

The primary purpose of data collected under this generic ICR is not for publication. However, because the formative data collection efforts are intended to inform SBA's decision-making related to evidence-building and programmatic activities, the findings may be incorporated into documents and presentations available to the public. Such documents may include design and method documents, process or journey maps, conceptual frameworks or logic models, background materials for technical workgroups, informational presentations, technical assistance plans, and evaluation or research reports. Shared findings will include a discussion of the limitations regarding generalizability and intended use, and when necessary, results will be labeled as formative or exploratory.
