2), standards will be calculated by FNS based on the 80th percentile of low income households' utility costs in the State. FNS will use the best-available utility cost information from national Federal surveys, such as the American Community Survey (ACS) and the Residential Energy Consumption Survey (RECS).

(2) For the LUA described in paragraph (d)(6)(iii)(A)(3), standards will be capped at 70 percent of the State's HCSUA.

(3) For individual utility expenses described in paragraph (d)(6)(iii)(A)(1), standards will be capped at 35 percent of the State's HCSUA, with the exception of the telecommunications standard. The telecommunications standard will have a maximum amount for all States set annually by FNS. The telecommunications standard includes the cost of one telephone, basic internet service, or both.

(4) Standards for Guam and the Virgin Islands may be developed by the State agency for utility costs identified in paragraph (d)(6)(ii)(C).

* * * * *

(D) At initial certification, recertification, and when a household moves, the household may choose between a standard or verified actual utility costs for any allowable expense identified in paragraph (d)(6)(ii)(C) of this section, unless the State agency has opted, with FNS approval, to mandate use of a standard. Households certified for 24 months may also choose to switch between a standard and actual costs at the time of the mandatory interim contact required by § 273.10(f)(1) if the State agency has not mandated use of the standard.

(E) *Option to make standard utility allowances mandatory* (1) A State

agency may mandate use of standard utility allowances for all households with qualifying expenses if the State uses one or more standards that include the costs of heating and cooling and one or more standards approved by FNS that do not include the costs of heating and cooling, and the standards will not result in increased program costs. The prohibition on increasing program costs does not apply to necessary increases to standards resulting from utility cost increases.

(2) If the State agency chooses to mandate use of standard utility allowances, it must use a standard utility allowance that includes heating or cooling costs to residents of public housing units which have central utility meters and which charge the households only for excess heating or cooling costs. The State agency also must not prorate a standard utility allowance that includes heating or cooling costs provided to a household that lives and shares heating or cooling expenses with others.

(3) In a State that chooses this option, households entitled to the standard may not claim actual expenses, even if the expenses are higher than the standard. Households not entitled to the standard may claim actual allowable expenses.

BILLING CODE 3410-30-P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC-2019-0160]

RIN 3150-AK36

List of Approved Spent Fuel Storage Casks: Holtec International HI-STORM 100 Multipurpose Canister Cask System, Certificate of Compliance No. 1014, Amendment No. 14

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its spent fuel storage regulations by revising the Holtec International HI-STORM 100 Multipurpose Canister Cask System listing within the "List of approved spent fuel storage casks" to include Amendment No. 14 to

Certificate of Compliance No. 1014. Amendment No. 14 revises the technical specifications to add new heat loading patterns, reduce the minimum cooling time, allow use of a damaged fuel isolator for storing damaged fuel, and modify the description of vents in overpack. Amendment No. 14 also makes other administrative changes to the technical specifications.

DATES: Submit comments by November 4, 2019. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2019-0160. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Email comments to:* Rulemaking.Comments@nrc.gov. If you do not receive an automatic email reply confirming receipt, then contact us at 301-415-1677.

- *Fax comments to:* Secretary, U.S. Nuclear Regulatory Commission at 301-415-1101.

- *Mail comments to:* Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Rulemakings and Adjudications Staff.

- *Hand deliver comments to:* 11555 Rockville Pike, Rockville, Maryland 20852, between 7:30 a.m. and 4:15 p.m. (Eastern Time) Federal workdays; telephone: 301-415-1677.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Yen-Ju Chen, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-1018; email: Yen-Ju.Chen@nrc.gov or Torre Taylor, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-7900; email: Torre.Taylor@nrc.gov. Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

- IV. Plain Writing
- V. Availability of Documents

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2019–0160 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website*: Go to <https://www.regulations.gov> and search for Docket ID NRC–2019–0160.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the “Availability of Documents” section.

