System: Enterprise Correspondence Tracking System (ECT).

Component: Department Wide.

Date of approval: December 3, 2007.

The Executive Secretariat of DHS operates the Enterprise Correspondence Tracking (ECT) system. The ECT is a correspondence workflow management system that assists DHS in responding to inquiries from the public, other government agencies, and the private sector. Tens of thousands of pieces of correspondence ranging from official rulings, policy statements, testimony, or even thank you letters are processed annually by DHS. The Executive Secretariat conducted this privacy impact assessment because the ECT collects and uses PII.

System: DHSAccessGate System.

Component: Management.

Date of approval: December 3, 2007.

DHS added a new layer of security to its vendor employee access control procedures at certain facilities by offering a new and voluntary vendor program called the DHSAccessGate Program.
