SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the
MMPA (16 U.S.C. 1361 *et seq.*) direct
the Secretary of Commerce to allow,
upon request, the incidental, but not
intentional, taking of small numbers of
marine mammals by United States
citizens who engage in a specified
activity (other than commercial fishing)
within a specific geographical region if
certain findings are made and either
regulations are issued or, if the taking is
limited to harassment, a notice of a
proposed authorization is provided to
the public for review.

Authorization for incidental takings
shall be granted if NMFS finds that the
taking will have a negligible impact on
the species or stock(s), will not have an
unmitigable adverse impact on the
availability of the species or stock(s) for
subsistence uses (where relevant), and if
the permissible methods of taking and
requirements pertaining to the
mitigation, monitoring and reporting of
such takings are set forth. NMFS has
defined "negligible impact" in 50 CFR
216.103 as "* * *an impact resulting
from the specified activity that cannot
be reasonably expected to, and is not
reasonably likely to, adversely affect the
species or stock through effects on
annual rates of recruitment or survival."

With respect to military readiness
activities, the MMPA defines
"harassment" as: "(i) any act that
injures or has the significant potential to
injure a marine mammal stock in the
wild [Level A Harassment]; or (ii) any
act that disturbs or is likely to disturb
a marine mammal or marine mammal
stock in the wild by causing disruption
of natural behavioral patterns,
including, but not limited to, migration,
surfacing, nursing, breeding, feeding, or

sheltering, to a point where such
behavioral patterns are abandoned or
significantly altered [Level B
Harassment]."

Summary of Request

On April 22, 2013, NMFS received an
application from the Navy requesting a
Letters of Authorization (LOA) for the
take of 26 species of marine mammals
incidental to Navy training and testing
activities to be conducted in the MITT
Study Area over 5 years. The Navy is
requesting a 5-year LOA for training and
testing activities to be conducted from
2015 through 2020. The Study Area
includes the existing Mariana Islands
Range Complex, a transit corridor
between the Mariana Islands and the
Hawaii Range Complex, and Navy
pierside locations where sonar
maintenance or testing may occur (see
Figure 2-1 of the Navy's application for
a map of the MITT Study Area). The
activities conducted within the MITT
Study Area are classified as military
readiness activities. The Navy states that
these activities may expose some of the
marine mammals present within the
MITT Study Area to sound from
underwater acoustic sources and
explosives. In addition, incidental takes
of marine mammals may occur from
ship strike. The Navy is requesting
authorization to take 26 marine mammal
species by Level B (behavioral)
harassment; 15 of those marine mammal
species may be taken by injury or
mortality.

Description of the Specified Activity

In the application submitted to
NMFS, the Navy requests authorization
to take marine mammals incidental to
conducting the following training and
testing activities: anti-surface warfare;
anti-submarine warfare; mine warfare;
naval special warfare; major training
activities; Naval Air Systems Command
(NAVAIR) testing; anti-surface warfare
testing; anti-submarine warfare testing;
Naval Sea Systems Command
(NAVSEA) testing; and Office of Naval
Research (ONR) and Naval Research
Laboratory (NRL) testing. Detailed
descriptions of these activities,
including duration, location, and
equipment involved, are provided in the
Navy's application. The Navy has also
prepared a Draft Environmental Impact
Statement (DEIS) analyzing the effects
on the human environment of
implementing their preferred alternative
(among others).

Information Solicited

Interested persons may submit
information, suggestions, and comments
concerning the Navy's request (see

ADDRESSES). All input related to the Navy's MITT request and NMFS' role in governing the incidental taking of marine mammals will be considered by NMFS when developing, if appropriate, the most effective regulations governing the issuance of a Letter of Authorization.
