

Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; main telephone number: (202) 566-1430; email address: Hawkins.caleb@epa.gov.

SUPPLEMENTARY INFORMATION: To give stakeholders additional time to review materials and prepare comments, EPA is hereby extending the comment period established in the **Federal Register** document of November 24, 2023, at 88 FR 82286 (FRL-11111-01-OCSP) from January 23, 2024, to March 25, 2024. More information on the action can be found in the **Federal Register** of November 24, 2023.

To submit comments or access the docket, please follow the detailed instructions provided under **ADDRESSES**. If you have questions, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 7 U.S.C. 136 *et seq.*

Dated: January 8, 2024.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2014-0128; FRL-5788-04-OAR]

Release of Policy Assessment for the Review of the Secondary National Ambient Air Quality Standards for Oxides of Nitrogen, Oxides of Sulfur and Particulate Matter

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: On or about January 12, 2024, the Environmental Protection Agency (EPA) will make available the document, *Policy Assessment for the Review of the Secondary National Ambient Air Quality Standards for Oxides of Nitrogen, Oxides of Sulfur and Particulate Matter* (PA, EPA-452/R-24-003). This document was prepared as part of the current review of the secondary national ambient air quality standards (NAAQS) for Oxides of Nitrogen (NO_x), Oxides of Sulfur (SO_x), and Particulate Matter (PM). The PA serves to “bridge the gap” between the currently available scientific and technical information and the judgments required of the Administrator in determining whether to retain or revise the existing secondary NO₂, SO₂ and PM NAAQS. The secondary NAAQS for oxides of nitrogen, oxides of

sulfur, and particulate matter are set to protect the public welfare from known or anticipated effects of these pollutants in the ambient air.

DATES: This document will be available on or about January 12, 2024.

ADDRESSES: This document will be available on the EPA’s website at <https://www.epa.gov/naaqs/nitrogen-dioxide-no2-and-sulfur-dioxide-so2-secondary-air-quality-standards>. The document will be accessible under “Policy Assessments” from the current review.

FOR FURTHER INFORMATION CONTACT: Ginger Tennant, Office of Air Quality Planning and Standards, (Mail Code C504-06), U.S. Environmental Protection Agency, P.O. Box 12055, Research Triangle Park, NC 27711; telephone number: 919-541-4072, or email: tennant.ginger@epa.gov.

SUPPLEMENTARY INFORMATION: Two sections of the Clean Air Act (CAA or the Act) govern the establishment and revision of the NAAQS. Section 108 directs the Administrator to identify and list certain air pollutants and then issue “air quality criteria” for those pollutants. The air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of such pollutant in the ambient air . . .” (CAA section 108(a)(2)). Under section 109 of the Act, the EPA is then to establish primary (health-based) and secondary (welfare-based) NAAQS for each pollutant for which the EPA has issued air quality criteria. Section 109(d)(1) of the Act requires periodic review and, if appropriate, revision of existing air quality criteria. Revised air quality criteria are to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. Under the same provision, the EPA is also to periodically review and, if appropriate, revise the NAAQS, based on the revised air quality criteria.

The Act additionally requires appointment of an independent scientific review committee that is to periodically review the existing air quality criteria and NAAQS and to recommend any new standards and revisions of existing criteria and standards as may be appropriate (CAA section 109(d)(2)(A)–(B)). Since the early 1980s, the requirement for an independent scientific review committee has been fulfilled by the Clean Air Scientific Advisory Committee (CASAC).

The EPA’s overall plan for this review is presented in the Integrated Review

Plan for the Secondary National Ambient Air Quality Standards for Ecological Effects of Oxides of Nitrogen, Oxides of Sulfur and Particulate Matter (IRP).¹ As described in the IRP, the EPA has prepared the *Integrated Science Assessment (ISA) for Oxides of Nitrogen, Oxides of Sulfur and Particulate Matter Ecological Criteria* (U.S. EPA, 2020), drafts of which were released in March 2017 and June 2018 for public comment and review by the CASAC.² A draft of the PA was also reviewed by the CASAC (88 FR 17572, March 23, 2023; 88 FR 45414, July 17, 2023). The final PA reflects consideration of the advice and comments from the CASAC on the draft PA, as well as public comments. The PA serves to “bridge the gap” between the scientific and technical information in the 2020 ISA and any air quality, exposure, and risk analyses available in this review, and the judgments required of the Administrator in determining whether to retain or revise the existing secondary ambient air quality standards for NO₂, SO₂ and PM. The final PA document will be available on EPA’s website at <https://www.epa.gov/naaqs/nitrogen-dioxide-no2-and-sulfur-dioxide-so2-secondary-air-quality-standards>. The document briefly described here does not represent and should not be construed to represent any final EPA policy, viewpoint, or determination.

Dated: January 3, 2024.

Erika N. Sasser,

Director, Health and Environmental Impacts Division.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0952; FR ID 196204]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal

¹ The IRP is available at <https://www.epa.gov/naaqs/nitrogen-dioxide-no2-and-sulfur-dioxide-so2-secondary-standards-planning-documents-current>.

² The ISA is available at: <https://www.epa.gov/naaqs/nitrogen-dioxide-no2-and-sulfur-dioxide-so2-secondary-air-quality-standards-integrated>.

Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before March 12, 2024. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0952.

Title: Proposed Demographic Information and Notifications, Second Further Notice of Proposed Rulemaking (FNPRM), CC Docket No. 98-147 and Fifth NPRM (NPRM), CC Docket No. 96-98.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 589 respondents; 1,178 responses.

Frequency of Response: On occasion reporting requirements and third party disclosure requirement.

Estimated Time per Response: 2 hours.

Total Annual Burden: 2,356 hours.

Total Annual Cost: No cost.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151-154, 201, 202, 251-254, 256 and 271 of the Communications Act of 1934, as amended.

Needs and Uses: The Commission asked whether physical collocation in remote terminals presents technical or security concerns, and if so, whether these concerns warrant modification of its collocation rules. The Commission asked whether incumbent LECs should be required to provide requesting carriers with demographic and other information regarding particular remote terminals similar to the information available regarding incumbent LEC central offices. Requesting carriers use demographic and other information obtained from incumbent LECs to determine whether they wish to collocate at particular remote terminals. This proposed information collection in the Second Further Notice of Proposed Rulemaking, FCC 98-147, will be used by the Commission, state commissions, and competitive carriers to facilitate the deployment of advanced services and other telecommunications services in implementation of section 251(c)(6) of the Communications Act of 1934, as amended. The number of respondents, annual responses, and annual burden hours have decreased due to a decrease in the current total number of active incumbent local exchange carriers who may have to respond to this information collection. This decrease in the number of respondents accounts for a concomitant reduction in both total annual responses and total annual burden hours. There are no program changes to this information collection.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1272; FR ID 196129]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as

required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before March 12, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1272.

Title: 3.7 GHz Band Space Station Operator Accelerated Relocation Elections and Transition Plans; 3.7 GHz Band Earth Station Lump Sum Payment Elections.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Estimated Number of Respondents and Responses: 3,010 respondents and 3,010 responses.

Estimated Time per Response: 16 hours per response for accelerated relocation elections, 2,720 hours per response for transition plans, and 32
