Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To List the Summer-Run Kokanee Population in Issaquah Creek, WA, as Threatened or Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding on a petition to list the summer-run Issaquah Creek kokanee (*Oncorhynchus nerka*) as threatened or endangered under the Endangered Species Act of 1973, as amended (Act). We find that the petition does not present substantial scientific or commercial information indicating that the summer-run Issaquah Creek kokanee may represent a distinct population segment, and therefore a listable entity, under section 3(16) of the Act. Therefore, we will not be initiating a further status review in response to this petition.