- *NRC's PDR*: You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2019–0160 in your comment submission. The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Rulemaking Procedure

Because the NRC considers this action to be non-controversial, the NRC is publishing this proposed rule concurrently with a direct final rule in the Rules and Regulations section of this issue of the **Federal Register**. The direct final rule will become effective on December 17, 2019. However, if the NRC receives significant adverse comments on this proposed rule by November 4, 2019, then the NRC will publish a document that withdraws the direct final rule. If the direct final rule is withdrawn, the NRC will address the comments received in response to these proposed revisions in a subsequent final rule. Absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action in the event the direct final rule is withdrawn.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC to make a change (other than editorial) to the rule, certificate of compliance, or technical specifications.

For procedural information and the regulatory analysis, see the direct final rule published in the Rules and Regulations section of this issue of the **Federal Register**.

III. Background

Section 218(a) of the Nuclear Waste Policy Act of 1982, as amended, requires that “[t]he Secretary [of the

Department of Energy] shall establish a demonstration program, in cooperation with the private sector, for the dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the [Nuclear Regulatory] Commission may, by rule, approve for use at the sites of civilian nuclear power reactors without, to the maximum extent practicable, the need for additional site-specific approvals by the Commission.” Section 133 of the Nuclear Waste Policy Act states, in part, that “[the Commission] shall, by rule, establish procedures for the licensing of any technology approved by the Commission under section 219(a) [sic: 218(a)] for use at the site of any civilian nuclear power reactor.”

To implement this mandate, the Commission approved dry storage of spent nuclear fuel in NRC-approved casks under a general license by publishing a final rule which added a new subpart K in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR) entitled “General License for Storage of Spent Fuel at Power Reactor Sites” (55 FR 29181; July 18, 1990). This rule also established a new subpart L in 10 CFR part 72 entitled “Approval of Spent Fuel Storage Casks,” which contains procedures and criteria for obtaining NRC approval of spent fuel storage cask designs. The NRC subsequently issued a final rule on May 1, 2000, that approved the HI–STORM 100 Cask System design and added it to the list of NRC-approved cask designs in § 72.214 as Certificate of Compliance No. 1014 (65 FR 25241).

IV. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, “Plain Language in Government Writing,” published June 10, 1998 (63 FR 31885). The NRC requests comment on the proposed rule with respect to the clarity and effectiveness of the language used.

V. Availability of Documents

The documents identified in the following table are available to interested persons through the following method.

Document	ADAMS accession No.
Letter from Holtec International Transmitting Request for Amendment No. 14 to Certificate of Compliance No. 1014, October 31, 2018.	ML18331A052

DEPARTMENT OF ENERGY

10 CFR Parts 429 and 430

[EERE-2014-BT-TP-0034]

RIN 1904-AD46

Energy Conservation Program: Test Procedures for Clothes Dryers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: On July 23, 2019, the U.S. Department of Energy ("DOE") published in the **Federal Register** a notice of proposed rulemaking ("NOPR") regarding proposals to amend the test procedures for clothes dryers and to request comment on the proposals and other aspects of clothes dryer testing. This notice also announced a webinar to be held on August 14, 2019, and stated that DOE would hold a public meeting on the proposal if one was requested by August 6, 2019. On July 29, 2019, DOE received a comment requesting a public meeting.

DATES: The comment period for the NOPR published on July 23, 2019 (84 FR 35484), is extended. DOE will accept comments, data, and information regarding this proposed rulemaking received no later than November 6, 2019.

ADDRESSES: Interested persons are encouraged to submit comments using the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the instructions for submitting comments. Alternatively, interested persons may submit comments, identified by "Test Procedure NOPR for Clothes Dryers" and by docket number EERE-2014-BT-TP-0034 and/or the regulatory information number ("RIN") 1904-AD46, by any of the following methods:

(1) *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

(2) *Email:* ResClothesDryer2014TP0034@ee.doe.gov. Include the docket number EERE-2014-BT-TP-0034 and/or RIN 1904-AD46 in the subject line of the message.

(3) *Postal Mail:* Appliance and Equipment Standards Program, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW, Washington, DC 20585-0121. Telephone: (202) 287-1445. If possible, please submit all items on a compact disc ("CD"), in which case it is not necessary to include printed copies.

(4) *Hand Delivery/Courier:* Appliance and Equipment Standards Program, U.S. Department of Energy, Building Technologies Office, 950 L'Enfant Plaza SW, 6th Floor, Washington, DC 20024. Telephone: (202) 287-1445. If possible, please submit all items on a CD, in
