

Power Project (dated June 27, 2006), the State of North Carolina (dated June 26, 2006), and Southern Environmental Law Center (on behalf of Southern Environmental Law Center, Sierra Club, and Environment North Carolina) (dated June 27, 2006). The EPA considered the petitions and supporting information along with information contained in the rulemaking docket (Docket No. EPA-OAR-HQ-2004-0076) in reaching a decision on the petitions. EPA Administrator Stephen L. Johnson denied the petitions for reconsideration in separate letters to the petitioners dated February 27, 2007 to ARRIPA and to Colver Power Project and dated May 7, 2007 to Southern Environmental Law Center and to the State of North Carolina. The letters explain EPA's reasons for the denials.

II. Judicial Review

Section 307(b)(1) of the Clean Air Act indicates which Federal Courts of Appeals have venue for petitions for review of final actions by EPA. This section provides, in part, that the petitions for review must be filed in the Court of Appeals for the District of Columbia Circuit if (i) the agency action consists of "nationally applicable regulations promulgated, or final action taken, by the Administrator," or (ii) such actions are locally or regionally applicable, if "such action is based on a determination of nationwide scope or effect and if in taking such action the Administrator finds and publishes that such action is based on such a determination."

The EPA has determined that its actions denying the petitions for reconsideration are of nationwide scope and effect for purposes of section 307(d)(1) because the actions directly affect the CAIR FIPs-Section 126 Rule, which previously was found to be of nationwide scope and effect. Thus, any petitions for review of the letters denying the petitions for reconsideration described in this Notice must be filed in the Court of Appeals for the District of Columbia Circuit within 60 days from the date this Notice is published in the **Federal Register**.
