

acres of additional land. The study area for land acquisition consisted of areas neighboring Fort Benning capable of supporting military training. The Army held public meetings and received numerous comments on the Draft EIS.

In July, 2015, Fort Benning completed an Environmental Assessment (EA) for Enhanced Training, which considered converting the Armor Brigade Combat Team (BCT) to an Infantry BCT; and relocating the ARC heavy mechanized training to the Good Hope Maneuver Training Area (GHMTA), an area on the current Fort Benning without Red-Cockaded Woodpeckers. These changes would allow the Infantry BCT and the ARC to train without the need to acquire additional training land. In July 2015, the Army announced the decision to convert the Armor BCT to an Infantry Battalion Task Force (a smaller unit than a BCT). In October 2015, the Army signed a Finding of No Significant Impact based on the July EA, selecting the conversion and ARC relocation alternative. In December 2015, the U.S. Fish and Wildlife Service issued a BO finding that the relocation of the ARC heavy mechanized training to the GHMTA was the "equivalent" of moving the training off Fort Benning, as called for by the 2009 BO. Since an Infantry BCT (and the smaller task force) can train on the current Fort Benning, and there is no longer a need to find land off the installation to comply with the BO, the requirement for additional training land has been greatly reduced. Therefore Army is withdrawing the NOI and the Draft EIS for the proposed training land expansion. This ends the NEPA process for this action. The Army's most recent Fiscal Year 2017 budget submission and associated future years defense program for the next five fiscal years (thru Fiscal Year 2021) does not include any programmed funds to acquire land at Fort Benning. If land acquisition at Fort Benning were ever to be pursued in the future, a new NOI would be published.
