SUPPLEMENTARY INFORMATION:

Title: Milk and Milk Products Surveys.

OMB Control Number: 0535-0020.

Expiration Date of Approval: December 31, 2008.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production. The Milk and Milk Products Surveys obtain basic agricultural statistics on milk production and manufactured dairy products from farmers and processing plants throughout the nation. Data are gathered for milk production, dairy products, evaporated and condensed milk, manufactured dry milk, and manufactured whey products. Milk production and manufactured dairy products statistics are used by the U.S. Department of Agriculture (USDA) to help administer federal programs and by the dairy industry in planning, pricing, and projecting supplies of milk and milk products.

Authority: Voluntary dairy information reporting is conducted under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 (7 U.S.C. 2276), which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Mandatory dairy product information reporting is based on the Agricultural Marketing Act of 1946, as amended by the Dairy Market Enhancement Act of 2000 and the Farm Security and Rural Development Act of 2002 (U.S.C. 1637-1637b). This program requires each manufacturer to report to USDA the price, quantity, and moisture content of dairy products sold and each entity storing dairy products to report information on the quantity of dairy products stored. Any manufacturer that processes, markets, or stores less than 1,000,000 pounds of dairy products per year is exempt. USDA is required to maintain information, statistics, or documents obtained under these Acts in a manner that ensures that confidentiality is preserved regarding the identity of persons and proprietary business information, subject to verification by the Agricultural Marketing Service (AMS) under Public Law No. 106-532.

This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, codified at 44 U.S.C. 3501, *et seq.*) and Office of Management and Budget

regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 8 minutes per response. This average is based on the 9 different surveys in the information collection: 4 weekly, 2 monthly, 1 quarterly, and 2 annual. Total annual response is estimated to be 95,000 with an average annual frequency of 3.65 responses per respondent.

Respondents: Farms and businesses.

Estimated Number of Respondents: 26,000.

Estimated Total Annual Burden on Respondents: 12,500 hours. Copies of this information collection and related instructions can be obtained without charge from David Hancock, the Agency Clearance Officer, at (202) 690-2388, or at OMBOfficer@nass.usda.gov.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, June 18, 2008.
