

directorate, or any unique identifying number assigned to the request, if applicable.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records will be held in accordance with National Archives and Records Administration, General Records Schedule 2.3, Employee Relations Records, item 20, Reasonable accommodation case files. These records include individual employee files created, received, and maintained by reasonable accommodation, diversity/disability programs, employee relations coordinators, supervisors, administrators, or Human Resource specialists containing records of requests for reasonable accommodation and/or assistive technology devices and services that have been requested for or by an employee. This includes requests, approvals and denials, notice of procedures for informal dispute resolution or appeal processes, forms, correspondence, records of oral conversations, policy guidance documents, medical records, supporting notes, and documentation. These records are temporary and will be destroyed three (3) years after employee separation from the agency or all appeals are concluded, whichever is later. However, longer retention is authorized if required for business use.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. DHS has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Component Privacy Officer and Component Freedom of Information Act (FOIA) Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "Contact Information." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to

the Chief Privacy Officer and Chief Freedom of Information Act Officer, Department of Homeland Security, Washington, DC 20528-0655, or electronically at <https://www.dhs.gov/dhs-foia-privacy-act-request-submission-form>. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, certain records about the individual be available under the Freedom of Information Act.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. An individual may obtain more information about this process at <http://www.dhs.gov/foia>. In addition, the individual should, whenever possible:

- Explain why he or she believes the Department would have information being requested;
- Identify which component(s) of the Department he or she believes may have the information;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If the request is seeking records pertaining to another living individual, the request must include an authorization from the individual whose record is being requested, authorizing the release to the requester.

Without the above information, DHS may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

For records covered by the Privacy Act or covered Judicial Redress Act records, individuals may make a request for amendment or correction of a record of the Department about the individual by writing directly to the Department component that maintains the record, unless the record is not subject to amendment or correction. The request should identify each particular record in

question, state the amendment or correction desired, and state why the individual believes that the record is not accurate, relevant, timely, or complete. The individual may submit any documentation that would be helpful. If the individual believes that the same record is in more than one system of records, the request should state that and be addressed to each component that maintains a system of records containing the record.

NOTIFICATION PROCEDURES:

See "Record Access Procedures" above.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
