BILLING CODE P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Modification to Partial Consent Decree Under the Clean Water Act

On February 13, 2023, the Department of Justice lodged a proposed Modification to Partial Consent Decree with the United States District Court for the Middle District of Pennsylvania in the lawsuit entitled *United States and Commonwealth of Pennsylvania Department of Environmental Protection v. Capital Region Water and the City of Harrisburg, PA*, Civil Action No. 1:15–cv–00291–CCC.

The United States and the Pennsylvania Department of Environmental Protection (“PADEP”) jointly filed this lawsuit in February 2015 against Capital Region Water (“CRW”) and the City of Harrisburg alleging violations of the Clean Water Act and the Pennsylvania Clean Streams Law. The complaint sought injunctive relief and civil penalties for alleged unpermitted discharges from the sewer system in Harrisburg, failure to prepare a Long-Term Control Plan in compliance with EPA’s 1994 Combined Sewer Overflow Control Policy (“CSO Policy”), and failure to comply with other requirements of sewer and stormwater National Pollutant Discharge Elimination System (“NPDES”) permits. At the same time, the United States and PADEP also lodged a Partial Consent Decree that required CRW to perform injunctive relief to address the alleged

violations. The Partial Consent Decree resolved all claims against the City of Harrisburg and nearly all claims against CRW, except for claims regarding CRW's implementation of a Long-Term Control Plan and claims for civil penalties against CRW. The Partial Consent Decree became effective on August 24, 2015.

The Modification to Partial Consent Decree refines the 2015 Partial Consent Decree by requiring CRW to perform injunctive measures to ensure that the sewer system is capable of meeting capture goals in a Long-Term Control Plan. Those measures include, among other requirements, construction projects to help bring the sewer system to a functional baseline; public notification of combined sewer overflow events, including real-time monitoring of certain combined sewer outfalls, and submission of a Long-Term Control Plan that complies with EPA's CSO Policy no later than December 31, 2024. The Modification provides the same resolution as the 2015 Partial Consent Decree; it does not resolve claims regarding CRW's implementation of the Long-Term Control Plan and claims for civil penalties against CRW.

The publication of this notice opens a period for public comment on the Modification to Partial Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and Pennsylvania Department of Environmental Protection v. Capital Region Water and City of Harrisburg*, D.J. Ref. No. 90–5–1–1–10157. All comments must be submitted no later than thirty (30) days after the publication date of this notice. BILLING CODE 4410–15–P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Third Amended Consent Decree Under the Clean Water Act

On February 13, 2023, the Department of Justice lodged a proposed Third Amendment to the Consent Decree with the United States District Court for the Northern District of Ohio in the lawsuit entitled *United States v. City of Akron, Ohio, et al.*, Civil Action No. 09–cv–00272.

In this action the United States, and the State of Ohio in a cross-claim, sought civil penalties and injunctive relief for violations of the Clean Water Act, 33 U.S.C. 1251 *et seq.*, in connection with the City of Akron's ("Akron's" or "City's") operation of its municipal wastewater treatment facility and sewer system. Under the Consent Decree, which was approved by the Court in January 2014, Akron was required to implement a comprehensive plan to address overflows from its combined sewer system and bypasses around secondary treatment at the wastewater treatment facility. That plan, known as the "Long Term Control Plan Update" ("LTCP Update"), which was approved by the United States in November 2011 and the State of Ohio in April 2012, sets forth specific projects that the City is required to implement, and identifies dates for completion of these projects.

The proposed amendment modifies provisions of the 2014 Consent Decree that are set forth in the City's LTCP Update. Specifically, the proposed amendment includes: (1) resizing a large tunnel (the Northside Interceptor Tunnel) from 23 million gallons ("MG") to 10.3 MG; and (2) adding a new requirement for sewer separation at one of the City's combined sewer overflow discharge points that would otherwise be controlled by the Northside Interceptor Tunnel.

The publication of this notice opens a period for public comment on the proposed Third Amendment to the Consent Decree. Comments should be

addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. City of Akron et al.*, D.J. Ref. No. 90–5–1–1–3144/2. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
