### Food and Nutrition Service

*Title:* Supplemental Nutrition Assistance Program Requirement for National Directory of New Hires Employment Verification.

*OMB Control Number:* 0584–0608.

*Summary of Collection:* This collection is a revision of an expired collection at 84 FR 11928. In 2016, an Interim Final Rule titled “Supplemental Nutrition Assistance Program: Requirement for National Directory of New Hires Employment Verification and Annual Program Activity Reporting,” was published in the **Federal Register**. This rule codified section 4013 of the Agricultural Act of 2014, requiring State agencies to access employment data through the National Directory of New Hires (NDNH) at the time of certification, including recertification, to determine eligibility status and correct benefit amount for SNAP applicants. The rule also amended regulations to increase the frequency of the requirement for State agency submission of the Program Activity Statement from an annual requirement based on the State fiscal year to a quarterly requirement.

*Need and Use of the Information:* Supplemental Nutrition Assistance Program (SNAP) regulations at 7 CFR 272.16 require that each State agency must establish a system to compare identifiable information about each adult household member against data from the U.S. Department of Health and Human Services’ (HHS) National Directory of New Hires (NDNH). This comparison will be used to determine the eligibility status of the household and determine the correct benefit amount the household should receive. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate

automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

*Description of Respondents:* State and Local Government, Individuals and Households.

*Number of Respondents:* 1,180,536.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 521,719.
