

essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: 5900–522.

Respondents/affected entities: Municipal solid waste (MSW) landfills.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart AAAA).

Estimated number of respondents: 1,169 (total).

Frequency of response: Annual, semi-annual.

Total estimated burden: 35,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,290,000 (per year), includes \$11,100 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a small decrease in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to several considerations. The regulations have been amended in the past three years. The March 26, 2020 amendments revised NESHAP Subpart AAAA, NSPS Subpart XXX and EG Subpart Cf to allow affected sources to demonstrate compliance with landfill gas control, operating, monitoring, recordkeeping, and reporting requirements by following the corresponding requirements in the MSW Landfills NESHAP, harmonizing the control requirements across all of the landfill rules. The 2020 amendments removed the SSM requirements from Subpart AAAA, resulting in a decrease in labor burden. The 2020 amendments added a new semiannual wet landfill monitoring report requirement, resulting in an increase in burden. Since the 2020 amendments also added an annual wet landfill monitoring report requirement to Subparts Cf and XXX, the additional burden to Subpart AAAA sources for this report consists of one additional report per year. The growth rate for this industry is low (two new landfills per year), resulting in a small increase in burden. There are no changes in the capital/startup or operation and maintenance (O&M) costs. The labor burden for re-familiarizing with the regulatory requirements each year was increased from 1 hour to 5 hours, so that the labor burden for this requirement is consistent with that of other NESHAPs. These changes resulted in a small decrease in labor burden (hours), and a small increase in labor costs, resulting

in a small increase in costs from the previous ICR.

Director, Regulatory Support Division.

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0283; Docket No. 2022–0001; Sequence No. 4]

Submission for OMB Review; Contractor Information Worksheet; GSA Form 850

AGENCY: Identity, Credential, and Access Management (ICAM) Division, Office of Security, Office of Mission Assurance (OMA), General Services Administration (GSA).

ACTION: Notice of request for comments regarding an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division will be submitting to the Office of Management and Budget (OMB) a request to review and approve a previously approved information collection requirement, with changes, expanding the coverage of the information collection of the Contractor Information Worksheet; GSA Form 850. GSA requires OMB approval for this collection to make determinations on granting unescorted physical access to GSA-controlled facilities and/or logical access to GSA-controlled information systems. The approval is critical for GSA to continue following contractor onboarding processes required for working on GSA contracts.

DATES: Submit comments on or before August 29, 2022.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments”; or by using the search function.

FOR FURTHER INFORMATION CONTACT: Mr. Phil Ahn, Deputy Director, OMA

Identity Credential and Access Management Division, GSA, telephone 202–501–2447 or via email at phillip.ahn@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

The U.S. Government conducts criminal checks to establish that applicants or incumbents working for the Government under contract may have unescorted access to federally controlled facilities. GSA uses the Contractor Information Worksheet; GSA Form 850, and digitally captured fingerprints to conduct an FBI National Criminal Information Check (NCIC) for each contractor's physical access determination to GSA-controlled facilities and/or logical access to GSA-controlled information systems. Manual fingerprint card SF–87 is used for exception cases such as contractor's significant geographical distance from fingerprint enrollment sites.

The Office of Management and Budget (OMB) Guidance M–05–24 for Homeland Security Presidential Directive (HSPD) 12, authorizes Federal departments and agencies to ensure that contractors have limited/controlled access to facilities and information systems. GSA Directive CIO P 2181.1 Homeland Security Presidential Directive-12, Personal Identity Verification and Credentialing (available at <http://www.gsa.gov/hspd12>), states that GSA contractors must undergo a minimum of an FBI National Criminal Information Check (NCIC) to receive unescorted physical access to GSA-controlled facilities and/or logical access to GSA-controlled information systems.

Contractors' Social Security Number is needed to keep records accurate, because other people may have the same name and birth date. Executive Order 9397, Numbering System for Federal Accounts Relating to Individual Persons, also allows Federal agencies to use this number to help identify individuals in agency records.
