

Ford inflators compared favorably to another inflator variant of the same type, and even to non-desiccated inflators. These comparisons do not suffice for an inconsequentiality determination. Relatedly, Ford's argument regarding design differences does not suffice to support an inconsequentiality determination. This argument, furthermore, was not persuasively connected to meaningful improved performance in generate-properties and pressure differences (and even if it had been, the covered Nissan inflators are not an appropriate proxy standard for inconsequentiality). The sample sizes used for the analyses were also limited, and there are shortcomings regarding various analyses that undermine their conclusions—including some information was missing or unclear.

As a general matter, signs of aging were observed in the covered Ford inflators, which leads to propellant degradation, which leads to inflator rupture—and the 2004 propellant that is present in the covered Ford inflators degrades until, at some point, it no longer burns normally, but in an accelerated and unpredictable manner that can cause an inflator rupture. Perhaps most importantly, even with the limited testing evidence available, ballistic testing of field returns of the covered Ford inflators includes three inflator deployments with primary-chamber pressures between 60 and 70 MPa—coming from two ZQ inflators with a field age between 12 and 13 years (one of which exhibited a pressure of 68 MPa), and one ZN inflator with a field age between 10 and 11 years. Data from the MEAF also appears to indicate the beginning stages of density changes in propellant tablets in the covered Ford inflators with increasing field age. These results from real-world field returns signal that propellant degradation in the covered Ford inflators is occurring, and belie the probability-of-failure projections that Ford provides (which have their own additional shortcomings that lead to an understatement of the potential risk).

Given the severity of the consequence of propellant degradation in these air bag inflators—the rupture of the inflator and metal shrapnel sprayed at vehicle occupants—a finding of inconsequentiality to safety demands extraordinarily robust and persuasive evidence. What Ford presents here, while valuable and informative in certain respects, suffers from far too many shortcomings, both when the evidence is assessed individually and in its totality, to demonstrate that the defect in covered Ford inflators is not

important or can otherwise be ignored as a matter of safety.

In consideration of the forgoing, NHTSA has decided Ford has not demonstrated that the defect is inconsequential to motor vehicle safety. Accordingly, Ford's Petition is hereby denied, and Ford is obligated to provide notification of, and a remedy for, the defect pursuant to 49 U.S.C. 30118 and 30120. Within 30 days of the issuance of this decision, Ford shall submit to NHTSA a proposed schedule for the notification of vehicle owners and the launch of a remedy required to fulfill those obligations.

Authority: 49 U.S.C. 30101, *et seq.*, 30118, 30120(h), 30162, 30166(b)(1), 30166(g)(1); delegation of authority at 49 CFR 1.95(a); 49 CFR parts 556, 573, 577.

Jeffrey Mark Giuseppe,

Associate Administrator for Enforcement.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2020-0008]

Pipeline Safety: Request for Special Permit; El Paso Natural Gas Company, L.L.C.

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA); DOT.

ACTION: Notice.

SUMMARY: PHMSA is publishing this notice to solicit public comments on a request for special permit received from the El Paso Natural Gas Company, L.L.C. (EPNG). The special permit request is seeking relief from compliance with certain requirements in the Federal pipeline safety regulations. At the conclusion of the 30-day comment period, PHMSA will review the comments received from this notice as part of its evaluation to grant or deny the special permit request.

DATES: Submit any comments regarding this special permit request by February 24, 2021.

ADDRESSES: Comments should reference the docket number for this specific special permit request and may be submitted in the following ways:

- *E-Gov Website:* <http://www.Regulations.gov>. This site allows the public to enter comments on any Federal Register notice issued by any agency.
- *Fax:* 1-202-493-2251.

- *Mail:* Docket Management System: U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590.

- *Hand Delivery:* Docket Management System: U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays.

Instructions: You should identify the docket number for the special permit request you are commenting on at the beginning of your comments. If you submit your comments by mail, please submit two (2) copies. To receive confirmation that PHMSA has received your comments, please include a self-addressed stamped postcard. Internet users may submit comments at <http://www.Regulations.gov>.

Note: There is a privacy statement published on <http://www.Regulations.gov>. Comments, including any personal information provided, are posted without changes or edits to <http://www.Regulations.gov>.

Confidential Business Information: Confidential Business Information (CBI) is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this notice contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this notice, it is important that you clearly designate the submitted comments as CBI. Pursuant to 49 Code of Federal Regulations (CFR) § 190.343, you may ask PHMSA to give confidential treatment to information you give to the agency by taking the following steps: (1) Mark each page of the original document submission containing CBI as "Confidential"; (2) send PHMSA, along with the original document, a second copy of the original document with the CBI deleted; and (3) explain why the information you are submitting is CBI. Unless you are notified otherwise, PHMSA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this notice. Submissions containing CBI should be sent to Kay McIver, DOT, PHMSA-PHP-80, 1200 New Jersey Avenue SE, Washington, DC 20590-0001. Any commentary PHMSA receives that is not

specifically designated as CBI will be placed in the public docket for this matter.

FOR FURTHER INFORMATION CONTACT:

General: Ms. Kay McIver by telephone at 202–366–0113, or by email at kay.mciver@dot.gov.

