I. General Information

A. Does this Action Apply to Me?

This supplemental notice of data availability and request for comment is directed to the public in general. It may, however, be of particular interest to you if you register, distribute, apply, or manage the application of a pesticide that contains optically active isomeric active ingredients and, in particular, a product enriched for one (usually more pesticidally active) optical isomer. In addition, persons commenting on the Ground Water and Pesticide Management Plan proposal (61 FR 33260, June 26, 1996) (FRL-4981-9) may be particularly interested in some or all of these data. Since others may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed in the **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.

3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the proposed rule or collection activity.
7. Make sure to submit your comments by the deadline in this proposed rule extension.
8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. Background

A. What Action is EPA Taking?

EPA is providing supplemental information on S-metolachlor and is extending the comment period for 30 days.

B. What Additional Data is EPA Making Available for Comment?

1. Novartis Study No. 381-97, in response to EPA Review of CGA-77102 Ecological Toxicology Studies, June 11, 1997.

2. Novartis Study No. 314-97, in response to EPA Review of CGA-77102/Metolachlor Environmental Fate Studies, June 6, 1997.

C. Why is EPA Seeking Comment on This Additional Data?

Three commenters requested an extension of the comment period. Of these, one commenter to the February 23, 2000, Notice of Availability and Request for Comment argued that additional information on S-metolachlor it had provided to EPA also warranted public comment. EPA is noticing that here.

III. Do Any Regulatory Assessment Requirements Apply to this Action?

No. This action is not a rule, it merely announces the availability of and requests comments on supplemental information related to a previous Notice (65 FR 8925, February 23, 2000) and extends the date by which public comments must be submitted to EPA. This information is related to, among other things, a proposed rule that previously published in the **Federal Register** of June 26, 1996 (61 FR 33260). For information about the applicability of the regulatory assessment requirements to that proposed rule, which published in the **Federal Register**, please refer to the discussion in Unit VIII of that document.
