

Burden Hours: 41,667 hours annually.
Needs and Uses: The U.S. Census Bureau is committed to conducting research towards census and survey operations that costs less while maintaining high quality results. The Census Bureau requests an extension, without change, of our previous OMB approval to conduct a series of studies to research and evaluate how to improve data collection activities for data collection programs at the Census Bureau. These studies will explore how the Census Bureau can improve efficiency, data quality, and response rates and reduce respondent burden in future census and survey operations, evaluations and experiments. This research program is for respondent communication, questionnaire and procedure development and evaluation purposes. We will use data tabulations to evaluate the results of questionnaire testing.

Affected Public: Individuals or households, businesses or other for profit, farms.

Frequency: Once.

Respondent's Obligation: Voluntary or Mandatory, depending on cited authority.

Legal Authority: Data collection for this project is authorized under the authorizing legislation for the questionnaire being tested. This may be Title 13, Sections 131, 141, 161, 181, 182, 193, and 301 for Census Bureau sponsored surveys, and Title 13 and 15 for surveys sponsored by other Federal agencies. We do not now know what other titles will be referenced, since we do not know what survey questionnaires will be pretested during the course of the clearance.
