Under that permit, Quark Expeditions is permitted to conduct waste management associated with the operation and activities of multiple tour vessels in the Antarctic Peninsula region. Activities including shore excursions by Zodiac, kayaking, day paddling, stand-up paddle boarding, polar plunges, cross-country skiing, ice climbing and mountaineering, downhill skiing, and vessel-supported short overnight stays (camping) may be conducted on selected voyages. The permit holder may also operate a small, battery-operated remotely piloted aircraft system (RPAS) consisting, in part, of a quadcopter equipped with a camera to collect footage for commercial and educational purposes. The permit expires March 31, 2022.

On August 27, 2019 (revised November 3, 2019), Quark Expeditions provided NSF an update based on activities planned for the 2019-2020 field season. The activities are the same or similar as those detailed in the original permit. Allison Kean now holds the position of Operations Manager and is the primary contact for the permit holder. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Activities to be conducted by Quixote include: passenger landings, hiking, photography, wildlife viewing, and possible station visits.

A recent modification to this permit, dated November 22, 2017, permitted coastal camping activities in select locations and resupply of fresh food to the Quixote Expeditions vessel as part of fly/cruise operations. Another modification, dated November 6, 2018, allowed the permit holder to add a second vessel to support Quixote Expeditions activities, to conduct ship-to-ship fuel transfers, to release comminuted food waste (excepting poultry) at sea, and to operate a remotely piloted aircraft for educational and commercial purposes.

On October 3, 2019, the permit holder submitted an update of provided NSF an update based on activities planned for the 2019–2020 field season. Quixote's activities are similar as those detailed in the original permit and earlier modifications, excepting the support of different research projects.