Technical: Mr. Steve Nanney by telephone at 713–272–2855, or by email at steve.nanney@dot.gov.

SUPPLEMENTARY INFORMATION: PHMSA received a special permit request from EPNG seeking a waiver from the requirements of 49 CFR 192.611(a) and (d): Change in class location: Confirmation or revision of maximum allowable operating pressure, and § 192.619(a): Maximum allowable operating pressure: Steel or plastic pipelines. This special permit is being requested in lieu of pipe replacement or pressure reduction for one (1) special permit segment of 650 feet (0.123 miles) on the EPNG pipeline system. The proposed special permit segment is located in Ward County, Texas. The EPNG pipeline class location in the special permit segment has changed from a Class 2 to a Class 3 location. The EPNG pipeline special permit segment is a 30-inch diameter pipeline with an existing maximum allowable operating pressure of 944 pounds per square inch gauge. The installation of the special permit segment occurred in 2003.

The special permit request, proposed special permit with conditions, and Draft Environmental Assessment (DEA) for the EPNG pipeline are available for review and public comment in Docket No. PHMSA–2020–0008. We invite interested persons to review and submit comments on the special permit request and DEA in the docket. Please include any comments on potential safety and environmental impacts that may result if the special permit is granted. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comment closing date. Comments received after the closing date will be evaluated, if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, DC, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.

BILLING CODE 4910–60–P

DEPARTMENT OF THE TREASURY

Financial Crimes Enforcement Network

Agency Information Collection Activities; Proposed Renewal; Comment Request; Renewal Without Change of Transactions of Exempt Persons Regulations, and FinCEN Report 110, Designation of Exempt Person Report

AGENCY: Financial Crimes Enforcement Network (FinCEN), Treasury.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork and respondent burden, FinCEN invites comments on the proposed renewal, without change, of a currently approved information collection found in existing Bank Secrecy Act regulations. Specifically, the regulations permit banks to file a FinCEN Report 110, Designation of Exempt Person (“DOEP Report”), to designate eligible customers as exempt persons, such that a bank is not required to file a report with respect to any transaction in currency over \$10,000 with such customers. Under the regulations, a bank, to exempt a person, must also take steps to ensure that a person meets the requirements for an exemption, document the basis for the bank’s initial conclusion that a person is exempt, annually review the eligibility of certain exempt persons, document compliance with the DOEP Report requirements, and maintain a monitoring system that is reasonably designed to detect, for each account of a non-listed business or payroll customer, transactions in currency requiring a bank to file a suspicious transaction report. Although no changes are proposed to the information collection itself, this request for comments covers a future expansion of the scope of the annual hourly burden and cost estimate associated with these regulations. This request for comments is made pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments are welcome, and must be received on or before March 26, 2021.

ADDRESSES: Comments may be submitted by any of the following methods:

- *Federal E-rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments. Refer to Docket Number FINCEN–2020–0018 and the specific Office of Management and Budget (OMB) control number 1506–0012.

- *Mail:* Policy Division, Financial Crimes Enforcement Network, P.O. Box 39, Vienna, VA 22183. Refer to Docket Number FINCEN–2020–0018 and OMB control number 1506–0012.

Please submit comments by one method only. Comments will also be taken into account in FinCEN’s review of existing regulations, consistent with Treasury’s 2011 Plan for Retrospective Analysis of Existing Rules. All comments submitted in response to this notice will become a matter of public record. Therefore, you should submit only information that you wish to make publicly available.

FOR FURTHER INFORMATION CONTACT: The FinCEN Regulatory Support Section at 1–800–767–2825 or electronically at frc@fincen.gov.

SUPPLEMENTARY INFORMATION:

I. Statutory and Regulatory Provisions

The legislative framework generally referred to as the Bank Secrecy Act (BSA) consists of the Currency and Financial Transactions Reporting Act of 1970, as amended by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA PATRIOT Act) (Pub. L. 107–56) and other legislation. The BSA is codified at 12 U.S.C. 1829b, 12 U.S.C. 1951–1959, 31 U.S.C. 5311–5314 and 5316–5332, and notes thereto, with implementing regulations at 31 CFR Chapter X.

The BSA authorizes the Secretary of the Treasury, *inter alia*, to require financial institutions to keep records and file reports that are determined to have a high degree of usefulness in criminal, tax, and regulatory matters, or in the conduct of intelligence or counter-intelligence activities to protect against international terrorism, and to implement anti-money laundering (AML) programs and compliance procedures.¹ Regulations implementing the BSA appear at 31 CFR Chapter X. The authority of the Secretary to administer the BSA has been delegated to the Director of FinCEN.²

The requirement for financial institutions to report certain transactions in currency has been an important component of the BSA from its inception.³ Regulations

¹ Section 358 of the USA PATRIOT Act added language expanding the scope of the BSA to intelligence or counter-intelligence activities to protect against international terrorism. Section 6101 of the Anti-Money Laundering Act of 2020 added language further expanding the scope of the BSA but did not disturb these longstanding purposes.

² Treasury Order 180–01 (re-affirmed Jan. 14, 2020).

³ Public Law 91–508 (Oct. 26, 1970), 84 Stat. 1122.
