

Atlantic salmon and a preliminary FONSI for those specific conditions of use. Comments on the draft EA and FONSI will inform FDA's decision whether to require an environmental impact statement (EIS) or finalize the EA and FONSI for this NADA.

The Agency has received a request for a 60-day extension of the comment period for the draft EA and FONSI. The request conveyed concern that the current 60-day comment period does not allow sufficient time to respond.

FDA has considered the request and is extending the comment period for the draft EA and FONSI for 60 days, until April 26, 2013. The Agency believes that a 60-day extension allows adequate time for interested persons to submit comments without significantly delaying the Agency's decision on whether to finalize these documents or prepare an EIS.

II. Request for Comments

Interested persons may submit either electronic comments regarding these documents to <http://www.regulations.gov> or written comments to the Division of Dockets Management (see **ADDRESSES**). It is only necessary to send one set of comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday, and will be posted to the docket at <http://www.regulations.gov>.

Dated: February 11, 2013.
