Cobb Customer Requesters v. Cobb Electric Membership Corporation, Cobb Energy Management Corporation, Cooperative Energy Inc., Power4Georgians LLC, Dwight T. Brown, W.T. Nelson III; Notice of Complaint

Take notice that on April 26, 2011, Cobb Customer Requesters (CCR or Complainant) filed a complaint against Cobb Electric Membership Corporation

(Cobb EMC), Cobb Energy Management Corporation (Cobb Energy), Cooperative Energy Inc. (CEI), Power4Georgians LLC (P4G), Mr. Dwight T. Brown and Mr. W.T. Nelson III (Respondents). CCR requests the Commission institute an investigation into alleged acts involving the failure to comply with the Federal Power Act and the Commission's regulations. In support of its complaint and request for investigation, CCR points to what it identifies as a series of misstatements, omissions and inaccurate filings with the Commission in relation to Cobb EMC's, and its affiliate, CEI's, request for and the Commission's authorization of market-based rate authorization, and the request for and the Commission's authorization of the holding of interlocking positions by an official of both Cobb EMC and CEI. CCR also points to what it describes as violations of the Commission's rules prohibiting affiliate cross-subsidization and other affiliate abuses associated with dealings among the respondents.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. [Docket No. CP11-31-000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Availability of the Environmental Assessment for the Proposed Mid-Atlantic Connector Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Mid-Atlantic Connector Expansion Project (MAC Expansion Project) proposed by Transcontinental Gas Pipe Line Company, LLC (Transco) in the above-referenced docket. Transco requests authorization to abandon, construct, and operate certain natural gas pipeline facilities on its existing mainline system in Prince William, Fairfax, Fluvanna, and Pittsylvania Counties, Virginia. The purpose of the MAC Expansion Project is to increase capacity by 142,000 dekatherms per day from Transco's Cascade Creek Interconnect in Rockingham County, North Carolina, to delivery points in Virginia and Maryland.

The EA assesses the potential environmental effects of the construction and operation of the MAC Expansion Project in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The National Park Service (NPS) participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The NPS will adopt and use the EA to consider the issuance of a right-of-way grant for the portion of the MAC Expansion Project on Federal lands.

Transco's proposed MAC Expansion Project includes the following facilities:

- Installation of about 2.8 miles of new 42-inch-diameter pipeline looping¹ and replacement in Prince William and Fairfax Counties;
- Modifications at Transco's existing Compressor Stations 165 and 175 in Pittsylvania and Fluvanna Counties;

¹ A pipeline loop is constructed parallel to an existing pipeline to increase capacity.
