M313P ...	Consumption on the Cotton System.
M327G ...	Glass Containers.

Annual Survey of Manufactures

The Annual Survey of Manufactures collects industry statistics, such as total value of shipments, employment, payroll, workers' hours, capital expenditures, cost of materials consumed, supplemental labor costs, and so forth. This survey, while conducted on a sample basis, covers all manufacturing industries, including data on plants under construction but not yet in operation.

Survey of Industrial Research and Development

The Survey of Industrial Research and Development measures spending on research and development activities in private U.S. businesses. The Census Bureau collects and compiles this information with funding from the National Science Foundation (NSF). The NSF publishes the results in its publication series. Four data items in the survey provide interim statistics collected in the Census Bureau's Economic Censuses. These items (total company sales, total company employment, and total expenditures and Federally-funded expenditures for research and development conducted within the company) are collected on a mandatory basis under the authority of Title 13, U.S.C. Responses to all other data collected for the NSF are voluntary.

Survey of Plant Capacity Utilization

The Survey of Plant Capacity Utilization is designed to measure the use of industrial capacity. The survey collects information on actual output and estimates of potential output in terms of value of production. These data are the basis for calculating rates of utilization of full production capability and use of production capability under national emergency conditions.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a

penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C., Chapter 45, the OMB approved the 2001 Annual Surveys under the following OMB Control Numbers: Current Industrial Reports—0607–0206, 0607–0392, 0607–0393, 0607–0395, 0607–0476, and 0607–0776; Annual Surveys of Manufactures—0607–0449; Survey of Industrial Research and Development—3145–0027; and Survey of Plant Capacity Utilization—0607–0175. We will provide copies of the form upon written request to the Director, U.S. Census Bureau, Washington, DC 20233–0001.

Based upon the foregoing, I have directed that the Annual Surveys in the Manufacturing Area be conducted for the purpose of collecting these data.

Dated: November 27, 2001.

William G. Barron, Jr.,

Acting Director, Bureau of the Census.

DEPARTMENT OF COMMERCE

Bureau of Export Administration

National Security Assessment of the U.S. Maritime Industry

ACTION: Proposed collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before February 4, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, DOC Paperwork Clearance Officer, (202) 482–3129, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Dawnielle Battle, BXA ICB Liaison, (202) 482–0637, Bureau of

Export Administration (BXA),
Department of Commerce, Room 6877,
14th and Constitution Avenue, NW,
Washington, DC 20230.

SUPPLEMENTARY INFORMATION

I. Abstract

Commerce/BXA, in coordination with the Department of the Navy, Carderock Division, and the Department of Transportation, Maritime Administration is conducting a survey of the U.S. maritime industry in order to assess the health and competitiveness as well as the technology requirements of the forms that comprise this critical sector.

II. Method of Collection

The information will be collected using a non-recurring, mandatory survey. It will be collected in written form.

III. Data

The survey will collect information on the nature of the business performed by each firm; estimated sales and employment data; financial information; research and development expenditures and funding sources; capital expenditures and funding sources; competitiveness issues and technology requirements.

OMB Number: 0694-0113.

Form Number: N/A.

Type of Review: Regular Submission.

Affected Public: The vendor, supplier and manufacturer base of the U.S. Maritime industry.

Estimated Number of Respondents: 2,000.

Estimated Time Per Response: 4.0 hours.

Estimated Total Annual Burden Hours: 8,000 hours.

Estimated Total Annual Cost: No equipment or other materials will need to be purchased to comply with the requirement.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: December 3, 2001.

Madeleine Clayton,

*Departmental Paperwork Clearance Officer,
Office of the Chief Information Officer.*

BILLING CODE 3510-33-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 47-2001]

Foreign-Trade Zone 50, Long Beach, CA, Proposed Foreign-Trade Subzone, Ultramar Diamond Shamrock Corporation (Oil Refinery Complex), Los Angeles, CA

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Board of Harbor Commissioners of the City of Long Beach, grantee of FTZ 50, requesting special-purpose subzone status for the oil refinery complex of Ultramar Diamond Shamrock Corporation (Ultramar), located in Los Angeles, California. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 27, 2001.

The Ultramar refinery complex (120,000 BPD, 54 tanks with 3.1 million barrel capacity on 5.9 million square feet) is located at 2402 East Anaheim Street, Wilmington area of Los Angeles (Los Angeles County), California. The refinery is within the Long Beach port of entry.

The "Wilmington" refinery (435 full-time and 133 contract employees) is used to produce fuels and petrochemical feedstocks. Fuel products include gasoline, jet fuel, distillates, residual fuels, naphthas and motor fuel blendstocks. Petrochemical feedstocks and refinery by-products include propane, butane, petroleum coke and sulfur. Some 35 percent of the crude oil and natural gas condensate (54 percent of inputs) is sourced abroad. The company is also requesting to import certain intermediate inputs (naphthas and gas oils) under FTZ procedures. Currently 35 percent of the refinery's intermediate inputs are foreign-sourced.

Zone procedures would exempt the refinery from Customs duty payments

on the foreign products used in its exports. On domestic sales, the company would be able to choose the Customs duty rates that apply to certain petrochemical feedstocks and refinery by-products (duty-free) by admitting incoming foreign inputs (crude oil, natural gas condensate, gas oil, naphtha) in non-privileged foreign status. The duty rates on inputs range from 5.25¢/barrel to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below.

The closing period for their receipt is [60 days from date of publication]. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to February 19, 2002).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, One World Trade Center, Suite 1670, Long Beach, CA 90831.

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 4008, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: November 29, 2001.

Dennis Puccinelli,

Executive Secretary.
