DATES: This closure will be in effect from October 1, 2002, to September 30, 2003, unless superseded by permanent rulemaking action.

Discussion of the Emergency Closure: This emergency closure is necessary for the management of actions, activities, and public use on certain public lands which may have, or are having, adverse impacts on persons using public lands, on property, and on resources located on public lands until permanent management action can be taken. Increasing levels of public use are creating conflicts between different user groups. The subject lands are utilized for recreational hiking, horseback riding, mountain biking, off-highway vehicle use, wildlife observation, hunting, and target shooting.

While hikers, horseback riders, mountain bicyclists and other users can schedule their use around published hunting seasons for safety reasons, they are not able to avoid random target shooting. Local conditions including heavy timber and rough terrain reduce visibility and increase the hazard to other users from target shooters. Recent incidents involving random target shooting have resulted in endangerment and injury to other users. In addition, resource damage is occurring from the accumulation of debris from target materials. To reduce the incidence of future conflicts, three areas of public land known as the Acton Area, 21-Mile Area, and Shepherd Ah-Nei, located north of Billings, Montana are being closed to target shooting with firearms. These areas will remain open to hunting by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

This emergency closure does not apply to other lands, specifically the "17-Mile" area located west of Highway 87, north of Billings, Montana, on the Crooked Creek Road.

SUPPLEMENTARY INFORMATION: Under the authority of 43 CFR 9268.3(d)(1)(i) and 43 CFR 8364.1(a) the Bureau of Land Management will enforce the following emergency closure on public lands within the closed area.

Emergency Closure

1.0 Emergency Closure of Certain Public Lands to Target Shooting.

(2.0) Exceptions:

(a) This regulation does not apply to the hunting of lawful game by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

(c) This regulation does not apply to special target shooting events, which may be authorized by the authorized officer under special permit.

Penalties: The authority for this closure is found under section 303(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C 1733 (a) and 43 CFR 9268.3(e)(2), 43 CFR 8360.0-7, and 43 CFR 8365.1-6. Violations of this regulation are punishable by a fine in accordance with the Sentencing Reform Act of 1984 (18 U.S.C. 3551 *et seq.*), and/or imprisonment not to exceed 12 months for each offense.

Title: 30 CFR 206, Subpart B, Indian Oil (Form MMS-4416, Indian Crude Oil Valuation Report).

OMB Control Number: 1010-0113.

Bureau Form Number: Form MMS-4416.

Abstract: The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. The Secretary has an Indian trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. MMS performs the royalty management functions and assists the Secretary in carrying out DOI's Indian trust responsibility.

Section 101(a) of the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA), as amended, requires the Secretary to "establish a comprehensive inspection, collection, and fiscal and production accounting and auditing system to provide the capability to accurately determine oil and gas royalties, interest, fines, penalties, fees, deposits, and other payments owed, and collect and account for such amounts in a timely manner." To accomplish these tasks more effectively, MMS published a proposed rule in the **Federal Register** on February 12, 1998 (63 FR 7089) and a supplementary proposed rule on
